Image Of Man The Creation Of Modern Masculinity

Bret Carroll

Image Of Man The Creation Of Modern Masculinity:

The Image of Man George L. Mosse, 1998-10-08 What does it mean to be a man What does it mean to be manly How has our notion of masculinity changed over the years In this book noted historian George L Mosse provides the first historical account of the masculine stereotype in modern Western culture tracing the evolution of the idea of manliness to reveal how it came to embody physical beauty courage moral restraint and a strong will This stereotype he finds originated in the tumultuous changes of the eighteenth century as Europe s dominant aristocrats grudgingly yielded to the rise of the professional bureaucratic and commercial middle classes Mosse reveals how the new bourgeoisie faced with a bewildering rapidly industrialized world latched onto the knightly ideal of chivalry He also shows how the rise of universal conscription created a soldierly man as an ideal type In bringing his examination up to the present Mosse studies the key historical roles of the so called fairer sex women and unmanly men Jews and homosexuals in defining and maintaining the male stereotype and considers the possible erosion of that stereotype in our own time *The Image of Man* George Lachmann Mosse, 1999

The Image of Man George Lachmann Mosse, 1996 In *The Image of Man* noted historian George L Mosse provides the first historical account of the masculine stereotype in modern Western culture tracing the evolution of the idea of manliness to reveal how it came to embody physical beauty courage moral restraint and a strong will This stereotype he finds originated in the tumultuous changes of the eighteenth century as Europe s dominant aristocrats grudgingly yielded to the rise of the professional bureaucratic and commercial middle classes Mosse reveals how the new bourgeoisie faced with a bewildering rapidly industrialized world latched onto the knightly ideal of chivalry And he shows how the rise of universal conscription created a soldierly man as an ideal type In England the nineteenth century gave rise to an educational system that emphasized athletics team sports and physical strength as did the gymnastics movement on the continent At the same time ideals of a standard of masculine beauty developed throughout the continent intertwined with theories of art and personal comportment Indeed in the nineteenth century the idea of manliness appeared in so many areas of life and thought that it was accepted as a social constant a permanent endowment granted by nature Mosse shows however that it continued to evolve particularly in contrast to stereotypes of women and unmanly men Jews and homosexuals all considered weak and fearful unable to control their passions Mosse concludes that socialism also made use of this stereotype while in the twentieth century Fascism took this process to its extremes mass political rallies glorified the fearless storm trooper as outsiders were stigmatized and persecuted THE IMAGE OF MAN: THE CREATION OF MODERN MASCULINITY. George L. Mosse, 1996

Image of a Man Alex Belsey, 2020-01-24 Post war British artist Keith Vaughan 1912-77 was not only a supremely accomplished painter he was an impassioned eloquent writer *Image of a Man* provides a comprehensive critical reading of his extraordinary journal uncovering the attitudes and arguments that shaped and reshaped Vaughan s identity as a man and as an artist American Masculinities: A Historical Encyclopedia Bret Carroll, 2003-10-14 This is a highly

recommended purchase for undergraduate medium sized and large public libraries wishing to provide a substantial introduction to the field of men s studies Reference User Services Quarterly Pleasing layout and good cross references make Carroll s compendium a welcome addition to collections serving readers of all ages Highly recommended CHOICE An excellent index well chosen photographs and illustrations and an extensive bibliography add further value American Masculinities is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well American Reference Books Annual American Masculinities A Historical Encyclopedia is a first of its kind reference detailing developments in the growing field of men s studies This up to date analytical review serves as a marker of how the field has evolved over the last decade especially since the 1993 publication of Anthony Rotundo s American Manhood This seminal book opened new vistas for exploration and research into American History society and culture Weaving the fabric of American history American Masculinities illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies Seeing U S history in terms of gender archetypes readers will gain a richer and deeper understanding of America s democratic political system domestic and foreign policies and capitalist economic system as well as the private sphere of the home and domestic life The contributors to American Masculinities share the assumption that men s lives have been grounded fundamentally in gender that is in their awareness of themselves as males Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era Rather this important work delves into the psychological core of manhood which is shaped not only by biology but also by history society and culture Encapsulating the current state of scholarly interpretation within the field of Men s Studies American Masculinities A Historical Encyclopedia is designed to help students and scholars advance their studies develop new questions for research and stimulate new ways of exploring the history of American life Key Features Reader s Guide facilitates browsing by topic and easy access to information Extensive name place and concept index gives users an additional means of locating topics of interest More than 250 entries each with suggestions for further reading Cross references direct users to related information Comprehensive bibliography includes a list of sources organized by categories in the field Topics Covered Arts Literature and Popular Culture Body Health and Sexuality Class Ethnic Racial and Religious Identities Concepts and Theories Family and Fatherhood General History Icons and Symbols Leisure and Work Movements and Organizations People Political and Social Issues About the Editor Bret E Carroll is Associate Professor of History at California State University Stanislaus He received his Ph D from Cornell University in 1991 He is author of The Routledge Historical Atlas of Religion in America 1997 Spiritualism in Antebellum America 1997 and several articles on nineteenth century masculinity Spanish National Identity, Colonial Power, and the Portrayal of Muslims and Jews During the Rif War (1909-27) Elisabeth Bolorinos Allard, 2021 Runner up for the 2017 18 AHGBI Spanish Embassy Publication Prize

