**Oblate Missionaries, and Grey Nuns in the Keewatin, 1865-1965** Frédéric B. Laugrand, Jarich G. Oosten, 2019-09-19 Over the century between the first Oblate mission to the Canadian central Arctic in 1867 and the radical shifts brought about by Vatican II the region was the site of complex interactions between Inuit Oblate missionaries and Grey Nuns interactions that have not yet received the attention they deserve Enriching archival sources with oral testimony Frédéric Laugrand and Jarich Oosten provide an in depth analysis of conversion medical care education and vocation in the Keewatin region of the Northwest Territories They show that while Christianity was adopted by the Inuit and major transformations occurred the Oblates and the Grey Nuns did not eradicate the old traditions or assimilate the Inuit who were caught up in a process they could not yet fully understand The study begins with the first contact Inuit had with Christianity in the Keewatin region and ends in the mid 1960s when an Inuk woman joined the Grey Nuns and two Inuit brothers became Oblate missionaries Bringing together many different voices perspectives and experiences and emphasizing the value of multivocality in understanding this complex period of Inuit history *Inuit Oblate Missionaries and Grey Nuns in the Keewatin 1865-1965* highlights the subtle nuances of a long and complex interaction showing how salvation and suffering were intertwined

**The Barren Ground Caribou of Keewatin** Francis Harper, 2023-10-04 In *The Barren Ground Caribou of Keewatin* Francis Harper presents an exhaustive study of the migratory patterns ecological significance and conservation challenges surrounding the Barren Ground Caribou herd in Canada's Keewatin region Harper's meticulous observations and detailed field notes reflect a blend of empirical research and lyrical prose revealing not only the nuances of caribou behavior but also

the cultural implications of their decline for Indigenous peoples. Situated within the broader context of early 20th century wildlife conservation, this work stands out as a pioneering effort in zoological literature bridging the gap between natural history and environmental stewardship. Harper, who spent years in the Canadian North, was profoundly influenced by the dynamics of the land and its inhabitants. His background in natural history and his commitment to preserving these ecosystems guided his research trajectory, making his insights not just scientifically relevant but also ethically charged. The convergence of his personal experiences, academic rigor, and advocacy for wildlife preservation shapes the narrative, compelling readers to consider the interconnectedness of species and their habitats. This seminal book is highly recommended for scholars, conservationists, and anyone fascinated by wildlife ecology. Harper's insights offer a foundational understanding of caribou populations that is as relevant today as it was during his fieldwork. Through an engaging intersection of narrative and data, the text serves as both a poignant reflection on loss and a clarion call for preservation efforts.

*Cold Comfort* Graham W. Rowley, 1996-06-11 Rowley documents an era of arctic exploration of which little has been written and which is fast passing from living memory. He captures the traditional way of life in the North before the dramatic changes of the last half century. A member of the last expedition in the Canadian North to depend on traditional techniques, Rowley recounts how they lived as the Inuit did and travelled by dogsled over unexplored land. He describes the isolation, the extraordinary vicissitudes of travel in a sometimes savage environment, and the generosity and kindness of the Inuit. Apart from completing the map of Baffin Island's coastline and finding new islands, Rowley excavated the first pure Dorset site near Igloolik, establishing the Dorset culture beyond doubt. The carvings and artifacts found there, illustrations of which are included in this book, remain among the best and most beautiful that have been recovered. Based on his own diary and the diaries of other members of the expedition, Rowley's captivating story presents the perceptions of a young man faced with a completely alien yet fascinating environment and culture. A true and often exciting tale of discovery, *Cold Comfort* will appeal to a wide audience as well as to those concerned with the Arctic in general. It is an invaluable source for those who specialize in the archaeology, anthropology, geography, and history of northern Canada.

**Report of the Fifth Thule Expedition, 1921-24** Thule Expedition, 5th, 1921-1924, 1929 **The Caribou Eskimos** Kaj Birket-Smith, William Ernest Calvert, 1929 **Report ...**, 1929 *Cold Comfort, Second Edition* Graham Rowley, 2007-10-10

In 1936, Graham Rowley went to the still unexplored west coast of Baffin Island as the archaeologist for a small British expedition, the last in the Canadian North that depended on traditional techniques. *Cold Comfort*, his acclaimed memoir of this period, captures the way of life in the North before World War II, including the experience of travelling by dogsled over unexplored land. This new edition includes the beginning of Rowley's planned sequel covering his post-war experiences in the Arctic. The additional three chapters describe Operation Musk Ox, the first military exercise to show that it was feasible to manoeuvre in the Arctic even in winter, and Rowley's work for the Canadian Defense Research Board. An afterword by Susan Rowley and John Bennett

expands on Rowley's ongoing involvement in the rapid change that took place from the Cold War to the establishment of Nunavut

**The Odonata of Canada and Alaska** Edmund M. Walker, 1958-01-01 Dr Walker makes a signal contribution in gathering together all available information on the dragonflies of Canada and Alaska. The order as a whole and the zygoptera are covered. The treatment is not confined to taxonomy and geographical distribution but includes data on habitats, seasons of adult life and brief notes on habits when these are available

**Arctic Migrants/Arctic Villagers** David Damas, 2002-10-30 Damas shows that while there were cases of government directed relocation to centres, centralization was largely voluntary as the Inuit accepted the advantages of village living. In examining archives, anthropological writings and the results of field research from an anthropological perspective, Damas provides fresh insights into the policies and developments that led to the centralization of Inuit settlement during the 1950s and 1960s

*Geography in World Society* Alfred H. Meyer, John H. Strietelmeier, 1963

Geography in World Society is designed as a textbook in introductory college geography with a spatial conceptual approach throughout. As here presented, geography is an areal interpretation and evaluation of earth realities comprehended in the various academic disciplines. In this context, the disciplinary interests and value of geography itself are centered upon areal association of the physical, biological, social, economic and political phenomena of this world rather than upon the phenomena per se. To this end, the selection and organization of material are designed to assess the regional role that natural and human resources play in the creation and solution of world problems. Since geography may be viewed as a land and resource policy creating subject process and planning as well as product and inventory are stressed. Accordingly, the basic questions to which this text addresses itself are: What is man in terms of ecosis, earth habitat relationship? What is his ethos, earth steward responsibility? How do the forms of human occupancy reveal areal human behavior? What is the nature of man's control over the nature conditioning environment? How does the analysis of global phenomena by the unitary geographic region method differ from that of the political nation state approach in the study of world affairs?
