Augustine's Early Theology of Image Gerald Boersma, 2016 This book examines Augustine's early theology of the imago dei prior to his ordination 386 391 The book makes the case that Augustine's early thought is a significant departure from Latin pro Nicene theologies of image only a generation earlier The book argues that although Augustine's early theology of image builds on that of Hilary of Poitiers Marius Victorinus and Ambrose of Milan Augustine was able to affirm in ways that his predecessors were not that both Christ and the human person are the image of God Augustine's Latin pro Nicene predecessors understood the imago dei principally as a Christological term designating a unity of divine substance According to the book Augustine's early theology of image has its initial departure not in the controversy of Nicaea but rather in the philosophical engagement of Plotinian metaphysics in which all finite reality is an image of ultimate reality For this tradition an image need not imply equality an image can be more or less like its source The book maintains that Augustine's early writings describe Christ as an image of equal likeness while the human person is an image of unequal likeness A Platonic and participatory evaluation of the nature of image enables Augustine's early theology of the image of God to move beyond that of his Latin predecessors and affirm the imago dei both of Christ and of the human person

Nicene Theology Rene Barnes, 2024-01-25 In this collection of essays Michel Rene Barnes offers a new reading of the character and development of Latin Trinitarian theology in the fourth and fifth centuries Although Augustine is the principal focus he is treated here as an inheritor of an earlier Latin tradition Antecedent theologians most notably including Marius Victorinus are given a revised interpretation and Augustine himself is explored from multiple angles At every turn developments in Augustine's thought are shown to be a response to the anti Nicene theologies of the period Most significantly this view decries the modern systematic tendency to engage with Augustine only through a simplified version of late nineteenth century categories This accusation invites the question of how far modern theology can actually engage with Patristic theology at all but Barnes offers a way forward

The Spirit of Augustine's Early Theology Chad Tyler

Gerber,2016-03-03 St Augustine s pneumatology remains one of his most distinctive decisive and ultimately divisive contributions to the story of Christian thought How did his understanding of the Spirit develop Why does he identify the Spirit with divine love and cosmic order And from what personal and literary sources did he receive inspiration This examination of Augustine s pneumatology the first book length study of this important topic available seeks answers in Augustine s earliest extant writings penned during the years surrounding his famed return to the Catholic Church and the height of his efforts to synthesize Catholic theology and the Platonic philosophy of his day which had postulated a divine trinity of its own Careful analysis of these initial texts casts fresh light upon Augustine s more mature and well known theology of the Holy Spirit while also illuminating on going discussions about his early thought such as the nature and extent of his Platonic sympathies and the possibility that the recent convert remained committed to the divinity of the human soul

The Confessions of St. Augustine Saint Augustine of Hippo, 2023-11-25 In The Confessions of St Augustine Saint Augustine presents a profound autobiographical narrative that intricately weaves his personal journey toward faith with philosophical reflections on the nature of sin grace and the human condition Written in a distinctive introspective style characterized by a candid exploration of his inner turmoil and spiritual struggles Augustine s work transcends mere autobiography positioning itself within the broader context of Christian theological exploration and Neoplatonism The text is marked by its lyrical prose and deep emotional resonance as Augustine articulates the challenges of reconciling personal desire with divine will ultimately leading to his conversion to Christianity Saint Augustine one of the most influential theologians of the early Christian church was born in 354 CE in North Africa His youthful escapades and philosophical inquiries into the nature of happiness and truth particularly during his time with the Manicheans and Neoplatonists profoundly shaped his later reflections His experiences as a teacher and his eventual role as Bishop of Hippo also provided him with a unique lens through which to examine faith thus enriching his narrative in The Confessions This seminal work is essential not only for

those fascinated by the development of Christian thought but also for readers seeking an introspective exploration of the search for meaning and purpose Augustine's candid confessions resonate across centuries making his work a timeless reflection on the complexities of human existence and spirituality **The Study of Spirituality** Cheslyn Jones, Geoffrey Wainwright, Edward Yarnold, 1986-12-11 Written by contributors representing the Anglican Roman Catholic Free Church and Orthodox traditions this collection examines the nature and form of individual Christian devotion throughout the centuries

A Companion to William of Saint-Thierry F. Tyler Sargent, 2019-03-27 A Companion to William of Saint Thierry provides eight new studies on this noted twelfth century Cistercian writer by some of the most prolific English language William scholars from North America and Europe and is structured around William's life thought and influence A Benedictine abbot who became a Cistercian monk William of Saint Thierry c 1085-1148 lived through the first half of the twelfth century a time of significant reform within western Christian monasticism Although William was directly involved in these reforming efforts while at the Benedictine abbey of Saint Thierry his lasting legacy in Christian tradition comes through his written works many as a Cistercian monk that showcase his keen intellect creative thinking and at times profound insight for spiritual life and its fulfilment Contributors David N Bell Thomas X Davis E Rozanne Elder Brian Patrick McGuire Glenn E Myers Nathaniel Peters Aage Rydstrom Poulsen and F Tyler Sargent *Cistercian Stories for Nuns and Monks* Martha G. Newman, 2020-10-30 Around the year 1200 the Cistercian Engelhard of Langheim dedicated a collection of monastic stories to a community of religious women Martha G Newman explores how this largely unedited collection of tales about Cistercian monks illuminates the religiosity of Cistercian nuns As did other Cistercian storytellers Engelhard recorded the miracles and visions of the order's illustrious figures but he wrote from Franconia in modern Germany rather than the Cistercian heartland His extant texts reflect his interactions with non Cistercian monasteries and with Langheim's patrons rather than celebrating Bernard of Clairvaux Engelhard was conservative interested in maintaining traditional Cistercian patterns of thought Nonetheless by offering to women a collection of narratives that explore the oral qualities of texts the nature of sight and the efficacy of sacraments Engelhard articulated a distinctive response to the social and intellectual changes of his period In analyzing Engelhard's stories Newman uncovers an understudied monastic culture that resisted the growing emphasis on the priestly administration of the sacraments and the hardening of gender distinctions Engelhard assumed that monks and nuns shared similar interests and concerns and he addressed his audiences as if they occupied a space neither fully sacerdotal nor completely lay neither scholastic nor unlearned and neither solely male nor only female His exemplary narratives depict the sacramental value of everyday objects and behaviors whose efficacy relied more on individual spiritual formation than on sacerdotal action By encouraging nuns and monks to imagine connections between heaven and earth Engelhard taught faith as a learned disposition Newman's study demonstrates that scholastic questions about signs sacraments and sight emerged in a narrative form within late twelfth century monastic communities **The Works of Saint Augustine: v. 1.
