Evangelization in a Marginalizing World Jose Madappattu, 2014-01-22 Inhaltsangabe Abstract In pursuing the study we followed a theological analysis of the concept of Evangelization in a marginalised world and in this regard we base ourselves on the scriptural sources documents of Vatican II post Vatican the papal and synodal documents and the reflections of theologians on the issue Our study is divided into five chapters on the whole The first chapter which has three parts The first part of it is an attempt to see the meaning context and core of the commonly used expression holistic liberation Here we try to see whether the real meaning of the term has been incorporated into the life and pattern of the missionary endeavour of the Church as outlined in scripture papal synodal and Vatican II documents For this purpose in the second part we examine whether the notions of human dignity and human person as given in Pastoral Constitution of *Gaudium et Spes* are visible vantage points and the stepping stones for further post Vatican teachings In the concluding section efforts are made to throw some light on the holistic liberation in the ecclesial context of India after which we review the three dimensions of evangelization in India i.e. inculturation dialogue and liberation Chapter two of our work is situated against the Indian background A reasonable knowledge of the context in which the evangelization has to take place seems necessary In order to situate the context properly we try to see India from its social economic cultural and religious dimensions The ecclesial situation of India is considered because we believe that it is the Churches in India that are the agents of the process of holistic liberation In the second part of this chapter we make a semantic view of marginalised It is followed by an

investigation an the most marginalised in Madhya Pradesh India viz the Dalits the Adivasis and the Women who are the victims of poverty illiteracy and oppression Marginalised in our study imply all those sections of the society in Madhya Pradesh who are kept an the fringes of the society an either one or all of the following criteria a Politically b Economically c Culturally For a better understanding of the marginalised groups we take a specimen the Satnamis in Raipur diocese and focus our attention an them in the third part of this chapter as they are the most depressed and oppressed people here In the third chapter we deal with those attempts that

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context
