**Ancestor Christology** Cletus Chukwuemeka Nwaogwugwu, 2011-01-07 The study of the application of the title ancestor to Christ permits the author to delve into the Christological reflection in Africa today through one of the principal ways At play here is the inculturation of the faith which cannot be fully achieved without a process of theological assimilation of the fundamental parameters in the African life The thesis therefore is not only limited to a mere description of the contemporary panorama in that respect but attempts to offer a theological evaluation of the real expressive capacity of the title as it has been proposed The criterion used is therefore double In the first place the thesis tried to show that the human and the divine natures of Jesus Christ can be maintained in such a way that there is no rupture with the great tradition of the Christological councils In the second place if it is capable of responding to demands of Christology from above and from below In all this however the horizon of the debate is not occidental exegetical investigation well known by the author but from the theological ambient of sub Saharan world The conclusion is positive pondering the terms involved The work can be of great use in the christoogical endeavors of contemporary Africa as well for those who desire to delve into it Don Alfonso Carrasco Rouco director of the thesis and now Bishop of the Diocese of Lugo Spain The work of Don Cletus Chukwuemeka contains a clear description of what we may call African traditional religiosity as well as the theological efforts to inject Christianity into this cultural and religious tradition The central point of these efforts revolves around the understanding of Christ The most original aspect of this work is in the critical recourse to the figure of the ancestor or proto ancestor to present the identity of Christ in a way that is faithful to the Church tradition and at the same time significant for the religious and cultural tradition of Africa Dr Don Gerardo del Pozo Abejn Censor of the thesis

**Dances with Ancestors** David Kowalewski PhD,2019-11-29 Ancestry is big business these days but mere biological genealogy fails to tap into our spiritual roots The shamans of indigenous cultures have known for millennia how to do this In this comprehensive cross cultural survey Dr David Kowalewski scholar and practicing shaman offers several techniques for engaging the Old Ones the old fashioned way Although modern people have largely lost this tradition the ancestors are coming back strong along with the shamans a welcome happening that may reverse our ancestor deficit disorder Drawing on a global survey of ethnographic reports direct teachings from shamans of many continents and experiences from his own shamanic practice the author presents a wealth of useful ways that shamans have developed around the world and across the ages to connect with ancestors in both our realm and theirs These include spirit plates effigies pilgrimages walkabouts and trips with plant spirits Using these ancient techniques indigenous peoples receive a variety of gifts from their Old Ones including destiny guidance healing protection and wisdom teachings Yet some ancestors may behave like hooligans causing psychological distress and physical woes and even curses against a whole lineage But these maladies are both prevented and countered by shamanic methods such as home cleansing disposal of the deceased s property severance ceremonies and the like The author ends with practical takeaways lessons from the lineages so to speak showing how you and your ancestors through concerted spiritual action can co evolve to higher spiritual planes As a team
