*The Ocean's Gift* Celeste Mayfield, 2014-09-30 Olivia Duncan lives a boring ordinary life She is home schooled along with her best friend Conner Her social activities are limited to Conner and his grandmother Gerdie who just happens to be their teacher Her father died before she even got to know him Her single mother Ann Marie is the local doctor and has no desire to have a life outside of the clinic Her worst fears come to light when she hears screams and wails that wake her from her sleep When she goes to investigate the noises she comes across a fishing boat at the source of the sounds

Poachers are thick in this area of the bay and she doesn't have to guess what these men are up to out here in the middle of the night. Olivia and her best friend Conner come across a bloody scene the next day while out for a walk. She knows where the blood came from and as she describes the scene to him, a fear bubbles up inside of her. Olivia doesn't ask the question that's been burning in her mind. Conner and his family have been in the fishing business for over three generations. They supply fresh sea food to the local restaurants in town but they also kill larger game for profit. When an abandoned beluga appears while Olivia is sitting on the dock, they both find a friendship worth fighting for. The friendship that they share over the next three years is filled with laughter, fun, amazement, and danger. When Olivia is forced to move, she must leave all hope behind of ever seeing the beluga again. Never in her wildest dreams did she think that the beluga could find her once more. When the beluga appears with her new pod, Olivia realizes that this is her second chance. She calls in a specialist to help her as she fights to keep them all safe and alive. Olivia Duncan is an ordinary girl who lives an ordinary life but finds the chance to save an extraordinary gift.

**Ultra Performance** Paul Moore, 2014-04-10. The world's leading endurance athletes are not only some of the fittest people on the planet; they are also among the toughest mentally. To train and race at the highest level of competition over hundreds and sometimes thousands of miles takes preparation, dedication, and the ability to push the body and mind beyond conventional limits. *Ultra Performance* offers an insight into the psychology of these athletes. Having interviewed fourteen ultra athletes, Paul Moore distills the dynamics of the mental toughness they required: the motivation, focus, and ability to keep the mind positive deep in the heart of fatigue. What did it take, for instance, for Rachel Cadman to eat the elephant of the Arch to Arc, running from London to Dover, swimming the Channel, then cycling to Paris, and to win? That takes steeliness beyond all mere effort, pushing through, and improvising when necessary. The stories of these hard-fought wins feature strongly in the contributions from Brett Sutton, world-renowned triathlon coach, and Craig Alexander, one of the greatest athletes in the history of Ironman. Others like Dee Cafari, the first woman to circumnavigate the world solo in both directions, required the resilience to overcome challenges they had set themselves. With working examples of the implementation of their mental strategies, *Ultra Performance* not only gives an insight into the toughest moments these professional athletes have ever faced but also offers advice to readers on how they can adapt and employ these techniques for themselves, often to the non-sporting pursuits of everyday life.
