## **From Uncertain To Blue Signed:**

**Chan Rhetoric of Uncertainty in the Blue Cliff Record** Steven Heine, 2016 This book provides an innovative and critical analysis in light of Song dynasty 960-1127 Chinese cultural and intellectual historical trends of the Blue Cliff Record the seminal Chan Zen Buddhist collection of commentaries on one hundred gongan koan cases which has long been celebrated for its intricate and articulate interpretative methods

**Topical Communication Uncertainties** Stefan Vladutescu, Florentin Smarandache, Daniela Gifu, Alina Tenescu, 2014 Communication is the main way of defusing uncertainties Unfortunately communication discipline itself is mined by uncertainties We can talk about onto epistemological uncertainties and pragmatic uncertainties of communication about theoretical and practical uncertainties and about primary and secondary uncertainties of communication Uncertainties regarding the object of communication as autonomous discipline the research methods of communication the sources paradigms and models of communication represent theoretical onto epistemological uncertainties Pragmatic uncertainties include uncertainties in communication processes they have a practical character Pragmatic uncertainties are those that lead to communication failure and they consist in minor obstacles or insurmountable barriers in concrete communication Florentin Smarandache Stefan Vladutescu The book has 16 chapters written by the following authors and co authors from USA England Poland Slovakia and Romania Florentin Smarandache Stefan Vladutescu Mirela Teodorescu Dan S Stoica Daniela Gifu Calin Andrei Ioan Constantin Dima Mariana Man Janusz Grabara Paula Bajdor Jim O'Brien Andrzej Rabsztyń Anabella Maria Tarnovan Adrian Nicolescu Alina Tenescu Nicusor Minculete Vladimir Modrak Sorin Mihai Radu Alice Ionescu Anca Diana Bibiri Lucian Sacalean Mircea Munteanu Roxana Criu Bogdan Constantin Neculau Marin Dramnescu Mihaela Gabriela Paun and Loredana Speriatu

*Living with Diabetes and Uncertainty in Cairo* Mille Kjærgaard Thorsen, 2023-05-18 Living with Diabetes and Uncertainty in Cairo offers an ethnographic exploration of the interactions of two different understandings of type 2 diabetes one related to the notion of agh translated as pressure or stress and another related primarily to obesity The book is set in Egypt but draws links to a diabetes clinic in Denmark and a multinational medical company as well as engaging with international diabetes research and guidelines It tells a story of uncertainty not only among people in Cairo but also within medical research and considers what uncertainty may generate in both bodies and societies at large The chapters provide valuable insight into the lives of those in Cairo who are diagnosed with type 2 diabetes and explore how those lives are linked to global movements The book ultimately reflects on the question of what is overlooked and why in prevention strategies and treatments of type 2 diabetes in Egypt It will be of particular interest to scholars of anthropology global and public health and the Middle East and North Africa

*Computational Red Teaming* Hussein A. Abbass, 2014-10-30 Written to bridge the information needs of management and computational scientists this book presents the first comprehensive treatment of Computational Red Teaming CRT The author describes an analytics environment that blends human reasoning and computational modeling to

design risk aware and evidence based smart decision making systems He presents the Shadow CRT Machine which shadows the operations of an actual system to think with decision makers challenge threats and design remedies This is the first book to generalize red teaming RT outside the military and security domains and it offers coverage of RT principles practical and ethical guidelines The author utilizes Gilbert s principles for introducing a science Simplicity where the book follows a special style to make it accessible to a wide range of readers Coherence where only necessary elements from experimentation optimization simulation data mining big data cognitive information processing and system thinking are blended together systematically to present CRT as the science of Risk Analytics and Challenge Analytics Utility where the author draws on a wide range of examples ranging from job interviews to Cyber operations before presenting three case studies from air traffic control technologies human behavior and complex socio technical systems involving real time mining and integration of human brain data in the decision making environment

Measuring Uncertainty within the Theory of Evidence Simona Salicone,Marco Prioli,2018-04-23 This monograph considers the evaluation and expression of measurement uncertainty within the mathematical framework of the Theory of Evidence With a new perspective on the metrology science the text paves the way for innovative applications in a wide range of areas Building on Simona Salicone s Measurement Uncertainty An Approach via the Mathematical Theory of Evidence the material covers further developments of the Random Fuzzy Variable RFV approach to uncertainty and provides a more robust mathematical and metrological background to the combination of measurement results that leads to a more effective RFV combination method While the first part of the book introduces measurement uncertainty the Theory of Evidence and fuzzy sets the following parts bring together these concepts and derive an effective methodology for the evaluation and expression of measurement uncertainty A supplementary downloadable program allows the readers to interact with the proposed approach by generating and combining RFVs through custom measurement functions With numerous examples of applications this book provides a comprehensive treatment of the RFV approach to uncertainty that is suitable for any graduate student or researcher with interests in the measurement field

