Fleming,2023-10-12 Gender Revolution carefully examines the profound transformations happening in both public and private arenas of gender relations It also draws critical attention to the simultaneous and potent challenges that have risen in response The authors look to large scale phenomena in this contemporary study and address how electoral politics and the MeToo movement are reshaping everyday life This gender revolution has led to a culture in which women and increasing numbers of men refuse to accept traditional gender norms and gender inequalities People of all genders no longer tolerate abuses of power in politics or in their interpersonal relationships Despite vigorous resistance women are seizing power and refusing to back down in ways both large and small The authors note on the one hand that people of all genders in support of these transformations are voting for progressive candidates engaging on social media and making their interpersonal relationships more equal On the other hand they document considerable backlash and contestation as some people are resisting these changes and creating adversarial gender divisions Probing across these issues the book develops an analysis of gendered social and cultural change that reveals how movement ideas diffuse into broader culture Gender Revolution presents a vibrant and essential study for a moment marked by significant changes to attitudes beliefs and views surrounding gender and gender relations and will appeal to readers interested in the scholarly study of gender society politics media law and culture **The Faith Lives of Women and Girls** Nicola Slee,Fran Porter,Anne Phillips,2016-03-16 Identifying

I'm Not a Feminist, But-- Christine Roche, 1985 Imagining the Future Chilla Bulbeck, 2012 Do young Australians understand and live equality and difference differently from older generations Is Australia the gender equal society that many claim it to be How do we understand and explain growing economic inequality when our dominant ideologies are individualism and neoliberalism What are or should be the limits of tolerance in our negotiation of cultural difference Imagining the Future explores our contemporary complex equality narrative through the desires and dreams of 1000 young Australians and 230 of their parents from diverse backgrounds across Australia This extraordinary data set affords analysis of the impact of gender socio economic disadvantage ethnicity Aboriginality and sexuality on young peoples imagined life stories or essays written about their future An intergenerational comparison assesses how different young people really are from older generations The book offers a compelling and subtle engagement with the sometimes deeply moving sometimes hilarious voices of young people to deliver insight into the challenges and complexity of gender and other social relations in early 21st Australian society Young people yearn for and believe in equal opportunities but their imagined life stories indicate massive inequalities in the personal resources that will allow them to achieve their goals They claim to live in a world of gender equality even as they continue to cherish performances of gender difference The gulf between young men and young women's imagined intimate lives together suggest that many are bound for conflict They and indeed their parents do not understand the world in terms of class relations but proclaim that everyone is the same even as they are aware of fine distinctions in economic resources and cultural capital Alongside proclaimed acceptance of cultural diversity the advantages experienced by virtue of being white challenges many young Australians In an increasingly individualistic world some young people perform in intimate citizenship or personal engagements based on shared experiences Like their parents few understand obligations towards unmet others which form the basis of national solidarity

Union Women Mary Margaret Fonow, 2003 For more than a quarter century steel mills in the United States and Canada have produced more than metal they have produced a new kind of worker and union activist Women of Steel In an era labeled postfeminist and postindustrial women have created spaces in this quintessentially male dominated workforce from which to mobilize for their rights as women and workers In Union Women Mary Margaret Fonow captures the stories of the women of the United Steelworkers She focuses on a tenacious group who used their developing power in the union to challenge sex discrimination

and to advocate for women's rights and applied their transnational resources to construct a feminist response to globalization and economic restructuring. In the process they have transformed the organizations' resources and networks of both the labor and women's movements and have in turn transformed themselves into feminists. In *Union Women* Fonow uses statistical archival and ethnographic research methods to provide a broad historical account of women in the steel industry. Fonow's sweeping approach allows her to examine several key issues in social movement feminist and political theory and to show that insights from these fields shape each other. She explores how social movements are gendered, how working class women develop a feminist consciousness and how this process is informed by intersecting demands of race, class and gender. As a comparative cross national study, *Union Women* also demonstrates how different political and social cultures affect women's organizing and strategic decisions. Finally, Fonow emphasizes that economic restructuring and globalization pose immediate challenges for women as laborers and activists and that in order to survive all unions must develop organizing and mobilization strategies informed by feminism and other social movements.

Considering Emma Goldman

Clare Hemmings, 2018-01-19 In *Considering Emma Goldman*, Clare Hemmings examines the significance of the anarchist activist and thinker for contemporary feminist politics. Rather than attempting to resolve the tensions and problems that Goldman's thinking about race, gender and sexuality pose for feminist thought, Hemmings embraces them, finding them to be helpful in formulating a new queer feminist praxis. Mining three overlapping archives: Goldman's own writings, her historical and theoretical legacy, and an imaginative archive that responds creatively to gaps in those archives, Hemmings shows how serious engagement with Goldman's political ambivalences opens up larger questions surrounding feminist historiography, affect, fantasy and knowledge production. Moreover, she explores her personal affinity for Goldman to illuminate the role that affective investment plays in shaping feminist storytelling. By considering Goldman in all her contradictions and complexity, Hemmings presents a queer feminist response to the ambivalences that also saturate contemporary queer feminist race theories.
