## **End Of The Line 1st Edition:**

**Undertones of War** Edmund Blunden, 2015 Edmund Blunden 1896 1974 was one of the youngest of the war poets enlisting straight from school to find himself in some of the Western Front's most notorious hot spots His prose memoir written in a rich allusive vein full of anecdote and human interest is unique for its quiet authority and for the potency of its dream like narrative Once we accept the archaic conventions and catch the tone which can be by turns horrifying or hilarious *Undertones of War* gradually reveals itself as a masterpiece It is clear why it has remained in print since it first appeared in 1928 This new edition not only offers the original unrevised version of the prose narrative written at white heat when Blunden was teaching in Japan and had no access to his notes but provides a great deal of supplementary material never before gathered together Blunden's Preliminary expresses the lifelong compulsion he felt to go over the ground again and for half a century he prepared new prefaces added annotations All those prefaces and a wide selection of his commentaries are included here marginalia from friends first editions remarks in letters extracts from later essays and a substantial part of his war diary John Greening has provided a scholarly introduction discussing the bibliographical and historical background and brings his poet's eye to a much expanded and more representative selection of Blunden's war poetry For the first time we can see the poet Blunden as the major figure he was Blunden had always hoped for a properly illustrated edition of the work and kept a folder full of possible pictures The editor with the Blunden family's help has selected some of the best of them to include in this new edition Jacket **Higher surveying. 1st ed. 1st thousand** Charles Blaney Breed, George Leonard Hosmer, 1908

discriminate between levels of authority in variant readings produced along the chain of copying For texts of all periods and particularly for more modern authors there may also be multiple authorial versions These are of particular importance for genetic criticism as they offer a window on the author's thinking through the developing work The different contexts in which multiple versions may occur different languages different genres different cultures ranging in this collection from ancient Greek texts to novels by Cervantes and Austen dramatic texts from Portugal and Germany poetry from The Netherlands and Lithuania scientific texts from the 19th century provide further layers of complexity The histories of countries are reflected in the histories of editing In Europe this can be seen particularly in the great period of nation building of the 19th century Essays in this volume survey editorial activity in The Netherlands Belgium and Germany in the nineteenth century concluding that nation building and scholarly editing are twinned As a nation searches for its own identity textual scholarship is pressed into service to find and edit the texts on which to establish that identity The two strands of this volume multiple versions of texts editions and national histories testify to the centrality of textual editing to many fields of research There is material here for literary scholars historians and for readers interested in texts from Ancient Greece to modernist classics
