Human Rights Tom Campbell, 1986-01-01 **Middle School Journal** ,1999 **The Shattering of the Self** Cynthia Marshall, 2003-05-22 In *The Shattering of the Self* Violence Subjectivity and Early Modern Texts Cynthia Marshall reconceptualizes the place and function of violence in Renaissance literature During the Renaissance an emerging concept of the autonomous self within art politics religion commerce and other areas existed in tandem with an established popular sense of the self as fluid unstable and volatile Marshall examines an early modern fascination with erotically charged violence to show how texts of various kinds allowed temporary release from an individualism that was constraining Scenes such as Gloucester s blinding and Cordelia s death in *King Lear* or the dismemberment and sexual violence depicted in *Titus*

Andronicus allowed audience members not only a release but a shattering as opposed to an affirmation of the self Marshall draws upon close readings of Shakespearean plays Petrarchan sonnets John Foxe's Acts and Monuments of the Christian Martyrs and John Ford's The Broken Heart to successfully address questions of subjectivity psychoanalytic theory and identity via a cultural response to art Timely in its offering of an account that is both historically and psychoanalytically informed The Shattering of the Self argues for a renewed attention to the place of fantasy in this literature and will be of interest to scholars working in Renaissance and early modern studies literary theory gender studies and film theory

Transforming Organizations Michael Anderson, Miranda Jefferson, 2018-11-29 In a world where current political climates and management cultures make risk aversion commonplace Transforming Organizations shows how all organizations including large and cumbersome institutions can transform to suit the needs of our rapidly evolving economic and social realities This book looks at how organizations and their leaders can adapt to an increasingly volatile and uncertain operating environment through the 4Cs Creativity Critical reflection Communication Collaboration Based on extensive research in the education organizational and business sectors Michael Anderson and Miranda Jefferson show how the 4Cs can be embedded embodied and enacted in many different types of organizations to make them more responsive to emerging challenges threats and opportunities Transforming Organizations highlights clear links between leading and learning because leadership is no longer if it ever was just a role for CEOs CFOs and senior managers For organizations to be flexible and agile in the 21st century all employees must have the opportunity to exercise leadership But this can only happen if deep learning is a standard feature of a leadership approach that actively and deliberately incorporates key 21st century skills the 4Cs themselves There is a substantial gap between companies knowing what they should do to be flexible creative and have clear channels of communication and how to make that a reality Transforming Organizations provides the evidence and inspiration necessary for doing business differently Written for those who have become disillusioned or frustrated with business practices that cannot meet the fast moving demands of the 21st century the book provides strategies and approaches developed from the authors work in real organizations in order to implement change and see organizations transform for the better
