Frontera Sur Southern Border:

Voices of the Border Tobin Hansen, María Engracia Robles Robles, 2021 Powerful personal accounts from migrants crossing the US Mexico border provide an understanding of their experiences as well as the consequences of public policy

Porous Borders Julian Lim, 2017-10-10 With the railroad's arrival in the late nineteenth century immigrants of all colors rushed to the US Mexico borderlands transforming the region into a booming international hub of economic and human activity Following the stream of Mexican Chinese and African American migration Julian Lim presents a fresh study of the multiracial intersections of the borderlands where diverse peoples crossed multiple boundaries in search of new economic opportunities and social relations However as these migrants came together in ways that blurred and confounded elite expectations of racial order both the United States and Mexico resorted to increasingly exclusionary immigration policies in order to make the multiracial populations of the borderlands less visible within the body politic and to remove them from the boundaries of national identity altogether Using a variety of English and Spanish language primary sources from both sides of the border Lim reveals how a borderlands region that has traditionally been defined by Mexican Anglo relations was in fact shaped by a diverse population that came together dynamically through work and play in the streets and in homes through war and marriage and in the very act of crossing the border

States, the Law and Access to Refugee Protection Maria O'Sullivan, Dallah Stevens, 2017-03-23 This timely volume seeks to examine two of the most pertinent current challenges faced by asylum seekers in gaining access to international refugee protection first the obstacles to physical access to territory and second the barriers to accessing a quality asylum procedure which the editors have termed access to justice To address these aims the book brings together leading commentators from a range of backgrounds including law sociology and political science It also includes contributions from NGO practitioners This allows the collection to offer interdisciplinary analysis and to incorporate both theoretical and practical perspectives on questions of immense contemporary significance While the examination offers a strong focus on European legal and policy developments the book also addresses the issues in different regions Europe North America the Middle East Africa and Australia Given the currency of the questions under debate this book will be essential reading for all scholars in the field of asylum law

The Mediterranean In The Age Of Globalization Natalia Ribas Mateos, The Mediterranean in the Age of Globalization is a welcome corrective to the tendency to present globalization as a homogenous concept and the failure to describe how it operates in specific regions Ribas Mateos examines globalization and migration across the Mediterranean using an innovative integrated framework so as to map social places by describing how social political cultural and economic forces are embedded within a globalizing environment The author articulates an original and compelling narrative mapping the Mediterranean as a global place where international and regional forces are intertwined in multiple threads In doing so she identifies two key components of globalization affecting specifically forms of welfare and issues of mobility in the context of a weakening European welfare state and the relocation

and reinforcement of Mediterranean borders Nine Mediterranean cities are investigated as gateway cities which shape two major effects of globalization welfare and mobility The book challenges conventional North South perspectives and focuses and systematizes the way international migration should be conceptualized The originality of the book results from the author's fieldwork which is rich in descriptive detail and from a theory centered around global perspectives Seven case studies in Southern Europe Algeciras Athens Barcelona Lisbon Naples Turin and Thrace deal with issues related to migration and the welfare state She also includes two ethnographies that represent two Mediterranean gateways in the North South Mediterranean division Tangiers in Morocco and Durres in Albania which are mapped as border cities in the global Mediterranean context Because of its intrinsically multidisciplinary nature this superb volume will be of particular interest to academics and social science researchers as well as policymakers and international agencies Natalia Ribas Mateos is a Marie Curie fellow at the Mediterranean Laboratory of Sociology Aix en Provence France Among her recent books are *Una invitación a las sociología de las migraciones* and *El debate sobre la globalización*

Rebuilding the State Institutions Juan Antonio Le Clercq, Jose Pablo Abreu Sacramento, 2019-11-29 Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law These weaknesses in the rule of law are multidimensional and involve elements of institutional design the specific content of the laws particularities of political competition and a culture of legality in a country with severe social inequalities This book discusses necessary institutional and legal reforms to develop the rule of law in a context of democratic social and economic transformations The chapters are organized to address

