**Revisiting the Debate Between Catholics and Orthodox** Erick Ybarra,2022-11-22 The Lord Jesus Christ intended his  
kingdom present on earth the Church of God to be one holy catholic and apostolic Prior to the Protestant Reformation in the  
sixteenth century history tells of the most egregious division in the Church between the Latin West and Byzantine East in AD  
1054 and following How can it be that Catholics and Orthodox share a thousand years of ecclesial life together in one faith  
sacramental order and hierarchical government only to have that bond of communion broken Historians and theologians  
throughout the years have spilled much ink in recounting the causes and effects of this dreadful and heart wrenching division  
and among the many debates that exist between Catholics and Orthodox none are as vital to the task of reconciliation as the  
subject of the papacy In The Papacy Revisiting the Debate between Catholics and Orthodox Erick Ybarra examines sources  
from the first millennium with a fresh look at how methodology and hermeneutics plays a role in the reading of the same  
texts In addition he conducts a detailed investigation into the most significant points of history in order to show what was  
clearly accepted by both East and West in their years of ecclesiastical unity In light of this clear evidence the reader of The  
Papacy is free to decide whether contemporary Catholicism or Eastern Orthodoxy has maintained the heritage of the first  
millennium on the understanding of the Papal office      **Handbook of church history** Hubert Jedin,1965      Early Egyptian

Matter,2005-04-01 This volume seeks to address the needs of teachers and advanced students who are preparing classes on  
the Middle Ages or who find themselves confounded in their studies by reference to the various liturgies that were  
fundamental to the lives of medieval peoples In a series of essays scholars of the liturgy examine The Shape of the Liturgical  
Year Particular Liturgies The Physical Setting of the Liturgy The Liturgy and Books and Liturgy and the Arts A concluding  
essay which originated in notes left behind by the late C Clifford Flanigan seeks to open the field to examine liturgy within  
the larger and more inclusive category of ritual The essays are intended to be introductory but to provide the basic facts and  
the essential bibliography for further study They approach particular problems assuming a knowledge of medieval Europe  
but little expertise in liturgical studies per se      **Legitimation in the Letter to the Hebrews** Iutisone Salevao,2002-06-18

This book adopts an inter disciplinary approach to the study of the theology symbolism and argument of Hebrews Employing sociological models the book examines Hebrews in the context of the early Christians construction and maintenance of a social world In that respect the book elaborates the thesis that Hebrews was designed to serve a legitimating function in the realm of social interaction that its theology symbolism and argument were designed to construct and maintain the symbolic universe of the community of the readers It is argued that we cannot properly understand the theology symbolism and argument of Hebrews apart from its first century context

Calendar and Community Sacha Stern, 2001-10-04 Calendar and Community traces the development of the Jewish calendar from its origins until it reached in the tenth century CE its present form Drawing on a wide range of often neglected sources literary documentary epigraphic Jewish Graeco Roman and Christian it is the first comprehensive work to have been written on the subject It will be useful not only to historians and epigraphists for the interpretation of early Jewish datings but also as a historical study of early Judaism in its own right Its main theme is that the Jewish calendar evolved in the course of this period from considerable diversity with a variety of solar and lunar calendars to unity with the normative rabbinic calendar The unification of the calendar was one element in the unification of Jewish identity in later antiquity and the early medieval world

**The Canonical Visitation of Parishes** Gregory N. Smith, 2007-06-25 The ordinary episcopal visitation of parishes treated in canons 396 398 of the 1983 Code of Canon Law is studied here from its origins to the present The dissertation's first chapter traces the historical development of this ancient canonical institute particularly with a view to showing its usefulness for Church reform The second examines the canons of the 1917 and 1983 codes and provides a detailed commentary on the latter A final chapter studies the visitation of parishes in Canada Three methods are used corresponding to the three chapters In the first chapter a primarily historical review draws on Scripture the Fathers papal legislation the decrees of provincial and ecumenical councils particularly the Council of Trent and other sources The second chapter takes an exegetical approach interpreting the 1983 canons on the visitation in light of the former law the Second Vatican Council and contemporary papal and curial documents The visitation is related to the diocesan bishop's power of governance The third chapter presents the results of the author's survey of Canadian bishops carried out according to the methods of social science research Without arguing that the visitation is a panacea for all the Church's ills the author

concludes that it is a highly effective way for bishops to address some present difficulties and avoid future ones
