Hand Analysis:

Chinese Hand Analysis Terence Dukes, Shifu Nagaboshi Tomio, 1996-01-01 CHINESE HAND ANALYSIS Revised is the first and only book in the West to reveal the Buddhist Wu Hsing teaching on the ancient art of hand analysis developed in the monasteries of India and China It is an important reference for anyone interested in mind body integration written especially for the Western student an important reference work for anyone interested in mind body integration focuses on the principles of the Chinese method *Your Destiny and Scientific Hand Analysis* Yaschpaule, 1996 This book is designed to convince the healthy and scientific minded sceptic that hand analysis is a science worthy of serious consideration The laws of scientific hand analysis are presented here in a very simple manner and are amply illustrated by diagrams This book is also intended for those who do not have the faintest concept of what hand analysis or astrology is all about so that no previous knowledge is required for its understanding At the same time the subject of hand analysis has been comprehensively emphasized As such this book will be of interest to professional astrologers In many Eastern countries leading astrologers have a good knowledge of hand analysis Where the horoscope does not give clear guidance on a particular aspect they consult the palms in order to obtain clarification The ideas put forward in this book are based on the Indian Western and Egyptian schools of hand analysis although the Indian system has been used the most The scientific rationale behind the wearing of particular gems in order to ward off evil planetary influences is also succinctly described Above all this is meant to be an eminently straightforward and practical work The sceptic has only to study his own palms to be pleasantly surprised at how accurately hand analysis reveals his own particular case *Hand Analysis* Edo Sprong, 1991 *Elements of Hand-reading* Phanos (pseud.), 1903 **Hand Analysis** Myrah Lawrance, 1979 **How to Read Palms** Litzka R. (Fourth printing.). Myrah Lawrance, 1969 COMPUTER ASSISTED BONE AGE ASSESSMENT Mahmut HAKTAN, COMPUTER ASSISTED BONE AGE ASSESSMENT Bone age assessment based on the radiological examination of the left hand and wrist is a procedure frequently performed to evaluate the growth of pediatric patients In this thesis we examined studies conducted on the skeletal age analysis and we developed a computerized system for automatic bone age analysis Firstly we examined two different clinical methods The Greulich and Pyle method and the Tanner and Whitehouse TW2 method We chose the TW2 method to develop a computerized bone age system because it is more suitable for the computer analysis than the Greulich and Pyle method We developed the web based TW2 skeletal age calculation software We then introduced steps that are necessary to transform this manual clinical method into a fully automated system We explained preprocessing methods that are needed to make a radiograph fit for analysis and steps to find regions of interest and assign them TW2 stages Finally we developed a computer program that assigns TW2 stages to a certain region of interest the middle phalanx of the third finger in the left hand In this method we trained all TW2 stage groups for middle phalanx of the third finger and produced mean images for each TW2 stage These mean images are used to determine the TW2 stage of queried image We use the correlation between a mean image and a target image as an indicator of which stage should be assigned to the target Our results show that 70 % of all test images of the middle phalanx of the third finger have been assigned the correct TW2 stage by our method We believe that the same method could be used to assign TW2 stages to other regions of interest in the hand Destiny in your hands P. John Brusasco, 2024-09-06 In this book the first of a quadrilogy the author discusses Holistic Palmistry which teaches us to investigate the surface of the palm enabling us to recognize the entirety in which a person's becoming is placed This helps us make decisions and alter our destiny Unlike Chiromancy which interprets destiny as inevitable Holistic Palmistry believes destiny is in our hands because the signs of existence are drawn and imprinted on them in a continuous exchange and transformation Thus the hands speak to those who know how to read and listen to them This text presents theoretical suggestions and reflections with simple historical and philosophical indications but mainly guides us through the main points and methods for reading hands This
