Singing Out Heather MacLachlan,2020-12-01 Can you change the world through song This appealing idea has long been the professed aim of singers who are part of choruses affiliated with the Gay and Lesbian Association of Choruses GALA Theses choruses first emerged in the 1970s and grew out of a very American tradition of often gender segregated choral singing that explicitly presents itself as a community based activity By taking a close look at these choruses and their mission Heather MacLachlan unpacks the fascinating historical and cultural dynamics behind groups that seek to change society for the better by encouraging acceptance of LGBT identified people and promoting diversity more generally She characterizes their mission as integrationist rather than liberationist and zeroes in on the inherent tension between GALA s progressive social goals and the fact that the music most often performed by GALA groups is deeply rooted in a fairly narrowly conceived tradition of art music that identifies as white Euro centric and middle class and that much of the membership identifies as white and middle class as well Pundits often wax eloquent about the power of music asserting that it can in some positive way change the world Such statements often rest on an unexamined claim that music can and does foster social justice Singing Out GALA Choruses and Social Change tackles the premise underlying such claims analyzing groups of amateur singers who are explicitly committed to an agenda of social justice

Congress, 1969 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789-1824, the Register of Debates in Congress 1824-1837, and the Congressional Globe 1833-1873. **Tongass National Forest (N.F.), Land Management Plan Revision: Environmental Impact Statement**, 1997 *Galveston Bay* Sally E. Antrobus, 2005-09-05 Galveston Bay is the recreational center of the Texas coast, a fishing, boating, and birdwatching playground for the almost four million people who live on or near it. A shallow estuary of about 350,000 acres, the bay supports a rich assortment of wildlife and a commercial fishery that pulls millions of pounds of crabs, shrimp, and oysters from the water each year. Gateway to the Port of Houston, Galveston Bay is also a major corridor for huge volumes of international shipping and is home to the nation's largest petrochemical manufacturing complex. How can such divergent and apparently contradictory activities all coexist? Setting out to find some answers, Sally Antrobus has produced a book for residents and visitors alike that tunes them in to what is happening in and to the bay. The book she wished for when she first came to live nearby. Beginning with a short incisive history of the peopling of the area, Antrobus describes how the bay works ecologically and how it is put to work for recreation and for commerce; how nature both contributes to and controls the human enterprise there; and how power and politics can destroy all the bay has to offer. Antrobus serves as an expert guide for those who want to discover hidden destinations and attend events that celebrate the life on Galveston Bay. Her resources section offers a wealth of ways to become active in local conservation efforts, reminding us there is much to hope for but also much to do to ensure the survival of this great bay. **Bibliography of Scientific and Industrial Reports**, 1946 Small Press Record of Books in Print Len Fulton, 1993
