## **Gorbachev And His Reforms 1985 199:**

**Gorbachev and His Reforms, 1985-1990** Richard Sakwa,1991 This study looks at the scope and significance of the reforms in the Soviet Union under the leadership of Mikhail Gorbachev since his election as General Secretary of the Communist Party in March 1985 Based on a range of readings from Soviet and Western sources the book deals with a number of aspects of reform in the USSR under Gorbachev s leadership spanning question of leadership politics and ideological changes the perestroika of the economy and the new thinking in foreign policy **The Former Soviet Union in Transition** ,1993 *The Warsaw Pact, 1985-1991- Disintegration and Dissolution* Matej Bily,2022-12-30 This book analyzes the last phase of the Warsaw Pact based on unusually large scale archival research conducted in many countries Focusing on the changes in the organization s functioning after Mikhail Gorbachev came to power in the Soviet Union the author examines the role played by the Warsaw Pact in the final stages of the Cold War as well as exploring the deepening conflicts between individual member states which resulted from the changing international situation and Gorbachev s initiatives to reform the East European state socialist dictatorships The book argues that the causes of the rapid dissolution of the Warsaw Pact in the early 1990s were due to many complicated factors not simply the collapse of communist power in Eastern Europe factors such as the loss from early in the second half of the 1980s of important internal ties and the failure to create new ties disputes between individual member states and the questioning of the overall legitimacy of the organization which was indispensable for its effective functioning The book also highlights the impact of external pressures and developments on the international scene Overall the book reveals how an apparently robust and solid multilateral organization can so quickly and unexpectedly disappear *Gorbachev and His Reforms* Richard Sakwa,1991 **Fast Forward** Torry D. Dickinson,Robert K. Schaeffer,2001 This innovative global feminist analysis of work and politics examines the diverse problems and related protests of women and men who labor to make ends meet in a rapidly changing world Using vivid examples from around the world it reveals how globalization is reshaping social institutions and lives Fast Forward explores how businesses and states reshaped and redistributed work around the world during the last 30 years of globalization often with adverse consequences Within this fast moving context laboring people today engage in work outside of formal employment try to obtain survival resources mount a diverse array of often women centered protests against firms and states and try on their own terms to reinvent work and democratic political practices Portraying the human face of global change Fast Forward shows how overlapping social movements wrestle with economic and political marginalization and initiate highly diverse but related attempts to change the way the world works *The Soviet Union under Gorbachev (Routledge Revivals)* David A. Dyker,2013-09-13 Gorbachev s accession to General Secretary promised great changes to the Soviet Union and its relationship with the rest of the world This book first published in 1987 discusses the problems faced by Gorbachev when he entered office and how he planned to tackle them Gorbachev was a figure of genuine debate in the mid 1980s raising doubts

from Western specialists regarding his radicalism and ability to reform the Soviet economic system in particular Here Dyker and his colleagues assess the changes Gorbachev had already made to consolidate his power base alongside those that he was proposing to make to agriculture industry and foreign relations at the time of publication The book speculates about how Gorbachev might implement his proposed political and economic reforms what opposition he might encounter and how successful he would be A fascinating insight into Soviet economic and political policy in the years leading up to the Union s collapse this work will be of particular importance to students and academics researching the personality of Gorbachev and the political and economic history of the Soviet Union

*Unparalleled Reforms* Christopher Marsh, 2005-01-01 The reforms of the

Soviet and Chinese communist regimes were unparalleled both in the radical precedent setting reforms attempted by the two countries and in the outcomes of these attempts. While the Soviet Union collapsed quickly in the midst of its reforms, more than a decade later China, the world's most populous country, still stands as a testament to the resilience of Communist rule. It is this phenomenon that Christopher Marsh explores in *Unparalleled Reforms*. Marsh goes beyond simply discussing the differing initial conditions, the sequencing of reform, and cultural differences to also consider the objectives and intentions of the policy makers and leaders that directed the reform processes and the interdependent nature of politics on the world stage. *Unparalleled Reforms* offers the reader a sophisticated understanding of the nature of political reform and develops a theoretical model that can account for commonly overlooked factors that affect political processes in all types of political systems. In a class all its own, this is an important work for scholars interested in comparative politics, international relations, economics, Asian studies, and Russian studies.

