SPIN ,1986-04 From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today s most innovative sounds Whether covering what s new or what s next SPIN is your monthly VIP pass to all that rocks *From Incarceration to Repatriation* Susan C. I. Grunewald,2024-07-15 From Incarceration to Repatriation explores the lives and memories of the nearly 1 5 million German POWs who were held by the Soviet Union during and after World War II and released in phases through 1956 seven years longer than the prisoners of any other Allied nation Susan C I Grunewald argues that Soviet leadership deliberately kept able bodied German POWs to supplement their labor force after the end of the war The Soviet Union lost 27 million citizens and a quarter of its physical assets during the war motivating Soviet leadership to harness the labor of German POWs for as long as possible Engaging with recently declassified documents in former Soviet archives archival material from multiple German governments as well as innovative use of digital

humanities methods and geographic information system GIS mapping Grunewald demonstrates that Soviet authorities detained German POWs primarily for economic rather than punitive reasons In fact the GIS mapping of the historical materials makes it clear that most of the four thousand POW camps across the USSR were strategically located near industrial infrastructure and natural resource sites that were critical to postwar economic reconstruction From Incarceration to Repatriation is the first book to draw together the distinct fields of Soviet and German history to provide a more nuanced and comprehensive understanding of German POW captivity in the USSR during and after World War II Attending to the ways that the memory of German POWs remains in circulation in both the former Soviet Union and Germany Grunewald tracks the political repercussions of war commemoration Economic Data: Equal Employment Opportunity Program United States. Are the Lips a Grave? Lynne Huffer, 2013-10-15 Lynne Huffer's ambitious inquiry redresses the rift between feminist and queer theory traversing the space of a new post moral sexual ethics that includes pleasure desire connection and betrayal She begins by balancing queer theorists politics of sexual freedoms with a moralizing feminist politics that views sexuality as harm Drawing on the best insights from both traditions she builds an ethics centered on eros following Michel Foucault's ethics as a practice of freedom and Luce Irigaray's lyrical articulation of an ethics of sexual difference Through this theoretical lens Huffer examines everyday experiences of ethical connection and failure connected to sex including queer sexual practices sodomy laws interracial love pornography and work life balance Her approach complicates sexual identities while challenging the epistemological foundations of subjectivity She rethinks ethics beyond good and evil without underestimating as some queer theorists have done the persistence of what Foucault calls the catastrophe of morality Elaborating a thinking feeling ethics of the other Huffer encourages contemporary intellectuals to reshape sexual morality from within defining an ethical space that is both poetically suggestive and politically relevant both conceptually daring and grounded in common sexual experience

The Lives in Objects Jessica Yirush Stern,2016-12-22 In *The Lives in Objects* Jessica Yirush Stern presents a thoroughly researched and engaging study of the deerskin trade in the colonial Southeast equally attentive to British American and Southeastern Indian cultures of production distribution and consumption Stern upends the long standing assertion that Native Americans were solely gift givers and the British were modern commercial capitalists This traditional interpretation casts Native Americans as victims drawn into and made dependent on a transatlantic marketplace Stern complicates that picture by showing how both the Southeastern Indian and British American actors mixed gift giving and commodity exchange in the deerskin trade such that Southeastern Indians retained much greater agency as producers and consumers than the standard narrative allows By tracking the debates about Indian trade regulation Stern also reveals that the British were often not willing to embrace modern free market values While she sheds new light on broader issues in native and colonial history Stern also demonstrates that concepts of labor commerce and material culture were inextricably intertwined to present a fresh perspective on trade in the colonial Southeast

The Light Of Allah In The Heavens and The Earth Sayyid Rami Al Rifai,2016-03-31

Everything is created from something even our thoughts and all things in the world are created from subatomic particles this is the universe Allah says in the Quran the universe is light upon light 24 35 meaning from our perspective light within light or in scientific terms particles within particles even our consciousness is made of subatomic particles The large electromagnetic field light our body creates is the inward light the prophet saws spoke of in the famous prayer of light at a deeper level than this humans have another light in their heart the prophet saws called the light of the believers uns which is the light of their tawheed belief this is the most inward light electromagnetic field of the human being and it resides in the heart when Allah wants to show someone something He enlightens that light so they can see by the light He gives them exactly as our eyes need light to see the world this light guides our consciousness The Book explains what the unseen world is what the light of Allah is mentioned in the verse of light 24 35 and how man through his physiology is connected to the subatomic world and from it his spiritual side is created The verse of light explains how the Atom comes into existence in the

verse Allah explains how He guides man through the subatomic Universe using all the particles forces and fields around us this is because physiologically it is through the subatomic universe that our heart sees and senses and this is the Ghayb unseen Allah often mentions in the Quran Allah in the Quran mentions multiple scientific themes one after the other to draw the bigger picture of life The Hidden meanings in the Quran relate to the scientific themes He is mentioning in each verse and how those topics then relate to each other to create a larger picture The book goes through these themes to show the deeper side of Allah s words In time We shall make them fully understand Our messages 41 53 The universe Allah spoke about in the Quran is the same universe science is discovering today no one knows it better than Him hence He is the one who can make the promise 41 53 to show it to mankind but only those with understanding of science can see the picture of the universe from the sum of it s parts And we strike these similitudes for the people but no one understands them except those who know 29 42 Allah is He Who is the only God the knower of the Unseen and the Observed 59 22 it should not be a surprise that what was termed the Unseen Ghayb in the old world is the subatomic world all those extremely small particles that exist in space So when Allah makes a promise in the Quran that In time We shall make them fully understand Our messages through what they perceive in the utmost horizons of the universe and within themselves their own bodies so that it will become clear unto them that this revelation is indeed the truth Qur an 41 53 it means just that in this promise Allah establishes a relationship between the Laws of the Universe and the matter man is created from eventually it would be possible for man to understand everything about the Universe by understanding the Atoms He is created from and we are now living at the end of time when Allah said He would unravel the mysteries of the Universe for us The prophet saws who was given the understanding of every verse having been shown them earlier and we are discovering them now Table Of Contents 1 How The Human Body Learns and The Downward Spiral Of Western Medicine Over The Past 100 Years 2 Human Physiology and It s Relationship To Baraka 3 What Is the Unseen World and Where Is It Explaining The Technical Terminology Of The Scholars 4 The Universe and Man In The Quran 5 How Is Allah The Light Of The Heavens and The Earth 6 The Depth Of The Heart Is The Depth Of The Subatomic Universe and It Ends With The Arsh Of Allah 7 Related Material
