Future Nothingness Already:

Nothingness Jytte Bang, 2017-07-05 This book addresses nothingness as not only the intangible presence of an emotional cultural social or even political void that is felt on an existential level but has some solid foundations in reality The death of a loved one the social isolation of an individual or the culture shock one may experience in another country are examples of situations in which an external sense of absence mirrors an internal psychological and philosophical sense of nothingness Not much has been explicitly written on nothingness in the history of psychology On the other hand nothingness seems to be implicitly embedded in many scholars work This duality of explicitly and implicitly expressed ideas about nothingness reveals how psychology finds inspiration in philosophy and vice versa The book aims to illustrate how the concept of the presence of absence nothingness fills a void in contemporary psychological theorizing Nothingness, Metanarrative, and Possibility

William E. Marsh, 2009-08-14 What is the solution to human angst and nothingness the gnawing emptiness and frustration with the limits and fragility of this present existence After reviewing the work of Søren Kierkegaard Friedrich Nietzsche Martin Heidegger and Jean Paul Sartre on this question this work argues that the proper response must be metaphysical metanarrative a transcendent metaphysical metanarrative that is the ground of all that is yet a metaphysical metanarrative that makes the fullness of meaning available and apprehensible in physical experience This metanarrative this work asserts is the logos the ultimate referent principle of the ancient Greeks and according to Christianity the God man Jesus Christ the eternal become present in present experience Because the logos constitutes transcendence in human form it recognizes the beauty of existential experience even as it underscores the necessity of transcendence for temporal meaning The logos as metaphysical metanarrative brings the worlds of time and eternity together linking earth and the beyond in a seamless whole It is the ultimate existential experience **Being and**

Nothingness Jean-Paul Sartre, 1992 Sartre explains the theory of existential psychoanalysis in this treatise on human reality

Future Nothingness Already James Michael White, 2005-04 Future Nothingness Already is a travel adventure story in the life of the mind The action of the novel develops thematically rather than dramatically in an expository poetic narrative that includes interconnected short stories poems and stream of consciousness essays The context is an exploration of esoteric knowledge from several traditions It also deals with the literary and poetic scene around Naropa Institute during the 1980s It is set in the hills of Tennessee but ranges far and wide It is a book of search and discovery It is a quest to expand awareness and find freedom beyond the bounds of conventionality It is a continual pursuit of the muse It is an alchemical text that attempts to distill beauty from everyday life It reaches into the Buddhist tradition in all its major schools the Fourth Way school of Gurdjieff the Native American traditions especially the Sioux and Cherokee and into modern poetry as a vehicle of liberation The characters in this free wheeling narrative include Allen Ginsberg William Burroughs Gregory Corso Harry Smith Herbert Huncke Gary Snyder Ken Kesey and Philip Whalen The Sioux shaman Fools Crow is also a character along

with Khenchen Palden Sherab Rinpoche the Buddhist saint Asanga the well known Sioux holy man Black Elk Pierre Eliot Sogyal Rinpoche Zen Master Seung Sahn G I Gurdjieff Khenpo Tsewang Dongyal Rinpoche Trungpa Rinpoche Cherokee Herbal Medicine Man Aminita Sequoia and Dhyani Ywahoo

The Existentialist's Guide to Death, the Universe and Nothingness Gary Cox, 2011-11-17 The Existentialist's Guide to Death the Universe and Nothingness is an entertaining philosophical guide to life love hate freedom sex anxiety God and death a guide to everything and nothing Gary Cox bestselling author of How to Be an Existentialist and How to Be a Philosopher takes us on an exciting journey through the central themes of existentialism a philosophy of the human condition The Existentialist's Guide fascinates informs provokes and inspires as it explores existentialism's uncompromising view of human reality It leaves the reader with no illusions about how hard it is to live honestly and achieve authenticity It has however a redeeming humour that sets the wisdom of the great existentialist philosophers alongside the wit of great musicians and comedians A realistic self help book for anyone interested in personal empowerment The Existentialist's Guide offers a wealth of profound philosophical insight into life the universe and everything