Applying Nonideal Theory to Bioethics Elizabeth Victor, Laura K. Guidry-Grimes, 2021-08-03 This book offers new essays exploring concepts and applications of nonideal theory in bioethics Nonideal theory refers to an analytic approach to moral and political philosophy especially in relation to justice according to which we should not assume that there will be perfect compliance with principles that there will be

favorable circumstances for just institutions and right action or that reasoners are capable of being impartial Nonideal theory takes the world as it actually is in all of its imperfections Bioethicists have called for greater attention to how nonideal theory can serve as a guide in the messy realities they face daily Although many bioethicists implicitly assume nonideal theory in their work there is the need for more explicit engagement with this theoretical outlook A nonideal approach to bioethics would start by examining the sociopolitical realities of healthcare and the embeddedness of moral actors in those realities How are bioethicists to navigate systemic injustices when completing research giving guidance for patient care and contributing to medical and public health policies When there are no good options and when moral agents are enmeshed in their sociopolitical viewpoints how should moral theorizing proceed What do bioethical issues and principles look like from the perspective of historically marginalized persons These are just a few of the questions that motivate nonideal theory within bioethics This book begins in Part I with an overview of the foundational tenets of nonideal theory what nonideal theory can offer bioethics and why it may be preferable to ideal theory in addressing moral dilemmas in the clinic and beyond In Part II authors discuss applications of nonideal theory in many areas of bioethics including reflections on environmental harms racism and minority health healthcare injustices during incarceration and detention and other vulnerabilities experienced by patients from clinical and public health perspectives The chapters within each section demonstrate the breadth in scope that nonideal theory encompasses bringing together diverse theorists and approaches into one collection

Just Immigration in the Americas Allison B. Wolf, 2020-09-22 This book proposes a pioneering interdisciplinary feminist approach to immigration justice which defines immigration justice as being about identifying and resisting global oppression in immigration structures policies practices and norms In contrast to most philosophical work on immigration which begins with abstract ideas and philosophical debates and then makes claims based on them this book begins with concrete cases and immigration policies from throughout the United States Mexico Central America and Colombia to assess the nature of immigration injustice and set us up to address it Every chapter of the book begins with specific immigration policies practices or sets of immigrant experiences in the U S and Latin America and then explores them through the lens of global oppression to better identify what makes it unjust and to put us in a better position to respond to that injustice and improve immigrants lives It is one of the first sustained studies of immigration justice that focuses on Central and South America in addition to the U S and Mexico

Bailliet, 2024-04-12 This comprehensive and insightful Research Handbook addresses the interpretation of international solidarity within topical legal regimes and regional systems as well as in relation to decolonization and the concepts of Ummah and Ubuntu It examines the way in which international solidarity enables the global community to respond to intercontinental challenges including climate change forced migration health emergencies and inequality

Beyond Drugs, Smuggling and Trafficking Gabriella Sanchez, Sheldon X. Zhang, 2021-09-27 Graphic depictions of crime in Mexico

abound in the global imagination fueled not merely by media representations but also by an abundant body of scholarship that reproduces grotesque simplistic characterizations of Mexico's people, cities and towns as crime ridden and almost inherently violent. These representations however often lack evidence and forgo important contextual analyses not to mention fail to incorporate the perspectives of its actors in the research development process. This collection of essays shows how community based research efforts to examine practices like kidnapping, migrant smuggling, human trafficking, sex work and citizen led forensics in Mexico can effectively correct methodological and conceptual gaps present in Mexico's dominant organized crime narrative while providing effective mechanisms to inform academic and policy debates. This easy to read volume provides a much needed re assessment of Mexico's organized crime rhetoric and also outlines a pathway for those interested in developing critical empirical research on illicit and criminalized practices. The chapters in this book were originally published as a special issue of the journal *Victims Offenders*. **Borders and Border Walls** Andréanne Bissonnette, Élisabeth Vallet, 2020-09-17

This book addresses the recent evolution of borderlines around the world as an attempt to control transnational movements with a view to securitization of borders rooted in the need to control mobility and preserve national identities. This book moves beyond physical borders and studies new manifestations of borders such as technological and symbolic walls. It brings together scholars from various academic fields such as geography, political science and border studies to examine the various movements, functions and articulations of international borders. It explores two main issues: how international borders have become enforced lines of demarcation and division reinforcing national identity and impacting national and regional dynamics; and the material and immaterial discursive and concrete expressions of borders and the impacts of the transformation of bodies into threat to be monitored as daily lives become sites of border enforcement. Offering multidisciplinary insights on the growing phenomenon of border walls, this book will be of interest to undergraduate and postgraduate students of Border Studies, European Studies, International Relations, Political Geography and Regional Studies. Debunk This! Matt Palumbo, 2019-08-20