This book examines how anxieties about colonial power and national identity are reflected in Spanish literature journalism and photography of Moroccan Muslim and Jewish cultures during the Spanish colonisation of Northern Morocco from 1909 to 1927 This understudied period known as the Rif War is highly significant because of its role in shaping the identities that came into conflict in the Spanish Civil War 1936-39 Furthermore the book makes a key contribution to Spanish colonial studies by offering a comparative analysis of Spanish representations of the Iberian Peninsula's cultural and historical relationship with Moroccan Muslims and Jews in this context showing how conflicting visions of Spanish identity are portrayed through and in relation to them ELISABETH BOLORINOS ALLARD is a Fellow by Examination in Modern Languages at Magdalen College Oxford

Gender History in Practice Kathleen Canning, 2006 The eight essays collected in this volume examine the practice of gender history and its impact on our understanding of European history Each essay takes up a major methodological or theoretical issue in feminist history and illustrates the necessity of critiquing and redefining the concepts of body citizenship class and experience through historical case studies Kathleen Canning opens the book with a new overview of the state of the art in European gender history She considers how gender history has revised the master narratives in some fields within modern European history such as the French Revolution but has had a lesser impact in others Weimar and Nazi Germany Gender History in Practice includes two essays now regarded as classics Feminist History after the Linguistic Turn and The Body as Method as well as new chapters on experience citizenship and subjectivity Other essays in the book draw on Canning's work at the intersection of labor history the history of the welfare state and the history of the body showing how the gendered social body was shaped in Imperial Germany The book concludes with a pair of essays on the concepts of class and citizenship in German history offering critical perspectives on feminist understandings of citizenship Featuring an extensive thematic bibliography of influential works in gender history and theory that will prove invaluable to students and scholars Gender History in Practice offers new insights into the history of Germany and Central Europe as well as a timely assessment of gender history's accomplishments and challenges

Contemporary Europe in the Historical Imagination Darcy Buerkle, Skye Doney, 2023-06-27 George L Mosse 1918-99 was one of the most influential cultural and intellectual historians of modern Europe In Contemporary Europe in the Historical Imagination an international assembly of leading scholars explore Mosse's enduring methodologies in German studies and modern European cultural history Considering Mosse's life and work historically and critically the book begins with his intellectual biography and goes on to reread his writings in light of historical developments since his death and to use extend and contend with Mosse's legacy in new contexts he may not have addressed or even foreseen The volume wrestles with intertwined questions that continue to emerge from Mosse's pioneering research including What role do sexual and racial stereotypes play in European political culture before and after 1945 How are gender and Nazi violence bound together Importantly the contributors pose questions that are inspired by Mosse's work but that he did not directly examine For

example to what extent were Nazism and Italian Fascism colonial projects How have popular radical right parties reinforced and reimagined ethnonationalism and nativism Much like Mosse s own work the chapters in this book inspire new interventions into the history of gender and sexuality Jewish identity during the rise of the Third Reich and the many reincarnations of fascist pageantry and mass politics End of Days Thomas Spriggs,2008-08-01 Thomas Spriggs takes a fresh look at the fateful period leading up to 9 11 and comes to the conclusion that the destruction of the World Trade center WAS an inside job End of Days describes the ongoing war over faith and the real meaning of the attacks of 9 11

