From Prejudice To Genocide Learning About The Holocaust:

From Prejudice to Genocide Carrie Supple, 2003-01-01 The book traces the rise of Nazism and the diverse responses to it The way the holocaust was conceived and implemented is examined By following the effects of the holocaust through the experience of individuals the author gives a face to the millions of victims **From Prejudice to Genocide** Trentham books, 1992 Conceptualizing Mass Violence Navras J. Aafreedi, Priya Singh, 2021-05-13 *Conceptualizing Mass Violence* draws attention to the conspicuous inability to inhibit mass violence in myriads forms and considers the plausible reasons for doing so Focusing on a postcolonial perspective the volume seeks to popularize and institutionalize the study of mass violence in South Asia The essays explore and deliberate upon the varied aspects of mass violence namely revisionism reconstruction atrocities trauma memorialization and literature the need for Holocaust education and the criticality of dialogue and reconciliation The language content and characteristics of mass violence genocide explicitly reinforce its aggressive transmuting and multifaceted character and the consequent necessity to understand the same in a nuanced manner The book is an attempt to do so as it takes episodes of mass violence for case study from all inhabited continents from the twentieth century to the present The volume studies consciously enforced mass violence through an interdisciplinary approach and suggests that dialogue aimed at reconciliation is perhaps the singular agency via which a solution could be achieved from mass violence in the global context The volume is essential reading for postgraduate students and scholars from the interdisciplinary fields of Holocaust and Genocide Studies History Political Science Sociology World History Human Rights and Global Studies **The Origins of Genocide** Dominik J. Schaller, Jürgen Zimmerer, 2013-09-13 This year the United Nations celebrated the Convention on the Prevention and Punishment of the Crime of Genocide adopted in December 1948 It is time to recognize the man behind this landmark in international law At the beginning were a few words New conceptions require new terms By genocide we mean the destruction of a nation or of an ethnic group Rarely in history have paradigmatic changes in scholarship been brought about with such few words Putting the quintessential crime of modernity in only one sentence Raphael Lemkin 1900 1959 the Polish Jewish specialist in international law not only summarized the horrors of the National Socialist Crimes which were still underway when he coined the term genocide in 1944 but also influenced international law As the founding figure of the UN Genocide Convention Lemkin is finally getting the respect he deserves Less known is his contribution to historical scholarship on genocide Until his death Lemkin was working on a broad study on genocides in the history of humankind Unfortunately he did not manage to publish it The contributions in this book offer for the first time a critical assessment not only of his influence on international law but also on historical analysis of mass murders showing the close connection between both This book was published as a special issue of the *Journal of Genocide Research* **Danger! Educated Gypsy** Ian Hancock, 2010 This is a timely collection of Ian Hancock s selected writings His impact upon Romani Studies has been truly remarkable both in terms

of his contributions to linguistics and Gypsy historiography and in his re assessment of Romani identity within the Western cultural fabric *Teaching Controversial Issues in the Classroom* Paula Cowan, Henry Maitles, 2012-02-16 *Children's Exodus* Vera K. Fast, 2010-11-09 In the months leading up to the outbreak of World War Two Britain rushed to evacuate nearly 10 000 Jewish children from the Nazi occupied territories Through the unprecedented cooperation of religious and governmental organizations the Kindertransport spared thousands of Jewish children from the terror of the Third Reich and provided them with host families in Britain Children s Exodus offers an in depth look at the people and politics behind the various chains of rescue as well as the personal narratives of the children who left everything behind in the hope of finding safety Drawing on unpublished interviews journals and articles Vera K Fast examines the religious and political tensions that emerged throughout the migration and at times threatened to bring operations to a halt Children s Exodus captures the life affirming stories of child refugees with vivid detail and examines the motivations religious or otherwise of the people that orchestrated one of the greatest rescue missions of all time *The Routledge Handbook of Memory Activism* Yifat Gutman, Jenny Wüstenberg, 2023-02-15 This Handbook is the first systematic effort to map the fast growing phenomenon of memory activism and to delineate a new field of research that lies at the intersection of memory and social movement studies From Charlottesville to Cape Town from Santiago to Sydney we have recently witnessed protesters demanding that symbols of racist or colonial pasts be dismantled and that we talk about histories that have long been silenced But such events are only the most visible instances of grassroots efforts to influence the meaning of the past in the present Made up of more than 80 chapters that encapsulate the rich diversity of scholarship and practice of memory activism by assembling different disciplinary traditions methodological approaches and empirical evidence from across the globe this Handbook establishes important questions and their theoretical implications arising from the social political and economic reality of memory activism Memory activism is multifaceted takes place in a variety of settings and has diverse outcomes but it is always crucial to understanding the constitution and transformation of our societies past and present This volume will serve as a guide and establish new analytic frameworks for scholars students policymakers journalists and activists alike **Belsen** Joanne Reilly, 1998 The military and medical liberation and British government and British population response to the disclosure of what occurred at Belsen *Detonators* Chad Millman, 2009-08-01 A gripping account of German spies a massive explosion in New York Harbor and the hunt for the conspirators The New York Times The attack in New York Harbor was so explosive that people as far away as Maryland felt the ground shake Windows were blown out at the New York Public Library the main building at Ellis Island was nearly destroyed the Statue of Liberty was damaged Chaos overtook Manhattan as the midnight sky turned to fire The year was 1916 And it had been shockingly easy As war raged in Europe Americans watched from afar unthreatened by the danger overseas Yet the US was riddled with networks of German spies The attack on the harbor was only a part of their plans secret anthrax facilities were located ten miles from the White House bombs were planted on ships