**Comrades No More** Renee De Nevers, 2003-06-20 In 1989, Soviet control over Eastern Europe ended when the communist regimes of the Warsaw Pact collapsed. These momentous and largely bloodless events set the stage for the end of the Cold War and ushered in a new era in international politics. Why did communism collapse relatively peacefully in Eastern Europe? Why did these changes occur in 1989, after more than four decades of communist rule? Why did this upheaval happen almost simultaneously in most of the Warsaw Pact? In *Comrades No More*, Renee de Nevers examines how internal and external factors interacted in the collapse of East European communism. She argues that Gorbachev's reforms in the Soviet Union were necessary to start the process of political change in Eastern Europe, but domestic factors in each communist state determined when and how each country abandoned communism. A demonstration effect emerged as Hungary and Poland introduced reforms and showed that Moscow would not intervene to prevent political and economic changes. De Nevers analyzes the process of change in Hungary, Poland, Bulgaria, the German Democratic Republic, Czechoslovakia, and Romania. She traces the pattern of reform in each country and shows how these patterns influenced their postcommunist political evolution.

The Cold War Jeremy Black, 2015-10-29 The term the Cold War has had many meanings and interpretations since it was originally coined and has been used to analyse everything from comics to pro-natalist policies and science fiction to gender politics. This range has great value but also poses problems, notably by diluting the focus on war of a certain type and by exacerbating a lack of precision in definition and analysis. *The Cold War: A Military History* is the first survey of the period to focus on the diplomatic and military confrontation and conflict. Jeremy Black begins his overview in 1917 and covers the long Cold War from the 7th November Revolution to the ongoing repercussions and reverberations of the conflict today. The book is forward-looking as well as retrospective, not least in encouraging us to reflect on how much the character of the present world owes to the Cold War. The result is a detailed survey that will be invaluable to students and scholars of military and international history.

**Patronage and Politics in the USSR** John P. Willerton, 1992 How do Soviet politicians rise to power? How are national and regional regimes formed?

How are conflicting political interests brought together as policies are developed in the Soviet Union In Patronage and Politics in the USSR first published in 1991 Professor John Willerton offers major insights into the patronage networks that have dominated elite mobility regime formation and governance in the Soviet Union during the past twenty five years Using the biographical and career details of over two thousand national leaders and regional officials in Azerbaijan and Lithuania John Willerton traces the patron client relations underlying recruitment mobility and policymaking He explores the strategies of power consolidation and coalition building used by Soviet chief executives since 1964 as well as the institutional links and policy outcomes that have resulted from network politics The author also assesses the manner and extent to which leaders in politically stable and less stable settings spanning different national cultural contexts have relied upon patronage networks to consolidate power and to govern Finally Professor Willerton explores how in a period of dramatic change patron client networks may have given way to institutionalised interest groups and political parties

**The Fall of Soviet Communism, 1986-1991** Jeremy Smith,2017-03-16 The fall of communism and the break up of the Soviet Union into 15 independent states in December 1991 was one of the most significant events of the 20th century In the last years of Soviet rule images of mass protests on the streets of Moscow Tbilisi and Vilnius bloodshed in Baku striking miners Mikhail Gorbachev wooing the West

and Boris Yeltsin defiantly mounting a tank in front of the White House building in Moscow shattered all of the old certainties about the seemingly unbreakable communist system Gorbachev and Yeltsin were the dominant figures in this process but non Russian national movements workers intellectuals and international developments all had roles to play Jeremy Smith presents the dramatic events of 1985 91 in a clear and succinct form setting out a variety of interpretations for the demise of communism in the Soviet Union and suggesting new approaches to answering the unresolved question of why it happened Smith discusses the long term and short term factors behind the extraordinary collapse assessing the impact of economic crisis nationalism personalities and democratization in the process