Manliness in Britain, 1760-1900 Joanne Begiato,2020-02-28 This book offers an innovative account of manliness in Britain between 1760 and 1900 Using diverse textual visual and material culture sources it shows that masculinities were produced and disseminated through men s bodies often working class ones and the emotions and material culture associated with them The book analyses idealised men who stimulated desire and admiration including virile boxers soldiers sailors and blacksmiths brave firemen and noble industrial workers It also investigates unmanly men such as drunkards wife beaters and masturbators who elicited disgust and aversion Unusually Manliness in Britain runs from the eras of feeling revolution and reform to those of militarism imperialism representative democracy and mass media periods often dealt with separately by historians of masculinities *Neurosis and Modernity* Petteri Pietikainen,2007-07-30 In late nineteenth century Sweden paths to modernity created socio cultural conditions conducive to the dissemination of the language of nerves This book shows how neurosis became an extremely contagious diagnosis and how our modern language of discontent stress and malaise has a history that goes back to the birth of modern neuroses in the 1880s Hysteria neurasthenia psychoneurosis and other neuroses spread from middle class women to all segments of the Swedish population and by the mid 1950s nobody was safe from the medico cultural virus of neurosis While offering the first historical analysis of the ways in which neuroses became a national malady in Sweden this book illustrates and analyses general aspects of social and cultural history during the Age of Nervousness *Holy Legionary Youth* Roland Clark,2015-06-05 Founded in 1927 Romania s Legion of the Archangel Michael was one of Europe s largest and longest lived fascist social movements In Holy Legionary Youth Roland Clark draws on oral histories memoirs and substantial research in the archives of the Romanian secret police to provide the most comprehensive account of the Legion in English to date Clark approaches Romanian fascism by asking what membership in the Legion meant to young Romanian men and women Viewing fascism from below as a social category that had practical consequences for those who embraced it he shows how the personal significance of fascism emerged out of Legionaries interactions with each other the state other political parties families and friends and fascist groups abroad Official repression fascist spectacle and the frequency and nature of legionary activities changed a person s everyday activities and relationships in profound ways Clark s sweeping history traces fascist organizing in interwar Romania to nineteenth century grassroots nationalist movements that demanded political independence from the Austro Hungarian

Empire It also shows how closely the movement was associated with the Romanian Orthodox Church and how the uniforms marches and rituals were inspired by the muscular martial aesthetic of fascism elsewhere in Europe Although antisemitism was a key feature of official fascist ideology state violence against Legionaries rather than the extensive fascist violence against Jews had a far greater impact on how Romanians viewed the movement and their role in it Approaching fascism in interwar Romania as an everyday practice Holy Legionary Youth offers a new perspective on European fascism highlighting how ordinary people performed fascism by working together to promote a unique and totalizing social identity **Europe and Its Others** Paul Gifford, Tessa Hauswedell, 2010 The essays represent a selection of papers delivered at an international conference held under the title Europe and its Others Interperceptions Past Present Future at St Andrews University in June 2007 under the aegis of the Institute for European Cultural Identity Studies Introd *Air and Sea Power in World War I* Maryam Philpott, 2013-05-30 The Great War tore the fabric of Europe apart killing over 35 million men and challenging the notion of heroism in war Air and Sea Power in World War I focuses on the experience of World War I from the perspective of British pilots and sailors themselves to demonstrate that the army centric view of war studies has been too limited The Royal Flying Corps created in 1912 adapted quickly to the needs of modern warfare driven by the enthusiasm of its men In contrast the lack of modernisation in the Royal Navy despite the unveiling of HMS Dreadnought in 1906 undermined Britain's dominance of the seas By considering five key aspects of the war experience this book analyses how motivation was created and sustained What training did men receive and how effectively did this prepare them for roles that were predominantly non combative How was motivation affected by their individual relationship with weaponry development and how different was defensive service on the Home Front when in close proximity to ordinary civilian life Finally Air and Sea Power in World War I looks at the changing reputation of the services during and after the conflict and the extent to which these notions were created by the memoirs of pilots and sailors Featuring new primary source material including the journals of service men themselves this book will be essential reading for students and scholars of World War I and of Naval Aviation and Military History *Gender, Orientalism and the Jewish Nation* Lynne M. Swarts, 2020-01-23 Ephraim Moses Lilien 1874 1925 was one of the most important Jewish artists of modern times As a successful illustrator photographer painter and printer he became the first major Zionist artist Surprisingly there has been little in depth scholarly research and analysis of Lilien's work available in English making this book an important contribution to historical and art historical scholarship Concentrating mainly on his illustrations for journals and books Lynne Swarts acknowledges the importance of Lilien's groundbreaking male iconography in Zionist art but is the first to examine Lilien's complex and nuanced depiction of women which comprised a major dimension of his work Lilien's female images offer a compelling glimpse of an alternate independent and often sexually liberated modern Jewish woman a portrayal that often eluded the Zionist imagination Using an interdisciplinary approach to integrate intellectual and cultural history with issues of gender Jewish history and visual