Countless studies have proven that over 90 percent of Trump related news coverage is negative and the percentage of journalists that identify as Republicans are in the single digits. When liberals are running the show you can bet that their narrative has gone unchallenged. If you tell a lie long enough people will begin to believe it and that's certainly the case with so many liberal myths that have become accepted as conventional wisdom. In this book you'll learn among many other facts: What happened to non gun mass killings when Australia enacted strict gun control. The truth about Scandinavian socialism. How Obama twisted the numbers to appear tough on immigration. Why Mexico has stricter immigration laws than the US. How Bill Clinton faked the Clinton surplus. That the US doesn't have the majority of the world's mass shootings. Why statistics claiming that illegal aliens commit fewer crimes than the general public are bogus. The countless lies the media simply made up about the Trump administration. If you're in need of ammunition to shoot down liberal lies, this is the book for you. *How to Deal with Refugees?* Gerhard

Besier, Katarzyna Stoklosa, 2018 2015 was without any doubt the year of migrations. Over the subsequent two years we have certainly seen the migration flows reduce but it was never going to be possible to halt them altogether. From the outset of this phenomenon numerous academics and researchers have dedicated themselves to the topic. They analyse the causes, the course of the migration flows, parallels and impacts as well as possible scenarios of the migration movement. A wide reaching debate has evolved on the topic of migration to which the authors in this anthology were also keen to contribute. conflict regulations attempts. In this publication historians, political scientists, philosophers, sociologists, geographers, human geographers, economists, literary scientists, legal scholars, theologians and psychiatrists from a range of European and Non European countries have each contributed from their individual standpoints. Solidarity Mobilizations in the 'Refugee Crisis' Donatella della Porta, 2018-02-21. This edited collection introduces conceptual innovations that critically engage with understanding refugee movements as part of the broader category of poor people's movements. The empirical focus of the work lies on the protest events related to the so called long summer of migration of 2015. It traces the route followed by the migrants from the places of first arrival to the places of passage and on to the places of destination. Through qualitative and quantitative data the authors map within a cross national comparative perspective the wide set of actions and initiatives that are being created in solidarity with refugees who have made their journey seeking asylum to the European Union either travelling across the Mediterranean Sea or through South Eastern Europe. It explores these cases from the perspective of social movement studies alongside critical studies on migration and citizenship. **Emigrant Dreams, Immigrant Borders** Raquel Vega-Durán, 2016-09-30. *Emigrant Dreams Immigrant Borders* Migrants Transnational Encounters and Identity in Spain offers a new approach to the cultural history of contemporary Spain examining the ways in which Spain's own self conceptions are changing and multiplying in response to migrants from Latin America and Africa. In the last twenty five years Spain has gone from being a country of net emigration to one in which immigrants make up nearly 12 percent of the population. This rapid growth has made migrants increasingly visible in both mass media and in Spanish visual and literary culture. This book examines the origins of media discourses on immigration and takes the analysis of contemporary Spanish culture as its primary framework while also drawing insights from sociology and history. *Emigrant Dreams Immigrant Borders* introduces readers to a wide range of recent films, journals, novels, photography, paintings and music to reconsider contemporary Spain through its varied encounters with migrants. It follows the stages of the migrant's own journey beginning outside Spanish territory continuing across the border either at the barbed wire fences of Ceuta and Melilla or the waters of the Atlantic or the Strait of Gibraltar and then considers what happens to migrants after they arrive and settle in Spain. Each chapter analyzes one of these stages in order to illustrate the complexity of contemporary Spanish identity. This examination of Spanish culture shows how Spain is evolving into a new space of imagination one that can no longer be defined without the migrant a space in which there is no unified identity but rather a new self understanding is being born. Vega Durán both

places Spain in a larger European context and draws attention to some of the features that from a comparative perspective make the Spanish case interesting and often unique She argues that Spain cannot be understood today outside the Transatlantic and Mediterranean spaces both real and imaginary where Spaniards and migrants meet Emigrant Dreams Immigrant Borders offers a timely study of present day Spain and makes an original contribution to the vibrant debates about multiculturalism and nation formation that are taking *State, Foreign Operations, and Related Programs Appropriations for 2017* United States.