The Existence of Time Jean de Climont, 2019-05-29 This essay is an history of time theories since the Antiquity

If Auschwitz is Nothing Donatella Di Cesare, 2023-03-03 Ever since the end of World War II when the sheer enormity of the Nazi crime against the Jews became apparent there have been repeated attempts to deny that the Holocaust really happened The existence of gas chambers was questioned and the testimony of survivors was thrown into doubt the more witnesses spoke out the more they were intimidated and attacked by a denialism that sought to present itself as a search for historical truth The accusation of trickery and deception so central to the centuries old anti Jewish hatred continues to thrive in the present Today denialism takes a new and more insidious form Jews are accused of exploiting the cult of the Holocaust to justify the state of Israel and to take the reins of political power Holocaust denial has merged with conspiracy theories alleging the existence of a Jewish controlled New World Order Concisely and authoritatively acclaimed philosopher Donatella Di Cesare reconstructs the evolution of denialism and sheds new light on one of the most troubling phenomena of our time

Afterlives: Allegories of Film and Mortality in Early Weimar Germany Steve Choe, 2014-07-31 Weimar cultural critics and intellectuals have repeatedly linked the dynamic movement of the cinema to discourses of life and animation Correspondingly recent film historians and theorists have taken up these discourses to theorize the moving image both in analog and digital But many important issues are overlooked Combining close readings of individual films with detailed interpretations of philosophical texts all produced in Weimar Germany immediately following the Great War *Afterlives: Allegories of Film and Mortality in Early Weimar Germany* shows how these films teach viewers about living and dying within a modern mass mediated context Choe places relatively underanalyzed films such as F W Murnau's *The Haunted Castle* and Arthur Robison's *Warning Shadows* alongside Martin Heidegger's early seminars on phenomenology Sigmund Freud's *Reflections upon War and Death* and Max Scheler's critique of resentment It is the experience of war trauma that

underpins these correspondences and Choe foregrounds life and death in the films by highlighting how they allegorize this opposition through the thematics of animation and stasis

Philosophy as Metanoetics Hajime Tanabe, 1986 Tanabe's agenda was not religious but philosophical in that he tried to integrate Eastern and Western insights in order to acquire a cross cultural philosophical vision for the post war world community This book shows his superior philosophical originality It is high time that Tanabe's thought should be introduced to the West Joseph Kitagawa University of Chicago

The Metaphysics of Terror Rasmus Ugilt, 2014-03-13 This groundbreaking study aims to provide a philosophical analysis of the phenomenon of terror in particular the political reactions to it such as public anxiety and pre-emptive wars and to re-articulate the understanding of metaphysics through a consideration of its political implications The book reveals that the key feature of terror is potentiality that is terror is always about what could happen as opposed to what is likely to happen This notion helps broaden the scope of the investigation as the argument spans the ontology political psychology political cosmology and political theology of terror Each chapter begins with an empirical discussion examining such topics as the political practices in reaction to terror the politics of fear warfare sovereignty and the debates about the state of exception in relations to anti-terrorism laws This unique examination of our political reality uncovers the axiom of terrorism namely its potentiality Going beyond the scope of terrorism studies it explains the philosophical underpinnings of terror without compromising on the empirical facts drawn from policymaking jurisprudence and related fields

The Late Foucault Marta Faustino, Gianfranco Ferraro, 2020-12-10 Michel Foucault is one of the most important and controversial thinkers of the twentieth century and one of the leading figures in contemporary Western intellectual life and debate The recent publication of his last lecture courses at the Collège de France 1981-1984 together with the short texts essays and interviews from the same period have sparked new interest in his work allowing for a new understanding of his philosophical trajectory and challenging several interpretations produced over the last few decades In this later phase of his thinking Foucault deepens and expands the course of his preceding works on the genealogy of subjectivity while at the same time adding a significant ethical and political dimension to it His focus on the ancient ethics of care of the self and technologies of self constitution during this period adds important nuances to his previous positions on power truth and subjectivity shedding new light on his philosophical endeavour as a whole and situating his reflections at the centre of current moral debates Focusing on the last stage of Foucault's thought this book brings together international scholars to relaunch the critical debate on the significance of Foucault's so-called ethical turn and to discuss the ways in which the perspectives offered by Foucault in this period might help us to unravel modernity giving us the tools to understand and transform our present ethically and politically