**Decision Making under Uncertainty** Kerstin Preuschoff,Peter N. C. Mohr,Ming Hsu,2015-06-16 Most decisions in life are based on incomplete information and have uncertain consequences To successfully cope with real life situations the nervous system has to estimate represent and eventually resolve uncertainty at various levels A common tradeoff in such decisions involves those between the magnitude of the expected rewards and the uncertainty of obtaining the rewards For instance a decision maker may choose to forgo the high expected rewards of investing in the stock market and settle instead for the lower expected reward and much less uncertainty of a savings account Little is known about how different forms of uncertainty such as risk or ambiguity are processed and learned about and how they are integrated with expected rewards and individual preferences throughout the decision making process With this Research Topic we aim to provide a deeper and more detailed understanding of the processes behind decision making under uncertainty

**Myth and**

**the Creative Process** Jacob E. Nyenhuis, 2003 Highlighting the interaction between myth and artist word and image Jacob Nyenthuis here presents a catalogue of these works one that will enlighten Ayrton s British following while introducing him to an American audience BOOK JACKET *Moonheart* Charles de Lint, 1994-02-15 Fantasy roman **HEC-FDA**

**Sensitivity and Uncertainty Analysis** Mary Joyce Briant, 2001 The U S Army Corps of Engineers software HEC FDA is a tool that uses Risk based Analysis to compute Expected Annual Damage EAD for flood damage reduction studies EAD reduction is computed as the difference between EAD with and without alternative projects a quantity used to aid in flood damage reduction project selection Depending on the time and money spent in the collection and preparation of the input data sets relatively lesser or greater accuracy can be achieved in EAD computation Sets of numerical experiments on synthetic large and small drainage basins show that EAD is differently sensitive to the major input functions to HEC FDA and their associated uncertainties depending on drainage area and the shape of the damage stage curve The results from the synthetic data sets are verified by two case studies on the Blue River Missouri and the Chippewa River Georgia The relative sensitivity of EAD to its input functions and associated uncertainties can be used in federal investment decision making for flood damage reduction projects

**Spatial Uncertainty for Ecology**, 2001-06-29 This is one of the first books to take an ecological perspective on uncertainty in spatial data It applies principles and techniques from geography and other disciplines to ecological research and thus delivers the tools of cartography cognition spatial statistics remote sensing and computer sciences by way of spatial data After describing the uses of such data in ecological research the authors discuss how to account for the effects of uncertainty in various methods of analysis **The Specific Brightness of Colors** Bertha Musson Luckey, 1916 Cure Unknown Pamela Weintraub, 2013-06-25 This history of Lyme disease is a tale of biological complexities scientific turf battles political intrigue human egos and money lots of it Sacramento Bee Winner American Medical Writers Association Book Award When Pamela Weintraub a science journalist learned that her oldest son tested positive for Lyme disease she thought she had found an answer to the symptoms that had been plaguing her family for years but her nightmare had just begun Almost everything about Lyme disease turned out to be deeply controversial from the microbe causing the infection to the length and type of treatment and the kind of practitioner needed On one side of the fight the scientists who first studied Lyme describe a disease transmitted by a deer tick that is hard to catch but easy to cure no matter how advanced the case On the other side rebel doctors insist that Lyme and a soup of co infections cause a complicated spectrum of illness often dramatically different and far more difficult to treat than the original researchers claim Instead of just swollen knees and a rash patients can experience exhaustion disabling pain and a Lyme fog that leaves them dazed and confused As patients struggle for answers once treatable infections become chronic In this nuanced picture of the intense controversy and crippling uncertainty surrounding Lyme disease Pamela Weintraub sheds light on one of the angriest medical disputes raging today The most comprehensive book ever written about the past present and future of Lyme disease

Cure Unknown exposes the ticking clock of a raging epidemic and the vulnerability we all share Revised with a new chapter A thoroughly researched and well written account of the disease s controversial history Jane Brody The New York Times A comprehensive and compassionate guide to a dreaded illness named after a bucolic tick infested town on Long Island Sound Hartford Courant

