**The Salt Cellars** Spurgeon, Charles H., 2015-08-11 The salt of proverbs is of great service if discreetly used in sermons and addresses and I have hope that these SALT CELLARS of mine may be resorted to by teachers and speakers and that they may find them helpful There are many proverb books but none exactly like these I have not followed any one of the other collections although of necessity the most of the quaint sayings are the same as will be found in them Some of my sentences are quite new and more are put into a fresh form The careful omission of all that are questionable as to purity has been my aim but should any one of them unknown to me have another meaning than I have seen in it I cannot help it and must trust the reader to accept the best and purest sense which it bears for that is what it meant to me It is a pity that the sale of a proverb should ever be unsavory but beyond doubt in several of the best collections there are very questionable ones which ought to be forgotten It is better to select than indiscriminately to collect An old saying which is not clean ought not to be preserved because of its age but it should for that reason be the more readily dropped since it must have done harm enough already and the sooner the old rottenness is buried the better My homely notes are made up as a rule of other proverbial expressions They are intended to give hints as to how the proverbs may be used by those who are willing to flavor their speech with them I may not in every case have hit upon the first meaning of the maxims possibly in some instances the sense which I have put upon them may not be the general one but the meanings given are such as they may bear without a twist and such as commended themselves to me for general usefulness The antiquary has not been the guide in this case but the moralist and the Christian From what sources I have gleaned these proverbs it is impossible for me to tell They have been jotted down as they were met with Having become common property it is not easy to find out their original proprietors If I knew where I found a pithy sentence I would acknowledge the source most freely but the gleanings of years in innumerable fields cannot now be traced to this literary estate or to that In the mass I confess that almost everything in these books is borrowed from cyclopedia s of proverbs garlands almanacs books newspapers magazines from anywhere and everywhere A few proverbs I may myself have made though even this is difficult but from the necessity of the case sentences which have become proverbs are things to be

**Contemporary Issues in Corporate Social Responsibility** Duygu Turker,Huriye Toker,Ceren Altuntas,2013-12-18 As a result of the industrialization urbanization and population increase during the last two centuries the global landscape has been irreversibly damaged These anthropological pressures have create endless problems on the global level and individuals and organizations are beginning to realize their own ever increasing responsibility to consider the welfare and interests of all stakeholders as a whole Although the improvements in the legal framework at the national and international level can be viewed as an important step to protect society and the natural environment a legal course provides a reactive mode of control rather than a proactive approach Considering its proactive approach and voluntarily basis the concept of social responsibility can provide a significant tool of generating a sustainable future During such a paradigm shift Contemporary Issues in Corporate Social Responsibility presents the significant roles that universities must embrace in order to take charge of the future In parallel to those movements many institutions include a course on social responsibility yet the studies on the education of social responsibility in the literature show that there is no commonly accepted teaching methods and guiding curriculum of CSR This book was designed based on the outcomes of an Erasmus Intensive Project IP which was organized in Yasar University during June 2012 with the contribution of 9 European universities Based on the interactive feedback of participants during the project this book sheds light on the ongoing discussion of corporate social responsibility from a European perspective
