From Revolution To Reform A Comparative Study Of China And Mexico:

From Revolution to Reform He Li, 2004 In *From Revolution to Reform* He Li examines political and economic transformation in China and Mexico from the Mexican and Chinese revolutions at the beginning of the 20th century to economic reforms and political liberalization in recent decades Li also explores lessons that other developing countries could learn from the experiences of China and Mexico

A History of the Modern Chinese Army Xiaobing Li, 2007-06-01 Since the establishment of the Red Army in 1927 China's military has responded to profound changes in Chinese society particularly its domestic politics shifting economy and evolving threat perceptions Recently tensions between China and Taiwan and other east Asian nations have aroused great interest in the extraordinary transformation and new capabilities of the Chinese army In *A History of the Modern Chinese Army* Xiaobing Li a former member of the People's Liberation Army PLA provides a comprehensive examination of the PLA from the Cold War to the beginning of the twenty first century that highlights the military's central function in modern Chinese society In the 1940s the Chinese army was in its infancy and many soldiers were rural conscripts and volunteers who had received little formal schooling The Chinese military rapidly increased its mobility and weapon strength and the Korean War and Cold War offered intense combat experience that not only allowed soldiers to hone their fighting techniques but also helped China to develop military tactics tailored to the surrounding countries whose armies posed the most immediate threats Yet even in the 1970s the completion of a middle school education nine years was considered above average and only 4 percent of the 224 top Chinese generals had any college credit hours However in 1995 the high command began to institute massive reforms to transform the PLA from a labor intensive force into a technology intensive army Continually seeking more urban conscripts and emphasizing higher education the PLA Reserve Officer Training and Selection program recruited students from across the nation These reservists would become commissioned officers upon graduation and they majored in atomic physics computer science and electrical engineering Grounding the text in previously unreleased official Chinese government and military records as well as the personal testimonies of more than two hundred PLA soldiers Li charts the development of China's armed forces against the backdrop of Chinese society cultural traditions political history and recent technological advancements *A History of the Modern Chinese Army* links China's military modernization to the country's growing international and economic power and provides a unique perspective on China's establishment and maintenance of one of the world's most advanced military forces

A Century of Student Movements in China Xiaobing Li,Qiang Fang,2019-12-02 In this book the authors offer their unique perspectives on the important roles Chinese students and intellectuals played in the shaping of the twentieth century China Their answers to these pivotal questions explore new nationalistic spirit modern world views and willingness of self sacrifice which had attributed to the spontaneous actions of the students as a New Culture emerged during the May Fourth Movement These articles show how China nurtured these spontaneous student movements even though the Nationalist Party in the Republic of China and the Communist Party in the People s Republic had exerted tight control over schools Both governments established organizations as well as operations among students that effectively turned some of the student movements into a political instrument by the parties for their own agenda

China in an Era of Transition R. Hasmath,J. Hsu,2009-03-30 Given the dominance of the Chinese state in so many aspects of society this collection considers factors such as urbanization the marginalization of social groups the emergence of the business elites and the dissent of internet users to resituate understanding of the social challenges facing China

The People's Republic of China Today Zhiqun Zhu,2011

Despite the significant progress it had achieved in the past 60 years especially in the past 30 years since Deng Xiaoping's reform initiatives in the late 1970s China faces daunting challenges today. These challenges include among others a rigid political system that does not match economic vibrancy, uneven economic growth and widening income gap, a graying population, environmental degradation, potential social instability, ethnic tensions and separatist movement, poor international image and military modernization. Based on papers originally presented at an international conference held at Bucknell University in Pennsylvania to mark the 60th anniversary of the People's Republic of China (PRC), this book provides an up to date comprehensive and authoritative assessment of the PRC's political, economic, social, ethnic, energy, security, military, diplomatic and other developments and challenges today. Contributed by scholars and experts in political science, international relations, economics, public administration, history, mass communication, psychology and diplomacy, the book focuses on the efforts needed by China to grow in a sustainable manner and to become a respected global power. With each chapter addressing a different and yet an inter-related issue of the PRC's development, this book aims to make a significant contribution to the understanding of key challenges the country faces today as it strives to become a global power.

External Research. ER List United States. Department of State. External Research Division, 1967 Market Economics and Political Change Juan D. Lindau, Timothy Cheek, 2000-01-01 Does market liberalization promote democracy? The accepted answer from scholars, pundits and politicians alike has been yes. However, the contributors to this innovative study of market reforms and political change in Mexico and the People's Republic of China argue that this easy equation is not only empirically uncertain but methodologically flawed. Using comparative contextual analysis, the contributors carefully identify the elective affinities between these two very different polities to reveal key variables that determine how markets will affect democracy, particularly law as the rudder of democracy and the role of political culture in civil society. **International Affairs** United States. Department of State. Office of External Research, 1968 **Land Reform in Mexico: 1910–1980** Susan R. Walsh Sanderson, 2013-09-11 Land Reform in Mexico 1910–1980 presents the workings of the Mexican government by analyzing actual policies, their implementation and their outcomes in a significant and central sector of the Mexican economy, agriculture. This book discusses the pattern of Mexican redistribution policy in agriculture over an extensive period of time, with emphasis on the causes and effects of these policy shifts. Organized into eight chapters, this book begins with an overview of the agricultural policy and modernization strategy of Mexico. This text then relates regional variations in the rural social structure of the late 19th century to the history of Mexico's unique agricultural policy. Other chapters consider the policy shifts reflected in agrarian legislation by presidential period. This book discusses as well the politics of land reform and its linkages to local, state and national administrations. The final chapter deals with the status of agricultural policy in Mexico during the 1980s. This book is a valuable resource for scholars and students with interest in Mexican politics. *Chinese Activism of a Different Kind* Gao Jia, 2013-09-19 In *Chinese Activism of a Different Kind*, Jia Gao examines the social behavior

