papers in this book have in common is the concern for the revitalization of Nigerian education in the digital age through ICT and other modern methods of making education functional and effective in the new modernity. While some of the chapters deal with conceptual issues, others consider the various role of education in this digital age and how Nigeria can be relevant. Most of the chapters present well researched detailed and informative papers on how to reposition Nigerian education in the digital age. Specifically the role of education in bringing Nigerias new world about are discussed in simple language and then taken up in different forms all through the book. Since Nigeria has to act fast and decisively to be on the same development and education wavelength as the other members of todays global family serious actions are being suggested in this book. Revitalizing Nigerian Education in Digital Age simply means taking the above desiderata seriously. Nigeria has a daunting task here in view of the heavy education burden. This is the message that this book puts across. From Bogotá to Beijing David Jacoby, 2018-09-15. In two interwoven trips around the globe one in 2010 and another in 2030 this book discovers Bogot Cartagena Detroit New York Abuja Cairo Dammam Abu Dhabi Marseille Hanover Ho Chi Minh City Kuala Lumpur Shenzhen Beijing and other cities along the way. The people and experiences along the way tell a fascinating unique and insightful story. The 2010 trip at the height of globalization takes place against a backdrop of frenzied global development. As he travels the author observes the pronounced social and environmental footprint of the societies he visits the industries that support them and the people he meets. The 2030 trip which follows a similar flight path occurs in a new world. On this trip the author discovers how governments businesses and consumers are aligned around renewable energy environmental and aesthetic balance and respect for self others and the planet. A retrospective written in 2050 explains how a different way of thinking about growth and measuring progress enabled the shift to occur. It explains how the world passed a tipping point and became both prosperous and sustainable. This book is charming and fun while laying out a vision for a new era beyond globalization as we know it. Its inspirational message about the importance of respecting the planet and our global neighbors while fulfilling our appetite for growth and wealth will endure. **The Routledge Handbook of Tourism Geographies** Julie Wilson, Dieter K.
