

Lord Voldemort

Ficquotes

A still from the Harry Potter film series showing Lord Voldemort, played by Alan Rickman, standing in a crowd. He is bald with pale, snake-like skin and is wearing a dark green robe. He has a serious, menacing expression. In the background, a crowd of people, including Hermione Granger on the left, are visible, looking towards him. The setting appears to be a town square or a large gathering place with buildings in the distance.

Tracking the Weretiger Patrick Newman,2012-10-03 Drawing on dramatic accounts by

European colonials and on detailed studies by folklorists and anthropologists this work explores intriguing age old Asian beliefs and claims that man eating tigers and little tigers or leopards alike were in various ways supernatural It is a serious work based on extensive research written in a lively style Fundamental to the book is the evocation of a long vanished world When a man eater struck in colonial times people typically said it was a demon sent by a deity or even the deity itself in animal form punishing transgressors and being guided by its victims angry spirits Colonials typically dismissed this as superstitious nonsense but given traditional ideas about the close links between people tigers and the spirit world it is quite understandable Other man eaters were said to be shapeshifting black magicians The result is a rich fund of tales from India and the Malay world in particular and while some people undoubtedly believed them others took advantage of man eaters to persecute minorities as the supposed true culprits The book explores the prejudices behind these witch hunts and also considers Asian weretiger and wereleopard lore in a wider context finding common features with the more familiar werewolves of medieval Europe in particular