hidden in buildings and mailed to civic and business leaders and an underground syndicate helped potential terrorists obtain fake IDs housing and money President Woodrow Wilson knew an attack of this magnitude was possible yet nothing was done to stop it Americans feeling buffered by miles of ocean and burgeoning prosperity had ignored the mounting threat That all changed on a warm evening in July when the island called Black Tom exploded setting alight a vast store of munitions destined for the front Three American lawyers made it their mission to solve the mystery Their hunt for justice would take them into the shadowy world of secret agents and double crosses through the halls of Washington and the capitals of Europe It would challenge their beliefs in right and wrong And they would discover a sinister plot so vast it could hardly have been imagined a conspiracy that stretched from downtown Manhattan to the very heart of Berlin A fascinating but little known episode in World War I history gripping reading Publishers Weekly starred review An intriguing bracing tale Kirkus Reviews starred review

Beyond the National Curriculum Professor David Coulby, David Coulby, 2002-01-04 The National Curriculum is due for review This is a central area of educational debate in England and Wales Increasingly politicians and their entourages are looking for quick fixes from abroad to solve what they see to be problems in the educational system of the UK Drawing on insights from other European curricular systems this provocative book will contribute in a timely way to the debate on reformations of the National Curriculum The style is concise with points for discussion and lists of further reading debate in England and Wales Increasingly politicians are looking for quick fixes from abroad to solve what they see to be problems in the educational system Drawing on insights from other European curricular systems this volume will contribute in a timely way to the debate on the reformations of the National Curriculum The style is short and concise with points for discussion and lists of further reading _ Learning from the Germans Susan Neiman, 2019-08-27 As an increasingly polarized America fights over the legacy of racism Susan Neiman author of the contemporary philosophical classic *Evil in Modern Thought* asks what we can learn from the Germans about confronting the evils of the past In the wake of white nationalist attacks the ongoing debate over reparations and the controversy surrounding Confederate monuments and the contested memories they evoke Susan Neiman's *Learning from the Germans* delivers an urgently needed perspective on how a country can come to terms with its historical wrongdoings Neiman is a white woman who came of age in the civil rights era South and a Jewish woman who has spent much of her adult life in Berlin Working from this unique perspective she combines philosophical reflection personal stories and interviews with both Americans and Germans who are grappling with the evils of their own national histories Through discussions with Germans including Jan Philipp Reemtsma who created the breakthrough Crimes of the Wehrmacht exhibit and Friedrich Schorlemmer the East German dissident preacher Neiman tells the story of the long and difficult path Germans faced in their effort to atone for the crimes of the Holocaust In the United States she interviews James Meredith about his battle for equality in Mississippi and Bryan Stevenson about his monument to the victims of lynching as well as lesser known social justice activists in the South to provide a compelling

The American West and the Nazi East C. Kakel, 2011-07-12 By employing new optics and a comparative approach this book helps us recognize the unexpected and unsettling connections between America s western empire and Nazi Germany s eastern empire linking histories previously thought of as totally unrelated and leading readers towards a deep revisioning of the American West and the Nazi East

Debating Genocide Lisa Pine, 2018-11-01 This book explores the subject of genocide through key debates and case studies It analyses the dynamics of genocide the processes and mechanisms of acts committed with the intention of destroying in whole or in part a national ethnic religious or racial group in order to shed light upon its origins characteristics and consequences Debating Genocide begins with an introduction to the

concept of genocide It then examines the colonial genocides at the end of the 19th and start of the 20th centuries the Armenian Genocide of 1915 16 the Nazi Final Solution the Nazi genocide of the Gypsies mass murder in Cambodia under the Khmer Rouge the genocides in the 1990s in the former Yugoslavia and Rwanda and the genocide in Sudan in the early 21st century It also includes a thematic chapter which covers gender and genocide as well as issues of memory and memorialisation Finally the book considers how genocides end as well as the questions of resolution and denial with Lisa Pine examining the debates around prediction and prevention and the R2P Responsibility to Protect initiative This book is crucial for any students wanting to understand why genocides have occurred why they still occur and what the key historical discussions around this subject entail

Colonialism and Genocide Dirk Moses, Dan Stone, 2013-09-13 Previously published as a special issue of Patterns of Prejudice this is the first book to link colonialism and genocide in a systematic way in the context of world history It fills a significant gap in the current understanding on genocide and the Holocaust which sees them overwhelmingly as twentieth century phenomena This book publishes Lemkin's account of the genocide of the Aboriginal Tasmanians for the first time and chapters cover the exterminatory rhetoric of racist discourses before the scientific racism of the mid nineteenth century Charles Darwin's preoccupation with the extinction of peoples in the face of European colonialism a reconstruction of a virtually unknown case of subaltern genocide global perspective on the links between modernity and the Holocaust Social theorists and historians alike will find this a must read

The Palgrave Handbook of Testimony and Culture Sara Jones, Roger Woods, 2023-04-19 This Palgrave Handbook examines the ways in which researchers and practitioners theorise analyse produce and make use of testimony It explores the full range of testimony in the public sphere including perpetrator testimony testimony presented through social media and virtual reality A growing body of research shows how complex and multi layered testimony can be how much this complexity adds to our understanding of our past and how creators and users of testimony have their own complex purposes These advances indicate that many of our existing assumptions about testimony and models for working with it need to be revisited The purpose of this Palgrave Handbook is to do just that by bringing together a wide range of disciplinary theoretical methodological and practice based perspectives