*Essays on Risk and Uncertainty in Economics and Finance* Jorge Mario Uribe Gil ,2022-11-22 This book adds to the resolution of two problems in finance and economics i what is macro financial uncertainty How to measure it How is it different from risk How important is it for the financial markets And ii what sort of asymmetries underlie financial risk and uncertainty propagation across the global financial markets That is how risk and uncertainty change according to factors such as market states or market participants In Chapter 2 which is entitled Momentum Uncertainties the relationship between macroeconomic uncertainty and the abnormal returns of a momentum trading strategy in the stock market is studied We show that high levels of uncertainty in the economy impact negatively and significantly the returns of a portfolio of stocks that consist of buying past winners and selling past losers High uncertainty reduces below zero the abnormal returns of momentum extinguishes the Sharpe ratio of the momentum strategy while increases the probability of momentum crashes both by increasing the skewness and the kurtosis of the momentum return distribution Uncertainty acts as an economic regime that underlies abrupt changes over time of the returns generated by momentum strategies In Chapter 3 Measuring Uncertainty in the Stock Market a new index for measuring stock market uncertainty on a daily basis is proposed The index considers the inherent differentiation between uncertainty and the common variations between the series The second contribution of chapter 3 is to show how this financial uncertainty index can also serve as an indicator of macroeconomic uncertainty Finally the dynamic relationship between uncertainty and the series of consumption interest rates production and stock market prices among others is analyzed In chapter 4 Uncertainty Systemic Shocks and the Global Banking Sector Has the Crisis Modified their Relationship we explore the stability of systemic risk and uncertainty propagation among financial institutions in the global economy and show that it has remained stable over the last decade Additionally a new simple tool for measuring the resilience of financial institutions to these systemic shocks is provided We examine the characteristics and stability of systemic risk and uncertainty in relation to the dynamics of the banking sector stock returns This sort of evidence is supportive of past claims made in the field of macroeconomics which hold that during the global financial crisis the financial system may have faced stronger versions of traditional shocks rather than a new type of shock In chapter 5 Currency downside risk liquidity and financial stability downside risk propagation across global currency markets and the ways in which it is related to liquidity is analyzed Two primary contributions to the literature follow First tail spillovers between currencies in the global FX market are estimated This index is easy to build and does not require intraday data which constitutes an important advantage Second we show that turnover is related to risk spillovers in global currency markets Chapter 6 is entitled Spillovers from the United States to Latin American and G7 Stock Markets A

VAR Quantile Analysis This chapter contributes to the studies of contagion market integration and cross border spillovers during both regular and crisis episodes by carrying out a multivariate quantile analysis It focuses on Latin American stock markets which have been characterized by a highly positive dynamic in recent decades in terms of market capitalization and liquidity ratios after a far reaching process of market liberalization and reforms to pension funds across the continent during the 80s and 90s We document smaller dependences between the LA markets and the US market than those between the US and the developed economies especially in the highest and lowest quantiles

*Big Data Analytics for Human-Computer Interactions: A New Era of Computation* Kuldeep Singh Kaswan, Anupam Baliyan, Jagjit Singh Dhatteerwal, Om Prakash Kaiwartya, 2023-08-28 Big Data is playing a vital role in HCI projects across a range of industries healthcare cybersecurity forensics education business organizations and scientific research Big data analytics requires advanced tools and techniques to store process and analyze the huge volume of data Working on HCI projects requires specific skill sets to implement IT solutions Big Data Analytics for Human Computer Interactions A New Era of Computation is a comprehensive guide that discusses the evolution of Big Data in Human Computer Interaction from promise to reality This book provides an introduction to Big Data and HCI followed by an overview of the state of the art algorithms for processing big data Subsequent chapters also explain the characteristics applications opportunities and challenges of big data systems by describing theoretical practical and simulation concepts of computational intelligence and big data analytics used in designing HIC systems The book also presents solutions for analyzing complex patterns in user data and improving productivity Readers will be able to understand the technology that drives big data solutions in HCI projects and understand its capacity in transforming an organization The book also helps the reader to understand HCI system design and explains how to evaluate an application portfolio that can be used when selecting pilot projects This book is a resource for researchers students and professionals interested in the fields of HCI artificial intelligence data analytics and computer engineering