Oppression and the Human Condition Thomas Martin, 2002 Oppression and the Human Condition is both a valuable teaching tool and an insightful addition to scholarship on the philosophy of Jean-Paul Sartre Students and teachers will find it an excellent and accessible introduction to Sartre's existentialism ideal for courses in existentialist and

20th century philosophy Equally Sartre scholars will find that the book especially the sections on oppression and bad faith gives them much to think about Author Thomas Martin applies Sartre s philosophy to contemporary issues and concerns and draws on two case studies to make his point The cases examine modern day oppressors in one case an anti semite in the other a sexist who objectifies women in the context of Sartre s bad faith The case studies also reinforce Martin s argument that Sartre s early philosophy especially his concept of bad faith provides a framework for discussions of oppressions such as racism and sexism

The Meaning of Mourning Mikolaj Slawkowski-Rode,2023-01-09 Grief is a universal human response to death and loss Mourning is an equally universally observable practice that enables the bereaved to express their grief and come to terms with the reality of loss Yet despite their prevalence there is no unified understanding of the nature and meaning of grief and mourning The Meaning of Mourning Perspectives on Death Loss and Grief brings together fifteen essays from diverse disciplines addressing the topics of death grief and mourning The collection moves from general questions concerning the putative badness of death and the meaning of loss through the phenomenology and psychology of grief to personal and cultural aspects of mourning Contributors examine topics such as theodicy and grief reproductive loss mourning as a form of recognition of value the roots of grief in early childhood grief in COVID times hope phenomenology of loss public commemoration and mourning rituals mourning for a devastated culture the Necropolis of Glasgow and the art of outliving Edited by Mikolaj Slawkowski Rode the volume provides a survey of the rich topography of methodologies problems approaches and disciplines that are involved in the study of issues surrounding loss and our responses to it and guides the reader through a spectrum of perspectives highlighting the connections and discontinuities between them **A New**

Reading of Jacques Ellul Jacob Marques Rollison,2020-09-10 This book presents an original and dynamic reading of the twentieth century French sociologist and theological ethicist Jacques Ellul Adopting Ellul s use of presence as a hermeneutical key to understanding his work it examines the origins of Ellul s approach to presence in his readings of Kierkegaard and the biblical book of Ecclesiastes highlights the central structural role of presence in Ellul s theological ethics and elucidates a crucial turning point in Ellul s theology following a personal crisis in Ellul s faith and life Drawing from numerous unpublished and untranslated texts Jacob Marques Rollison argues that this crisis involves confrontation with a critique of presence manifest in Ellul s reading of and engagement with Michel Foucault Marques Rollison distills Ellul s sociological critiques and theological responses to this crisis presenting Ellul s evolving theology against the background of major shifts in French intellectual life In doing so the author simultaneously calls for renewed engagement with Ellul s prophetic thought critically appraises Ellul s dialectical theology and Marxist inheritances and develops a robustly Protestant approach to theological communication ethics for our time *The Spirits' Book* Allan Kardec, **In the Throe of Wonder** Jerome A. Miller,1992-01-01 This book is a meditation on the experiences of wonder horror and awe and an exploration of their ontological import It argues that these experiences are not as our culture often presumes merely subjective emotive

responses to events that happen in the world Rather they are transformative experiences that fracture our ordinary lives and in so doing provide us access to realities of which we would otherwise be oblivious Wonder horror and awe like the experiences of love and death to which they are so intimately related are not events that happen in our world but events that happen to it and thus alter our life as a whole Miller explores the impact of that transformation its deconstructive effect on our ordinary sense of our selves and the breakthrough to a new understanding of being which it makes possible

