that creates an exemplary role model for others Transformational leaders are respected because they put the interests of those around them before their own These leaders inspire and stimulate critical thinking promote team work and encourage individual development Dr Shelton often says people do not leave their organization they leave their boss Trust motivation and engagement are leadership outcomes that separate organizations that are led by managers versus leaders Dr Edward Shelton is an international speaker with powerful voice in the dialogue on leadership behavior and culture He advanced his philosophy of Transformational Leadership development as a HR professional with international organizations that include Saudi Aramco Oil Company Penn State University as an assistant professor and the U S Army as an Infantry officer Dr Shelton holds a PhD in Business Administration with research in leadership and culture Dr Shelton introduces his latest book Transformational Leadership which is an insightful review of how effective leaders develop skills behaviors and respect from those around them Transformational Leadership methods highlight the importance of individualized attention trust and building relationships by identifying preferred leadership characteristics and behaviors making it a philosophy and a way of life Transformational Leadership is filled with examples of successes and failures which provide a unique look into culture personality disorders constructive leadership practices and dark leadership Motivation People dont leave the company they leave their boss Dont slap the dolphin they will never perform again The Physician Rule Use the least radical surgery to cure the problem Recognition A pat on the back is a few inches from a kick in the pants yet the results are miles apart See others for not what they are now but for what they can become Trust People will trust you if you have integrity benevolence and you have perfected your skill Communication Leaders use effective communications which are expressions of affection and not anger facts and not fabrication compassion and not contention respect and not ridicule counsel and not criticism correction and not condemnation Their words are spoken with clarity and not with confusion They may be tender or they may be tough but they must always be tempered Courage Moral courage is the willingness to stand firm on values principles and convictions It enables all leaders to stand up for what they believe is right regardless of the consequences Leaders who take full responsibility for their decisions and actions even when things go wrong display moral courage Doing nothing wrong is not the same as doing the right thing First they came for the communists and I did not speak out because I was not a communist Then they came for the socialists and I did not speak out because I was not a socialist Then they came for the trade unionists and I did not speak out because I was not a trade unionist Then they came for the Jews and I did not speak out because I was not a Jew Then they came for me and there was no one left to speak out for me Then They Came Martin Niemöller Destructive Leadership Perhaps the four most common destructive forms of communication are those of Lying Lying will destroy a leaders integrity and trust Integrity is the core of our character Without integrity we have a weak foundation upon which to build other leadership characteristics Blaming This is a condemning communication When people are afraid to accept accountability they begin to place the blame on others Weak leaders tend to blame mistakes and problems on others

or on circumstances When we attempt to place responsibility for our choices on others we are responding in a leaderless manner More importantly do not allow those under you to fall into the habit of blaming encourage them to seek root causes never blame or point fingers Criticizing Positive or constructive criticism is feedback given with the purpose of helping another person to grow and to develop This is both helpful and needful and is generally accepted and appreciated Negative criticism is intended to hurt and often to defame and destroy This caustic communication is cruel and it tends to crush the character of all of those whom it is directed Anger This is perhaps the most common form of destructive communication Anger causes anguish to everyone who experiences the feeling as well as to those who are the recipients of this emotional explosion Anger shows a lack of self control and an inability to relate in a professional way to others It is a senseless substitute for self control It is sometimes used as a selfish strategy to gain control of a relationship Dr Edward Shelton is the author of *They Love You They Hate You Discovering Leadership* He is a respected international conference speaker on preferred leadership knowledge transfer and motivation Dr Sheltons work reflects a lifelong fascination of leadership as he has gained unique perspectives with his experiences that span industry academia and military *Essential Lessons on Leadership (Collection)* Jon Huntsman, James F.
