found that one of Scra's postings was to a secret medical mission in Yugoslavia. This was Maj Lindsay Rogers SOE medical expedition to Tito's Partisans organised by Fitzroy Maclean. Of course this is not described as such in his writings just as a trip from Bari to Yugoslavia via landing craft and escape by HM Gunboat back to Ancona in Italy. Included inside are many of Scra's original and unpublished photos and an amount of his pictures of the partisans both in Yugoslavia and at Bari. Nursing at the Frontline tells of his entry into Carthage initially sleeping on the hastily dug graves of the German defenders, the story of the unit's hosts the White Sisters and the mostly unknown day to day routine of the RAF Mobile Field Hospital. Scra also finds himself with air operational squadrons, finds time to photograph before and after pictures of the bombing of Monte Cassino and to deal with death. Now over 40 years since Scra wrote down his memoirs in long hand, almost 80 since the events he describes and 10 years since Bandy was entrusted with them, they are published to make for a fascinating read. From Carthage and the White Sisters to the events in Yugoslavia that Scra was involved with, these memoirs take you into the under-reported and little known world of the wartime male RAF Nursing Orderly at the sharp end. **Role**

Tichy, 2012-10-11. Front line employees who deal directly with customers are the face of any organization. Not only do they have the most impact on how a brand is perceived but they are also the most valuable source of insight into what customers want and how to give it to them. Unfortunately, as management experts Chris DeRose and Noel M. Tichy explain, most organizations don't know how to evaluate the risk of giving employees more autonomy. Many of those who are willing to try haven't even invested resources in ensuring that once the shackles are off, front line employees make good judgments. Tichy and DeRose offer powerful examples of front line leadership such as how Zappos trusts its people to do anything in service of a customer including providing free product or reimbursing for mistakes. How Mayo Clinic of Arizona enabled its nurses to challenge the hierarchy in order to improve patient care. **Soviet Women on the Frontline in the**