Individuum, Society, Humankind Makoto Ozaki,2021-10-01 In this collection on the Kyoto School of Philosophy the author offers the reader Tanabe s religious philosophy but also and for the first time his philosophy of nature and ontology It is not only on individuum society and humankind but also on the logical structure of Tanabe s thinking and aspects such as nature beauty matter contemplation practice politics religion science history eternity etcetera A highly original work the more as the reader becomes acquainted with Ozaki s own creative synthetic view of the main problems of Christian Buddhist theological resp philosophical encounter

Phenomenology in Perspective Smith,2013-12-11 Phenomenology as one of many ways of philosophizing can be seen from many perspectives And as a body of thought it can be placed in perspective The essays in this book clearly show that there is no one way of doing phenomenology any more than there is any one way to philosophize Phenomenology reveals itself as many faceted and there is work in this field for many talents The fact that there are such varied aspects to the study of phenomenology is what puts it in perspective as a rich source of philosophical thought In the sharing of their various perspectives the authors of these essays discuss the present and future of phenomenology as a philosophical discipline the important subjects of language of interpersonal relations of self awakening of visual and auditory perception and imagination of ethical education The names of Husserl Heidegger and Merleau Ponty 100m large in these essays but Max Scheler s name is also placed in perspective as one of the major phenomenological thinkers thus far not as weH known in America as he might be No one claims that the thought of Martin Heidegger is easy to comprehend especiaHy if immediate results are demanded The difficult essays on Heidegger reflect some of the innate complexities of his thought

Dream, Death, and the Self J. J. Valberg,2018-06-26 Might this be a dream In this book distinguished philosopher J J Valberg approaches the familiar question about dream and reality by seeking to identify its subject matter what is it that would be the dream if this were a dream It turns out to be a subject matter that contains the whole of the world space and time but which like consciousness for Sartre is nothing in itself This subject matter the personal horizon lies at the heart of the main topics the first person the self and the self in time explored at length in the book The personal horizon is Valberg contends the subject matter whose center each of us occupies and which for each of us ceases with death This ceasing to be presents itself solipsistically not just as the end of everything for me but as the end of everything absolutely Yet since it is the same for everyone this cannot be Death thus confronts us with an impossible fact something that cannot be but will be The puzzle about death is one of several extraphilosophical puzzles about the self that Valberg discusses puzzles that can trouble

everyday consciousness without any contribution from philosophy Nor can philosophy resolve the puzzles Its task is to get to the bottom of them and in this respect to understand ourselves a task philosophy has always set itself The Alphonso Lingis Reader Alphonso Lingis,2018-10-30 A selection of the writings of Alphonso Lingis showcasing a unique blend of travelogue cultural anthropology and philosophy Alphonso Lingis is arguably the most intriguing American philosopher of the past fifty years a scholar of transience someone who has visited and revisited more than one hundred countries and has woven this itinerary into his writing and allowed it to give form to his thinking This book assembles a representative selection of Lingis s work to give readers a thorough sense of his methodology and vision the diversity of his subject matter and the unity of his thought Lingis s writing evinces the many kinds of knowledge and subtle forces circulating through human communities and their environments His unique style blends travel writing cultural anthropology and personal accounts of his innumerable experiences as an active participant in the adventures and relationships that fill his life Drawing from countless articles essays and interviews published over fifty years editor Tom Sparrow chose works that follow Lingis s engaging often intimate reflections on the body in motion and the myriad influences social cultural aesthetic libidinal physical mythological that shape and animate it as it moves through the world among people and places both foreign and domestic familiar and unknown In a substantial Introduction Sparrow provides a biographical critical intellectual and cultural context for reading and appreciating Alphonso Lingis s work An extended encounter with the singular philosopher The Alphonso Lingis Reader conducts us through Lingis s early writing on phenomenology to his hybrid studies fusing philosophy psychoanalysis anthropology communication theory aesthetics and other disciplines to his original inspired arguments about everything from knowledge to laughter to death
