**From Eckhart to Ruusbroec** Satoshi Kikuchi, 2014-09-26 The mystical relationship between Meister Eckhart and Jan van Ruusbroec In this thorough textual historical and doctrinal study the author seeks to clarify the relationship between two prominent mystics of the fourteenth century Meister Eckhart the German Dominican and Jan van Ruusbroec the Brabantine Augustinian Special attention is paid to Ruusbroec s criticism of mystical tenets circulating in Brabant at that time which were both textually and doctrinally related to Eckhart s condemned propositions in the papal bull *In agro dominico* This fact implies that Ruusbroec was confronted with the impact of the condemnation of Eckhart s doctrines on the people in Brabant Situating Ruusbroec s life and works within the aftermath of Eckhart s arrival the author elucidates Ruusbroec s position regarding the relevant mystical themes in the later Middle Ages and follows a process of critical inheritance of mystical tradition from Eckhart to Ruusbroec 1817-1822 Walter Edwin Peck, 1927 *Law's Trace: From Hegel to Derrida* Catherine Kellogg, 2009-12-04

*Law's Trace* argues for the political importance of deconstruction by taking Derrida s reading of Hegel as its point of departure While it is well established that seemingly neutral and inclusive legal and political categories and representations are always in fact partial and exclusive among Derrida s most potent arguments was that the exclusions at work in every representation are not accidental but constitutive Indeed one of the most significant ways that modern philosophy appears to having completed its task of accounting for everything is by claiming that its foundational concepts representation democracy justice and so on are what will have always been They display what Derrida has called a fabulous retroactivity This means that such forms of political life as liberal constitutional democracy capitalism the rule of law or even the private nuclear family appear to be the inevitable consequence of human development Hegel s thought is central to the argument of this book for this reason the logic of this fabulous retroactivity was articulated most decisively for the modern era by the powerful idea of the *Aufhebung* the temporal structure of the always already Deconstruction reveals the exclusions at work in the foundational political concepts of modernity by re tracing the path of their creation revealing the always already at work in that path Every

representation knowledge or law is more uncertain than it seems and the central argument of Law's Trace is that they are therefore always potential sites for political struggle

**Christian Reading** Blossom Stefaniw, 2019-05-28 Christian Reading shifts the assumption that study of the Bible must be about the content of the Bible or aimed at confessional projects of religious instruction Blossom Stefaniw focuses on the lesson transcripts from the Tura papyri which reveal verbatim oral classroom discourse to show how biblical texts were used as an exhibition space for the traditional canon of general

knowledge about the world Stefaniw demonstrates that the work of Didymus the Blind in the lessons reflected in the Tura papyri was similar to that of other grammarians in late antiquity articulating the students place in time their position in the world and their connection to their heritage But whereas other grammarians used revered texts like Homer and Menander Didymus curated the cultural patrimony using biblical texts namely the Psalms and Ecclesiastes By examining this routine epistemological and pedagogical work carried out through the Bible Christian Reading generates a new model of the relationship of Christian scholarship to the pagan past
