AND CONNIE G. MICHAELSON  
WITH RICHARD MAUTNER AND NANCY NEUMAN

# Local Population And Employment Projection Techniques

**H. Craig Davis**

## **Local Population And Employment Projection Techniques:**

*Demographic Projection Techniques for Regions and Smaller Areas* H. Craig Davis, 1995 In Chapter 3 the author outlines a four step projection procedure which is used throughout the remainder of the book Chapter 4 describes how to project population size by comparing the growth pattern of the population under study with that of another population The next chapter covers one of the most commonly employed techniques of population projection the cohort survival model which is used not only to project the size of a population but also its composition in terms of age and sex groupings The final chapter focuses on migration generally the most volatile component of the basic demographic equation Primarily written for courses in planning this book is also useful for anyone having to make decisions affected by population trends whether they involve planning for future growth or alerting local decisionmakers to external uncertainties that could have a serious impact on the future of their community

### **A Guide to Methods for Impact Assessment of Western Coal/energy Development**

Mountain West Research, 1979 *Planning and Urban Design Standards* American Planning Association, Frederick R. Steiner, Kent Butler, 2012-09-17 The new student edition of the definitive reference on urban planning and design *Planning and Urban Design Standards Student Edition* is the authoritative and reliable volume designed to teach students best practices and guidelines for urban planning and design Edited from the main volume to meet the serious student's needs this Student Edition is packed with more than 1 400 informative illustrations and includes the latest rules of thumb for designing and evaluating any land use scheme from street plantings to new subdivisions Students find real help understanding all the practical information on the physical aspects of planning and urban design they are required to know including Plans and plan making Environmental planning and management Building types Transportation Utilities Parks and open space farming and forestry Places and districts Design considerations Projections and demand analysis Impact assessment Mapping Legal foundations Growth management preservation conservation and reuse Economic and real estate development *Planning and Urban Design Standards Student Edition* provides essential specification and detailing information for various types of plans environmental factors and hazards building types transportation planning and mapping and GIS In addition expert advice guides readers on practical and graphical skills such as mapping plan types and transportation planning

*Fundamentals of Plan Making* Edward J. Jepson, Jr., Jerry Weitz, 2020-12-14 Urban and regional planning programs aspire to prepare practitioners to write and implement comprehensive plans Yet academic planning programs often place greater emphasis on theory than practice To help address this gap *Fundamentals of Plan Making* gives planning students an understanding of research and methods of analysis that apply to comprehensive planning Its informative text and examples will help students develop familiarity with various data sources and acquire the knowledge and ability to conduct basic planning analyses such as population projections housing needs assessments development impact analyses and land use plans Students will also learn how to implement the various citizen participation methods used by planners and develop an appreciation of the values

and roles of practicing planners In this revised second edition Edward Jepson and Jerry Weitz bring their extensive experience as practicing planners and teaching faculty to give planning students the practical hands on tools they need to create and implement real plans and policies With an entirely new census data set expanded discussions of sustainability and other topics as well as new online resources including a companion website the book is now more accessible and more informative and its updated chapters on transportation housing environment economic development and other core planning elements also make it a handy reference for planning practitioners

**Occupational Employment Projections for Labor Market Areas** Harvey A. Goldstein,1981 **NIDA Research Monograph** ,1976 *Planning Support Methods* Richard E. Klosterman,Kerry Brooks,Joshua Drucker,Edward Feser,Henry Renski,2018-06-25 Planning Support Methods offers the only practical guide to the key methods of urban and regional planning The authors apply and critically assess the most important methods for demographic and economic analysis and projection and land suitability analysis providing an essential resource for practicing planners and planning students alike For helpful tools from the author including Excel workbooks visit <https://planningsupport.org/tools> For resources including PowerPoint presentations and supplemental readings visit <https://planningsupport.org/resources>

*Local Population and Employment Projection Techniques* Michael R. Greenberg,Donald A. Krueckeberg,Connie O. Michaelson,1978-01-01 Forecasting populations beyond fifteen years requires an encyclopedic knowledge of the national regional and local socioeconomic political and physical environments combined with a large measure of imagination Projections of this type are increasingly required by private and public decision makers The authors who are top researchers in this area have provided a comprehensive analysis that goes beyond the standard fifteen year forecast *Local Population and Employment Projection Techniques* presents a set of programmed models that project the populations of minor civil divisions MCDs up to fifty years and employment of counties up to twenty five years Three classes of MCD population models are presented each of which is constrained at the county scale by county projections that are constrained by state and national projections The simplest model extrapolates a trend in the historical growth rates of MCDs while a second method is based on the distributional properties of projections made by regional or county agencies A procedure is provided for allocating the projections to an alternative set of spatial units The second part of this book provides employment projection methods Four models are presented one is a simple regression model and there are three step down models one of which is a constant share model a second model weights the constant share projections by population projections and a third includes a competitive component In addition each portion of the book contains three major pieces an overview of available projection models state county and in the case of population projections minor civil division models computer programs user s instructions and the input and output of a sample problem

**Monthly Labor Review** ,1980 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews

**Theoretical foundations of development planning** Shri Bhagwan Dahiya,1991 *Special Area Management*

*Plan, Hackensack Meadowlands District* ,1995      **Bulletin of the United States Bureau of Labor Statistics** ,1981  
Methods for Assessing the Socioeconomic Impacts of Large-scale Resource Developments Steve H. Murdock,1983  
**Housing and Planning References** ,1978      *Introduction to Applied Demography* Norfleet W. Rives,William J. Serow,1984-07 Identifies kinds and sources of demographic data and then explains how to use this information to determine demographic trends and their consequences      Strategic Facilities Planning Alan Walter Steiss,2005-01-01 Capital budgeting and debt administration when pursued from a strategic planning perspective as opposed to the more conventional cost based framework provides a forward looking alternative based on a jurisdiction s needs its resource base and growth potential      **Draft Environmental Impact Statement on the Special Area Management Plan for the Hackensack Meadowlands District, NJ** United States. Environmental Protection Agency. Region II.,1995      *Nuclear Waste* Steve H. Murdock,2019-02-28 Critical in solving the nuclear waste problem are such issues as the techniques needed to equitably select waste repository sites the implications for economies populations public services social structures and future generations in siting areas the best means for mitigating short and long term public and private impact of repositories and the type of citizen involvement that best ensures the full participation of national state and local interest groups in the siting process The contributors to this book examine these and related issues offering the perspectives of sociology economics philosophy and political science and representing the differing views of various regions of the nation      *Demographic Trends and Drug Abuse, 1980-1995* National Institute on Drug Abuse. Division of Research,1981      *Applied Demography* Steve H. Murdock,2019-08-27 This text aims to help the novice understand demographic variables and analyze their impact on specific private and public sector interests Examples are employed to demonstrate a wide range of techniques and the book discusses software products from the 1990 US census that may revolutionize the use of demographic data by business and government
