Exploiting Africa Donovan Chau,2014-04-15 Exploiting Africa examines China s role in Algeria Ghana and Tanzania from the 1950s to the 1970s The Chinese arrived in Africa with little fanfare yet they achieved an active presence that was more pragmatic than revolutionary Though often couched in ideological rhetoric Chinese goals in Africa were those of an aspiring world power China skillfully used its limited diplomatic intelligence and economic means to shape events and to exploit its relationships to gain lasting influence on the continent It is crucial to understand the nature and character of China s historical actions in Africa in order to properly grasp the nation s current and future policies Rather than merely looking forward one must look backward to comprehend the true nature of China in Africa **The Viking Art of War** Paddy Griffith,1995 They were still more successful when they attacked rich undefended monasteries or established new colonies in such places as Iceland or Greenland although in the latter country they would eventually be driven off by Eskimo counter attacks *Citizenship Education Series* Michigan State University.
