John Calvin's Bible Commentaries On Jeremiah 48- 52 And The Lamentations John Calvin, The Commentaries On Jeremiah like those on The Minor

Prophets were delivered as Lectures In The Theological School At Geneva taken down by some of the Pupils and afterwards read to Calvin and corrected We find in them the production of the same vigorous and expansive mind The Divine Oracles are faithfully explained the meaning is clearly stated and such brief deductions are made as the subjects legitimately warrant Though the Lectures were extemporaneously delivered there is yet so much order preserved and such brevity clearness and suitableness of diction are found in them that in these respects they nearly equal the most finished compositions of Calvin as proof that he possessed a mind of no common order The Ministry Of Jeremiah extended over a large space of time from the thirteenth year of Josiah s reign till after the final overthrow of the nation but for how long after that period it is not known Between the thirteenth year of Josiah and the destruction of the city and Temple there were about forty years This was a remarkable period and Jeremiah nearly alone labored among the people Their sins had been for the most part the same for a long time for nearly two centuries as it appears from the testimonies of his predecessors Amos Hosea Isaiah Joel Micah Nahum and Zephaniah for these seven had in this order preceded him Zephaniah And Habakkuk were probably for a time his contemporaries the first at the commencement and the other near the end of his ministry **The Message** Eugene H. Contemporary Physics Plays Jenni G. Halpin, 2018-04-12 This book analyzes recent physics plays arguing that their enaction of concepts from the sciences they discuss alters the nature of the decisions made by the characters changing the ethical judgements that might be cast on them Recent physics plays regularly alter the shape of space time itself drawing together disparate moments reversing the flow of time creating apparent contradictions and iterating scenes for multiple branches of counterfactual history With these changes both causality and responsibility shift variously The roles of iconic scientists such as Albert Einstein and Werner Heisenberg are interrogated for their dramatic value placing history and dramatic license in tension Cold War strategies and the limits of espionage highlight the emphatically personal involvement of ordinary individuals This study is vital reading for those interested in physics plays and the relationship between the sciences and the humanities
