American Winescapes Gary L. Peters, 2018-02-12. Winescapes are unique agricultural landscapes that are shaped by the presence of vineyards, winemaking activities, and the wineries where wines are produced and stored. Where viticulture is successful, it transforms the local landscape into a combination of agriculture, industry, and tourism. This book demystifies viticulture in a way that helps the reader understand the environmental and economic conditions necessary in the art and practice of wine making. Distinctive characteristics of the book include a detailed discussion of more than thirty grape cultivars, an overview of wine regions around the country, and a survey of wine publications and festivals. Peters discusses the major environmental conditions affecting viticulture, especially weather and climate, and outlines the special problems the industry faces from lack of capital, competition, and changing public tastes.

[The SAGE Encyclopedia of Alcohol](#) Scott C. Martin, 2014-12-16. Alcohol consumption goes to the very roots of nearly all human societies. Different countries and regions have become associated with different sorts of alcohol: for instance, the beer culture of Germany, the wine culture of France, Japan and sake, Russia and vodka, the Caribbean and rum, or the moonshine culture of Appalachia. Wine is used in religious rituals, and toasts are used to seal business deals or to celebrate marriages and state dinners. However, our relation with alcohol is one of love/hate. We also regulate it and tax it; we pass laws about when and where it's appropriate; we crack down severely on drunk driving, and the United States and other countries tried the failed Noble Experiment of Prohibition. While there are many encyclopedias on alcohol, nearly all approach it as a substance of abuse, taking a clinical/medical perspective: alcohol, alcoholism, and treatment. The SAGE Encyclopedia of Alcohol examines the history of alcohol worldwide and goes beyond the historical lens to examine alcohol as a cultural and social phenomenon, as well both for good and for ill, from the earliest days of humankind.
