HOPE Teacher Rating Scale Marcia Gentry, Nielsen Pereira, Scott J. Peters, Jason S. McIntosh, C. Matthew Fugate, 2021-09-03 The HOPE Teacher Rating Scale is designed to help guide teachers in identifying gifted students for programming. It is unique in several ways. First, it is short with only 11 items that measure academic and social affective components of giftedness, making it easy to use. Second, it is invariant when used to identify students from low income and culturally diverse families. Third, it can be used across grade levels K-12. Finally, local norms ensure that the data are relevant to the specific school populations. With multiple measures and multiple pathways crucial for reversing the inequities in identifying culturally, economically, and linguistically diverse students, a teacher nomination instrument like the HOPE Teacher Rating Scale is an important component of identification systems. The HOPE Teacher Rating Scale items have been well developed and subjected to research using more than 12,000 diverse students in five validity studies to date. This manual is useful in understanding and interpreting the electronic scores generated from teachers' ratings of their students. This instrument is a must-have for any administrator or gifted program coordinator involved in student identification. Each chapter of this Teacher's Guide receives a five-part treatment: a short summation of the chapter's contents, questions and answers about the chapter, a list of key names and terms appearing within each, one crossword puzzle based on those names and terms, and one or more primary source documents for class analysis with accompanying questions and answers. Longer documents are broken into shorter passages with questions interspersed to help younger readers. This Teacher's Guide also features a collection of map exercises as well as special units to assist instructors in teaching students about the Declaration of Independence, the Constitution, the Bill of Rights, and the two-party system.
