Wife Living Dangerously Sara Susannah Katz, 2009-05-30 A smart and funny debut about a woman who went from being the good girl to the good wife and mother Now she s itching to be bad with a hot college professor Just how far will she dare to go Original

Perspectives on LHC Physics Aaron Pierce, 2008 The Large Hadron Collider LHC located at CERN Geneva Switzerland is the world s largest and highest energy and highest intensity particle accelerator This book provides an overview on the techniques that will be crucial for finding new physics at the LHC as well as perspectives on the importance and implications of the discoveries Among the contributors to this book are leaders and visionaries in the field of particle physics beyond the Standard Model including two Nobel Laureates Steven Weinberg and Frank Wilczek and presumably some future Nobel Laureates plus top younger theorists and experimenters

Deleuze, Guattari and the Schizoanalysis of the Global Pandemic Saswat Samay Das, Ananya Roy Pratihari, 2023-05-18 A vital response to the COVID 19 pandemic this volume connects the neoliberal underpinnings of the pandemic to the philosophy of Deleuze and Guattari By positioning the worst outcomes of the COVID 19 crisis in terms of neoliberal normativity contributors argue that we need to understand the pandemic rhizomatically Construed as an event that deterritorializes the globe the crisis of the pandemic contains within it the potential for creating new assemblages alliances and solidarities to offset the power of the state in building regimes of exclusion insulation and control Deleuzo Guattarian attention towards non human life finds new meaning in the context of the virus and our understanding of what constitutes life and inorganic life Crisis capitalism and revolution are read anew through the pandemic and core Deleuzo Guattarian concepts help to situate the proliferation of new models of mutual aid sustainability and care in the context of anti capitalist critique

Economic Structural Change Peter Hackl, Anders H. Westlund, 2013-06-29 Structural change is a fundamental concept in economic model building Statistics and econometrics provide the tools for identification of change for estimating the onset of a change for assessing its extent and relevance Statistics and econometrics also have developed models that are suitable for picturing the data generating process in the presence of structural change by assimilating the changes or due to the robustness to its presence Important subjects in this context are forecasting methods The need for such methods became obvious when as a consequence of the oil price shock the results of empirical analyses suddenly seemed to be much less reliable than before Nowadays economists agree that models with fixed structure that picture reality over longer periods are illusions An example for less dramatic causes than the oil price shock with similarly profound effects is economic growth and its impacts on the economic system Indeed economic growth was a motivating concept for this volume In 1983 the International Institute for Applied Systems Analysis IIASA in Laxenburg Austria initiated an ambitious project on Economic Growth and Structural Change

Critique of the Empiricist Explanation of Morality C. W. Maris, 2013-11-22 a Two things fill the mind with ever new and increasing admiration and awe the oftener and the more steadily we reflect on them the starry heavens above and the moral law within Thus Kant

formulates his attitude to morality Critique of Practical Reason p 260 He draws a sharp distinction between these two objects of admiration The starry sky he writes represents my relationship to the natural empirical world Moral law on the other hand is of a completely different order It begins from my invisible self my personality and exhibits me in a world which has true infinity but which is traceable only by the understanding and with which I discern that I am not in a merely contingent but in a universal and necessary connection p 260 So Kant sees morality as a separate metaphysical order opposed to the world of empirical phenomena Human beings belong to both worlds According to Kant the personality derives nothing of value from its relationship with the empirical world His part in the sensuous world of nature places man on a level with any animal which before long must give back to the rest of nature the substances of which it is made *Bantoe-onderwysblad* ,1973

Edinburgh History of Children's Periodicals Michelle J. Smith,Beth Rodgers,Kristine Moruzi,2024-04-30 Since the publication of the first children s periodical in the 1750s magazines have been an affordable and accessible way for children to read and form virtual communities Despite the range of children s periodicals that exist they have not been studied to the same extent as children s literature The Edinburgh History of Children s Periodicals marks the first major history of magazines for young people from the mid eighteenth century to the present Bringing together periodicals from Britain Ireland North America Australia New Zealand and India this book explores the roles of gender race and national identity in the construction of children as readers and writers It provides new insights both into how child readers shaped the magazines they read and how magazines have encouraged children to view themselves as political and world subjects
