## From Self To Sources Custom:

**Sources on Jewish Self-Government in the Polish Lands from Its Inception to the Present** François Guesnet, Jerzy Tomaszewski z"l, 2022-01-04 This source reader invites you to encounter the world of one thousand years of Jewish self government in eastern Europe It tells about the beginnings in the Middle Ages delves into the unfolding of communal hierarchies and supra communal representation in the early modern period and reflects on the impact of the partitions of the Polish Lithuanian Commonwealth and of growing state interference as well as on the communist and post communist periods Translated into English from Hebrew Latin Yiddish Polish Russian German and other languages in most cases for the first time the sources illustrate communal life the interdependence of civil and religious leadership the impact of state legislation Jewish non Jewish encounters reform projects and political movements but also Jewish resilience during the Holocaust The reviewed volume is a valuable publication reflecting the considerable work of the editors authors and translators It allows English speaking readers to reach out to materials previously inaccessible linguistically Most importantly it allows to include and or introduce the history of Polish Jews into the didactics of universities worldwide Anna Micha owska Mycielska Studia Judaica quote was translated from Polish The collection of sources provides expert introductions to the individual period chapters which consider both Jewish and non Jewish material Throughout the volume successfully illustrates the complex realities of Jewish self governance in the Polish and Lithuanian lands It represents an important contribution especially for the academic classroom Beyond the breadth of evidence and the concise discussion of the various periods the volume fulfils its promise of providing an entangled history J rgen Heyde Zeitschrift f r Ostmitteleuropaforschung 73 1 2024 quote was translated from German *Sources of the Self* Charles Taylor, 1992-03-01 Taylor shows that the modern turn inward is not disastrous but is in fact the result of our long efforts to define and reach the good At the heart of this definition he finds the affirmation of ordinary life a value that has decisively if not completely replaced an older conception of reason as connected to a hierarchy based on birth and wealth *Numerical Algorithms for Personalized Search in Self-organizing Information Networks* Sep Kamvar, 2010-09-07 This book lays out the theoretical groundwork for personalized search and reputation management both on the Web and in peer to peer and social networks Representing much of the foundational research in this field the book develops scalable algorithms that exploit the graphlike properties underlying personalized search and reputation management and delves into realistic scenarios regarding Web scale data Sep Kamvar focuses on eigenvector based techniques in Web search introducing a personalized variant of Google s PageRank algorithm and he outlines algorithms such as the now famous quadratic extrapolation technique that speed up computation making personalized PageRank feasible Kamvar suggests that Power Method related techniques ultimately should be the basis for improving the PageRank algorithm and he presents algorithms that exploit the convergence behavior of individual components of the PageRank vector Kamvar then extends the ideas of reputation management and personalized search to distributed networks

like peer to peer and social networks He highlights locality and computational considerations related to the structure of the network and considers such unique issues as malicious peers He describes the EigenTrust algorithm and applies various PageRank concepts to P2P settings Discussion chapters summarizing results conclude the book s two main sections Clear and thorough this book provides an authoritative look at central innovations in search for all of those interested in the subject

*Self-Determination as Voice* Natalie Jones,2024-01-18 Self Determination as Voice addresses the relationship between Indigenous peoples participation in international governance and the law of self determination Many states and international organizations have put in place institutional mechanisms for the express purpose of including Indigenous representatives in international policy making and decision making processes as well as in the negotiation and drafting of international legal instruments Indigenous peoples rights have a higher profile in the UN system than ever before This book argues that the establishment and use of mechanisms and policies to enable a certain level of Indigenous peoples participation in international governance has become a widespread practice and perhaps even one that is accepted as law In theory the law of self determination supports this move and it is arguably emerging as a rule of customary international law However ultimately the achievement of the ideal of full and effective participation in a manner that would fulfil Indigenous peoples right to self determination remains deferred