and patterns of actions of 45 000 or so Chinese students as they fought to obtain the right to stay permanently in Australia after the June 4 Tiananmen Square incident of 1989 In a time of relative Internet infancy their response to the shifting stances of the Australian government saw them build networks make use of media and develop a range of strategies In achieving success this diverse group of students became the largest intake of onshore asylum seekers in the history of Australian immigration Through their testimonies Jia Gao provides a fascinating addition to our knowledge of Chinese activism and to the history of Chinese migration [1974 Annual Supplement](#) Joan Schmitz Bergholt,2013-12-21 [Politics in China](#) William A. Joseph,2019 On October 1 2019 the People s Republic of China PRC will celebrate the 70th anniversary of its founding And what an eventful and tumultuous seven decades it has been During that time under the leadership of the Chinese Communist Party CCP China has been transformed from one of world s poorest countries into one of its fastest growing economies and from a weak state barely able to govern or protect its own territory to a rising power that is challenging the United States for global influence But in the late 1950s the PRC experienced the most deadly famine in human history caused largely by the actions and inactions of its leaders Not long after there was a collapse of government authority that pushed the country to the brink of and in some places actually into civil war and anarchy And in 1989 the CCP unleashed the army to brutally crush demonstrations by students and others calling for political reform China is now for the most part peaceful prospering and proud The CCP maintains a firm grip on power through a combination of harsh repression and popular support largely based on its recent record of promoting rapid economic growth Yet the party and country face serious challenges on many fronts including a slowing economy environmental desecration pervasive corruption extreme inequalities ethnic unrest and a rising tide of social protest Politics in China provides an accessible yet authoritative introduction to how the world s most populous nation and rapidly rising global power is governed today The third edition has been extensively revised thoroughly updated and includes a new chapter on the internet and politics in China The book s chapters provide overviews of major periods in China s modern political history from the mid nineteenth century to the present examinations of key topics in contemporary Chinese politics and analyses of developments in four important areas located on China s geographic periphery Tibet Xinjiang Hong Kong and Taiwan [The Politics of Developmentalism in Mexico, Taiwan and South Korea](#) J. Minns,2006-01-10 Minns argues that the industrial transformations of Mexico South Korea and Taiwan were based on the existence of powerful developmentalist states in each It explores the origins of such states and their dynamics and connects the form of autonomy they enjoy within their countries to the policies they pursue

Chinese Economic Diplomacy Shuxiu Zhang,2016-07-01 Economic diplomacy was declared in 2013 by Beijing as a priority in its comprehensive strategy for diplomacy The political elite undertook to further invest in economic diplomacy as an instrument for economic growth and development Globally Chinese cooperation in multilateral economic processes has become critical to achieving meaningful outcomes However little understanding exists in current literature on the factors and

mechanisms which shape the processes behind China's economic diplomacy decision making Chinese Economic Diplomacy provides an understanding of the processes and practices of China's economic diplomacy with multilateral economic negotiations as the primary basis of analysis specifically the UN climate change talks and the WTO Doha Round trade negotiations It examines how early economic diplomacy in global governance contributed to the varied and evolving nature of its present day decision making structures and processes Demonstrating how China's negotiation preferences are driven by networks of political actors in formal and informal domestic and systemic environments it also highlights the capacity of international negotiation practices to alter and re shape China's approach to multilateral economic negotiations As a consequence the book presents a framework for understanding China's economic diplomacy decision making processes that is systemically constructed by domestic and international agencies Offering a Chinese perspective of the notion of economic diplomacy this book will be of interest to students and scholars of Chinese Economics International Relations and Political Economy Transition to Egalitarian Development Keith Griffin, Jeffrey James, 1981-06-18 **Asian Profile**, 2002

Revolution and the Millennium James F. Rinehart, 1997-10-30 An interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies China Mexico and Iran that were profoundly impinged upon by European and American imperialism The study explores the role of apocalyptic beliefs in radical movements bent on sociopolitical transformation It concludes that millennial expectations performed important and similar preparatory leadership and therapeutic functions in each case Millenarian movements are powerful and emotional social movements that expect an immediate collective total this worldly supernatural salvation and transformation of society They anticipate the complete destruction of the existing sociopolitical and economic order which they assert will be followed by a new and perfect society This study provides an interdisciplinary cross cultural cross historical analysis of three 20th century non Western revolutionary societies that were profoundly impinged upon by European and American imperialism It seeks to explore the functional role of millenarianism in these three revolutions In all three cases millenarianism prepared the way for revolutionary transformation It acted as a catalyst for action among that group of the most ardent revolutionists who were willing to pay any price to achieve what they were convinced was the inevitable goal of a utopian society Millenarianism created the potential for charismatic leadership to emerge It functioned as a doctrinal platform that awaited the opportunity to elevate a prophetic revolutionary leader to take control Finally millenarianism performed a therapeutic identity and cathartic function by providing the doctrinal foundation and an effective organization for a social healing process to take place A challenge to conventional arguments on the origins and outcomes of revolutions this study will be of great interest to scholars and researchers in comparative politics sociology and religion
