Living With Hiv Experiment In Courage:

Living with HIV Mary O'Brien, 1992-06-23 This NIH supported study of HIV's physical and psychosocial impacts offers both practical and inspiring accounts of how individuals living with HIV respond and cope with the disease and its progressive stages and impacts. The longitudinal approach of the research and the rich resources offered by extensive interviews with the persons with HIV and those closest to them avail the reader of insights and responses that should improve others coping and caring abilities. The author's professional experience and extensive research informs the work throughout and fashions a remarkable and moving synthesis of the themes that will help those living with AIDS as well as all who relate to them. From the first awareness of infection to coping with bereavement, this book honestly sensitively and substantively addresses the essential concerns that any and all who are touched by the HIV pandemic must reflect on.

AIDS Bibliography, 1992 *Against Death* Robert Ariss, 2020-04-28 Robert Ariss, activist and academic, had a unique vision of HIV/AIDS. As an HIV seropositive individual for many years before his death on May 9, 1994, he was a full participant in and critic of the development of the gay community's response to the HIV epidemic both in Australia and internationally. Though Ariss' life is a definite presence in this study, *Against Death: The Practice of Living with AIDS* is not an autobiography. Instead, it is a unique and critical account of a public health crisis, a community's response, and the politics of sexuality. It was in Sydney, Australia, world famous for its Gay and Lesbian Mardi Gras that Robert Ariss lived and worked. It is his vision of that community of its members infected with and affected by HIV which is documented in this remarkable anthropological study. Yet the study's implications reach beyond Sydney to all communities living with HIV and AIDS. **Illuminations**

Kruger, 2013-10-28

This is the first book-length study of the rich fiction that has emerged from the AIDS crisis. Examining first the ways in which

scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual's bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

Spirituality in Nursing: Standing on Holy Ground, *Suffering* Betty Ferrell, 1995 This is one of the few texts available that focuses on the human aspect of managing pain and suffering Through personal accounts and professional studies this collection of essays examines the impact of pain and suffering from the viewpoints of patients family members clergy and caregivers The book promotes a holistic understanding of human suffering that extends beyond the scope of pain management to stress the overall importance of a fully developed patient-provider relationship The authors emphasize the necessity of human engagement which is often considered as falling outside the bounds of medical

treatment as crucial to a patient's experience. Although an effort has been made to include examples of patient needs supported by both data and literature relative to other religious affiliations, the overall orientation of the work is derived primarily from the Judeo-Christian tradition. Preface

Tessier, 1998-11-01. *Dancing after the Whirlwind* explores how the denial of a sexual self affects a woman's spiritual identity and her understanding of her place in the world. L. J. Tessier traces the deep roots of this denial and separation of sexuality and spirituality in both Western and Eastern religions. She examines the experiences of three groups of women whose sexual desires, memories, and experiences are routinely denied by society: lesbians, survivors of childhood sexual abuse, and HIV-positive women. Drawing on their powerful examples, Tessier offers us strategies for reclaiming the whirlwind of erotic power and seeing it for what it is: the sacred force through which we most deeply touch one another as human beings. **The Nurse's Calling** Mary Elizabeth O'Brien, 2001. A veteran nurse researcher and educator provides a spiritual perspective on the professional nurse's vocation of caring. Grounding each chapter in Scripture, O'Brien explores the Christian nurse's call to love as Jesus loved, without discrimination, reserve, and sometimes reward.
