

The background of the book cover is a painting. It depicts a red apple hanging from a dark, leafy branch. The apple is positioned in the center of the frame. Above the apple, a long, thin, golden arrow points horizontally across the sky. The sky is a deep blue with some lighter, wispy clouds. In the upper right corner, a small, pale yellow crescent moon is visible. The overall style is that of a classical painting.

**A Meditation on Going Home** Delbert L. Wiens, 2024-10-31 Delbert Wiens was born during the depression to an ethnic German speaking Mennonite family As an adult he became the righteous older sibling who wanted oddly to identify with his elders Returning home to Corn Oklahoma with a severe case of culture shock after living in Vietnam he wrote New Wineskins for Old Wine to tell Mennonites they were succumbing to evangelical forms of modernism Unfortunately the relentlessness of his analysis convinced many that he had a dangerous mind This book tells the story of his recovery of the wisdom of his elders In response Wiens develops metaphors like concrete and abstract to clarify how civilizations evolve He centers his attempt to tell stories that like biblical narratives and parables evoke traditional attitudes and lifestyles Phrases like mutual aid and ethnic cliches like Gottesfurcht honoring God and Gelassenheit letting go and letting God are used to describe their qualities and virtues The final chapters use a more abstract style to trace some of the positive and negative consequences of progress This book circles around its center chapters 4-9 that describes the faithfulness and character of his elders May these meditations better evoke the desire to imitate them

**Meaning, and Argument in Eric Weil's Logic of Philosophy** Sequoya Yiaueki, 2023-04-12 This volume investigates Eric Weil's innovative conceptualization of the place of violence in the philosophical tradition with a focus on violence's relationship to language and to discourse. Weil presents violence as the central philosophical problem. According to this reading, the western philosophical tradition commonly conceptualizes violence as an expression of error or as a consequence of the weakness of will. However, by doing so, it misses something essential about the role that violence plays in our conceptual development as well as the place violence holds in our discursive practices. The author draws comparisons between Weil's work and that of Robert Brandom. Brandom's inferentialism creates a sophisticated program at the junction of pragmatics and semantics, philosophy of language, logic, and philosophy of mind. The monograph builds on these insights in order to show how an inferentialist reading of Eric Weil is fruitful for both Weilian studies and for inferentialism. This volume will notably be of interest to scholars in philosophy, argumentation theory, and communication studies. **The Spectator**
