Ancient Jewish Historians and the German Reich Daniel R. Schwartz, 2024-04-01 Apart from an opening survey of modern study of ancient Jewish history which emphasizes the foundational role of German Jewish scholars the studies united in this volume apply philological methods to the writings of four of them Heinrich Graetz Isaak Heinemann Elias Bickerman and Abraham Schalit In each case it is argued that some seemingly trivial anomaly or infelicity in a publication about such ancient characters as Antiochus Epiphanes Herod and Josephus points to the way in which the historian constructed and revised his understanding of the Jews situation under Greeks or Romans in light of his perception of the Jews situation under the Second or Third Reich The collection also includes a study that focuses on a Jewish medievalist Philipp Jaff and unravels the indirect but inexorable process that led from a scholarly feud about the editing of medieval Latin texts in the 1860s to the Berlin Antisemitism Dispute Berliner Antisemitismusstreit of 1879 1881 which is commonly viewed as the opening act of modern German antisemitism

Jewish Studies as Counterlife Adam Zachary Newton, 2019-06-04 This book tells the story of a Jewish Studies that hasn't fully happened at least not yet Newton asks what we mean when we say Jewish Studies and when we imagine it not as mere amalgam but as a project Jewish Studies offers a unique perspective from which to view the horizon of the academic humanities because although it arrived belatedly it has spanned a range of disciplinary locations and configurations from an origin story in nineteenth century historicism and philology to the emancipatory politics of the Enlightenment to the ethnicity driven pluralism of the postwar decades to more recent configurations within an interdisciplinary cultural studies The conflicted allegiances with respect to traditions disciplines divisions stakes and stakeholders represent the structural and historical situation of the field as it comes into contact with the humanities more broadly At once a literary and philosophical thinker Newton deploys a tableau of texts in concert with an ensemble of vivid elastic tropes not only to theorize Jewish Studies but also to reimagine it as an agent of that potency Jacques Derrida calls leverage a force multiplier for the field's multiple possibilities In refiguring a Jewish Studies to come the book intervenes in a broader discourse about the challenge of professing disciplinary knowledges while promoting transit across their boundaries

Jewish Studies as Counterlife further amplifies Newton's career-long articulation of the dialogic as the staging ground of ethical encounter. *Frontiers of Jewish Scholarship* Anne O. Albert, Noah S. Gerber, Michael A. Meyer, 2022-03-22 The birth of modern Jewish studies can be traced to the nineteenth-century emergence of the *Wissenschaft des Judentums*, a movement to promote a scholarly approach to the study of Judaism and Jewish culture. *Frontiers of Jewish Scholarship* offers a collection of essays examining how *Wissenschaft* extended beyond its original German intellectual contexts and was transformed into a diverse global field. From the early expansion of the new scholarly approaches into Jewish publications across Europe to their translation and reinterpretation in the twentieth century, the studies included here collectively trace a path through largely neglected subject matter newly recognized as deserving attention. Beginning with an introduction that surveys the field's German origins, fortunes, and contexts, the volume goes on to document dimensions of the growth of *Wissenschaft des Judentums* elsewhere in Europe and throughout the world. Some of the contributions turn to literary and semantic issues, while others reveal the penetration of Jewish studies into new national contexts that include Hungary, Italy, and even India. Individual essays explore how the United States, along with Israel, emerged as a main center for Jewish historical scholarship and how critical Jewish scholarship began to accommodate Zionist ideology originating in Eastern Europe and eventually Marxist ideology primarily in the Soviet Union. Finally, the focus of the volume moves on to the land of Israel, focusing on the reception of Orientalism and Jewish scholarly contacts with Yemenite and native Muslim intellectuals. Taken together, the contributors to the volume offer new material and fresh approaches that rethink the relationship of Jewish studies to the larger enterprise of critical scholarship while highlighting its relevance to the history of humanistic inquiry worldwide.

The Cambridge History of Judaism: Volume 5, Jews in the Medieval Islamic World Phillip I.