culture Swarts also explores the important fin de siècle tensions between European and Oriental expressions of Jewish femininity The work demonstrates that Lilien was not a minor figure in the European art scene but a major figure whose work needs re reading in light of his cosmopolitan and national artistic genius *Images of Royalty in the Nineteenth and Twentieth Centuries* AA.VV.,2023-02-08 This volume aims to contribute to the contemporary debate on the history of monarchy The images of the Italian Spanish and Portuguese crowns in the nineteenth and twentieth centuries are interpreted in accordance with classic historiographical interpretations and new methodological frontiers roles gender interpretation place heritage and representation *Histories of the Jews of Egypt* Dario Miccoli,2015-03-24 Up until the advent of Nasser and the 1956 War a thriving and diverse Jewry lived in Egypt mainly in the two cities of Alexandria and Cairo heavily influencing the social and cultural history of the country Histories of the Jews of Egypt argues that this Jewish diaspora should be viewed as an imagined bourgeoisie It demonstrates how from the late nineteenth century up to the 1950s a resilient bourgeois imaginary developed and influenced the lives of Egyptian Jews both in the public arena in institutions such as the school and in the home From the schools of the Alliance Israélite Universelle and the Cairo lycée français to Alexandrian marriage contracts and interwar Zionist newspapers this book explains how this imaginary was characterised by a great capacity to adapt to the evolutions of late nineteenth and early twentieth century Egypt but later deteriorated alongside increasingly strong Arab nationalism and the political upheavals that the country experienced from the 1940s onwards Offering a novel perspective on the history of modern Egypt and its Jews and unravelling too often forgotten episodes and personalities which contributed to the making of an incredibly diverse and lively Jewish diaspora at the crossroads of Europe and the Middle East this book is of interest to scholars of Modern Egypt Jewish History and of Mediterranean History *Girlhood* Jennifer Helgren,Colleen A. Vasconcellos,2010 Girlhood interdisciplinary and global in source scope and methodology examines the centrality of girlhood in shaping women's lives Scholars study how age and gender along with a multitude of other identities work together to influence the historical experience Spanning a broad time frame from 1750 to the present essays illuminate the various continuities and differences in girls' lives across culture and region girls on all continents except Antarctica are represented Case studies and essays are arranged thematically to encourage comparisons between girls' experiences in diverse locales and to assess how girls were affected by historical developments such as colonialism political repression war modernization shifts in labor markets migrations and the rise of consumer culture *'Los Invisibles'* Richard Cleminson,Francisco Vázquez García,2007 Examining the social medical and cultural history of male homosexuality in Spain this book looks at it from the time homosexuality came to be an issue of medical legal and cultural concern Research into homosexuality in Spain is in its infancy The last ten or fifteen years have seen a proliferation of studies on gender in Spain but much of this work has concentrated on women's history literature and femininity In contrast to existing research which concentrates on literature and literary figures *Los Invisibles* focuses on the

change in cultural representation of same sex activity of through medicalisation social and political anxieties about race and the late emergence of homosexual sub cultures in the last quarter of the twentieth century As such this book constitutes an analysis of discourses and ideas from a social history and medical history position Much of the research for the book was supported by a grant from the Wellcome Trust to research the medicalisation of homosexuality in Spain

The Enigmatic Realm of **Image Of Man The Creation Of Modern Masculinity**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Image Of Man The Creation Of Modern Masculinity** a literary masterpiece penned with a renowned author, readers attempt a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of people who partake in its reading experience.