**Digital Personalized Health and Medicine** L.B. Pape-Haugaard,C. Lovis,I. Cort Madsen,2020-06-17 Digital health and medical informatics have grown in importance in recent years and have now become central to the provision of effective healthcare around the world This book presents the proceedings of the 30th Medical Informatics Europe conference MIE This edition of the conference hosted by the European Federation for Medical Informatics EFMI since the 1970s was due to be held in Geneva Switzerland in April 2020 but as a result of measures to prevent the spread of the Covid19 pandemic the conference itself had to be cancelled Nevertheless because this collection of papers offers a wealth of knowledge and experience across the full spectrum of digital health and medicine it was decided to publish the submissions accepted in the review process and confirmed by the Scientific Program Committee for publication and these are published here as planned The 232 papers are themed under 6 section headings biomedical data tools and methods supporting care delivery health and

prevention precision medicine and public health human factors and citizen centered digital health and ethics legal and societal aspects A 7th section deals with the Swiss personalized health network and section 8 includes the 125 posters accepted for the conference Offering an overview of current trends and developments in digital health and medical informatics the book provides a valuable information resource for researchers and health practitioners alike

**The Sources of International Law** Hugh Thirlway, 2019-04-04 This new edition of Hugh Thirlway's authoritative text provides an introduction to one of the fundamental questions of the discipline what is and what is not a source of international law Traditionally treaties between states and state practice were seen as the primary means with which to create international law However more recent developments have recognized customary international law alongside international treaties and instruments as a key foundation upon which international law is built This book provides an insightful inquiry into all the recognized or asserted sources of international law It investigates the impact of ethical principles on the creation of international law whether soft law norms come into being through the same sources as binding international law and whether jus cogens norms and those involving rights and obligations erga omnes have a unique place in the creation of international legal norms It studies the notion of general principles of international law within international law's sub disciplines and the evolving relationship between treaty based law and customary international law Re-examining the traditional model it investigates the increasing role of international jurisprudence and looks at the nature of international organisations and non state actors as potential new sources of international law This revised and updated book provides a perfect introduction to the law of sources as well as innovative perspectives on new developments making it essential reading for anyone studying or working in international law

**Justice, Legitimacy, and Self-Determination** Allen Buchanan, 2003-08-21 This book articulates a systematic vision of an international legal system grounded in the commitment to justice for all persons It provides a probing exploration of the moral issues involved in disputes about secession ethno national conflict the right of self determination of peoples human rights and the legitimacy of the international legal system itself Buchanan advances vigorous criticisms of the central dogmas of international relations and international law arguing that the international legal system should make justice not simply peace among states a primary goal and rejecting the view that it is permissible for a state to conduct its foreign policies exclusively according to what is in the the national interest He also shows that the only alternatives are not rigid adherence to existing international law or lawless chaos in which the world's one superpower pursues its own interests without constraints This book not only criticizes the existing international legal order but also offers morally defensible and practicable principles for reforming it Justice Legitimacy and Self-Determination will find a broad readership in political science international law and political philosophy Oxford Political Theory presents the best new work in political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied political theory The series contains works of outstanding quality with no restrictions as to approach

or subject matter Series Editors Will Kymlicka David Miller and Alan Ryan     Minorities, Minority Rights and Internal Self-Determination Ulrike Barten, 2014-09-23 The book questions the classic idea of self determination the right to self determination is a right of peoples not of minorities by examining the content of the right to self determination and the content of minority rights Self determination has four dimensions the political the economic the social and the cultural dimensions Minorities have minority rights that touch on most aspects of life as a member of a minority If there is an overlap between minority rights and the different dimensions of self determination the concept that the right to self determination is only applicable to peoples loses credibility No global and general conclusion is envisaged there are restrictions in place The work is limited to the European framework and is further restricted to classic minorities The argument is based on a legitimacy and justice approach The analysis in this book shows that some minority rights overlap with the different dimensions of internal self determination In short classic minorities in Europe have a right to internal self determination
