Geomorphology and Natural Hazards Timothy R. Davies, Oliver Korup, John J. Clague, 2021-03-30 Natural disasters are occasional intense events that disturb Earth's surface but their impact can be felt long after Hazard events such as earthquakes volcanos drought and storms can trigger a catastrophic reshaping of the landscape through the erosion transport and deposition of different kinds of materials Geomorphology and Natural Hazards Understanding Landscape Change for Disaster Mitigation is a graduate level textbook that explores the natural hazards resulting from landscape change and shows how an Earth science perspective can inform hazard mitigation and disaster impact reduction Volume highlights include Definitions of hazards risks and disasters Impact of different natural hazards on Earth surface processes Geomorphologic insights for hazard

assessment and risk mitigation Models for predicting natural hazards How human activities have altered natural hazards Complementarity of geomorphology and engineering to manage threats **Stewart Macaulay: Selected Works** David Campbell, 2020-10-30 This book represents a unique resource about Stewart Macaulay one of the common law world's leading scholars of the law of contract and of the law in action approach to the study of law Since 1959 he has published over 50 articles in leading journals a number of working papers with colleagues at the University of Wisconsin Law School a pathbreaking casebook for the teaching of the law of contract and with other colleagues equally pathbreaking collections of materials for the teaching of the law in action or law in context approach to the study of law In this work Macaulay has established himself as one of the postwar world's leading scholars of the law of contract and of the sociology of law His work is an absolute reference point in both disciplines and it has attracted great attention elsewhere most notably in economic sociology where his concept of non contractual economic relationships is regarded as an important theoretical innovation Macaulay's work has become an object of commentary in its own right and the proposed book is intended to assist further such commentary by making hitherto difficult to obtain works readily accessible Most of Macaulay's work is now when the leading journals are generally available in electronic form readily accessible to students and researchers in universities There are however a number of interesting and in most cases important works published in less accessible journals or works which were not published in an electronic form which are difficult to obtain This book will make them readily available and in so doing will make it possible in future for scholars to have Macaulay's complete oeuvre readily to hand Although Macaulay's work has provoked very considerable discussion there previously have been no overall accounts of that work as opposed to critical engagements with aspects of it In this book two additional essays by leading commentators give accounts of Macaulay's work and provide an introduction to exegesis of and general evaluation of Macaulay's work as a whole which is not to be found in the existing literature **Urban Planning, Management and Governance in Emerging Economies**

Jan Fransen, Meine P. van Dijk, Jurian Edelenbos, 2021-06-25 Exploring how urban professionals plan manage and govern cities in emerging economies this insightful book studies the actions and instruments they employ It highlights how the paradigms of interventions and approaches to urban management are shifting indicating that urban governance is becoming increasingly important in dealing with wicked issues like climate change and social and economic inequalities in cities