Lieberman, 2021-09-02 Volume 5 examines the history of Judaism in the Islamic World from the rise of Islam in the early sixth century to the expulsion of Jews from Spain at the end of the fifteenth. This period witnessed radical transformations both within the Jewish community itself and in the broader contexts in which the Jews found themselves. The rise of Islam had a decisive influence on Jews and Judaism as the conditions of daily life and elite culture shifted throughout the Islamicate world. Islamic conquest and expansion affected the shape of the Jewish community as the center of gravity shifted west to the North African communities, and long-distance trading opportunities led to the establishment of trading diasporas and flourishing communities as far east as India. By the end of our period, many of the communities on the other side of the Mediterranean had come into their own, while many of the Jewish communities in the Islamicate world had retreated from their high water mark. **Modern Judaism and Historical Consciousness** Christian Wiese, Andreas Gotzmann, 2007-05-11 The volume, composed by excellent scholars from different academic disciplines, is a comprehensive handbook devoted to the complex relationship between modern Judaism and historical thinking in Europe, the United States, and Israel from the Enlightenment to the present. Apart from analyzing the emergence of a new scholarly historical paradigm during this period, the

contributions interpret the interaction and the tensions between Jewish historiography and other disciplines such as literature theology sociology and philosophy describe the way historical consciousness was popularized and used for ideological purposes and explore the impact of different religious or secular identities on the historical representation of the Jewish past A final part envisions new theoretical and methodological concepts within the field including cultural studies and gender studies

Leopold Zunz Ismar Schorsch, 2016-10-27 In 1818 with a single essay of vast scope and stunning detail Leopold Zunz launched the turn to history in modern Judaism Despite unending setbacks he persevered for more than five decades to produce a body of enduring scholarship that would inspire young Jews streaming into German universities and alter forever the understanding of Judaism By the time of his death in 1886 his vision and labor had given rise to a historical discourse and intellectual movement that devolved into vibrant sub fields as it expanded to other geographic centers of Jewish life Yet Zunz was a part time scholar at best in search of employment that would leave him time to study In addition to his pioneering scholarship he was as deeply engaged in ending the political tutelage of German Christians as the civil disabilities of German Jews And to his credit these commitments did not come at the expense of his loyalty to the Jewish community which he was ever ready to serve Zunz once quipped that those who have read my books are far from knowing me To complement his books Zunz left behind a treasure trove of notes letters and papers documents that the distinguished scholar of German Jewish culture Ismar Schorsch has zealously utilized to write this the first full fledged biography of a remarkable man

The Oxford Handbook of Jewish Studies Martin Goodman, Jeremy Cohen, David Sorkin, 2002 This volume on Jewish studies presents surveys of today's interests and directions in the humanities and social sciences It covers the main areas taught and researched as part of Jewish studies in universities throughout the world especially in Europe the US and Israel

Too Jewish or Not Jewish Enough Jeffrey Abt, 2024-02-02 Displays of Jewish ritual objects in public non Jewish settings by Jews are a comparatively recent phenomenon So too is the establishment of Jewish museums This volume explores the origins of the Jewish Museum of New York and its evolution from collecting and displaying Jewish ritual objects to Jewish art to exhibiting avant garde art devoid of Jewish content created by non Jews Established within a rabbinic seminary the museum's formation and development reflect changes in Jewish society over the twentieth century as it grappled with choices between religion and secularism particularism and universalism and ethnic pride and assimilation

Toward a Negative Theology of Judaism Ernest Rubinstein, 2025-07-29 This book reimagines Judaism and Jewish identity after the time honored method of negative theology It builds on negations that clear space for revisioning of such topics as creation and revelation the people and State of Israel history and suffering ritual and ethics God and spiritual life The theology builds on thought from key figures in the history of Jewish philosophy and serves along the way as an introduction to them including Ecclesiastes Philo Saadia Gaon Judah Halevi Maimonides Spinoza Moses Mendelssohn Nachman Krochmal Hermann Cohen Franz Rosenzweig Martin Buber Abraham Joshua Heschel Emil Fackenheim Emmanuel

Levinas Yeshayahu Leibowitz and more A key finding is that a shared negation binds God and the Jewish people together their joint refusal to submit to contentful constrictive definition
