**The Complete Guide to Endurance Riding and Competition** Donna Snyder-Smith, 2008-05-05 First Star to the Right and Straight on Till Morning At the 90 mile vet check she sat in the middle of the road crying claiming extreme illness and trying to avoid her nightmarish fears her horse would die of founder or colic or anything The last ten miles of trail stretched forever in her mind black like licorice taffy After a large measure of TLC from her patient and understanding crew she and the gelding were out of the check and on the trail again The entire universe shrank to center on the pair in the moonlight Time stopped and the world faded into nothingness They were running in a small ever changing pocket of existence the rhythm of his hooves the heartbeat of that universe Ribbons and trail appeared before them and lost substance as they moved past For the rider clinging to the saddle there was no thought no pain no emotion only the instinctive drive to chase past each ribbon as it appeared Suddenly her horse jumped sideways eyes and ears frozen forward Awakened from her trance she oriented herself on his suspected woods troll a familiar embankment that meant they were a half mile from home Easing him past the scary object she sent the gelding on clinging to his neck As his soft lope swept them across the finish line she wanted to laugh out loud or cry but was unable to summon the strength for either A few small tears trickled down her cheek the only sign of the enormous pride she felt inside Becky Huffman Endurance rider wife mother of two and student of author Donna Snyder Smith The Howell Equestrian Library *Endurance 101* Aarene Storms, 2012-12-05 The first book about endurance riding written specifically for those beginning in the sport this guide covers selection of horse and tack training and conditioning and takes you through a complete ride day including post ride day There are plentiful anecdotes and a lively pace along with over 100 images **Endurance and Competitive Trail Riding** Wentworth Jordan Tellington, Linda Tellington-Jones, 1979 Provides advice on various aspects of trail riding with information on selecting and caring for a horse equipment health problems and injuries and descriptions of several specific rides **Endurance Horse Riding** Karen D. Introduction I love horses and riding I always have since my first memories And I still feel reborn each time I get on a horse And I love the wilderness And yes I love going fast So it was with great joy when I discovered many years ago that Endurance riding combined these favorite things of mine I don t in fact like getting up early in the morning But on ride morning I am OK with it The experience of seeing the new day s sun rising over a new vista is something I cherish Did you know that all the horses whinny at first light They also whinny just as the sun goes down too Learning this while camped out with my horse was worth it all Long distance trail riding has always been my favorite thing Doing it with a large group of people brought it all together for me Endurance riding can be fun fast and competitive But when I get on a horse in the early morning hours to head off on a days endurance ride I know I ve done all this work for something so much more intriguing to me and much less tangible Something difficult to pin down But a story can say so much And the stories that follow I hope to convey the depth of my experiences Wilderness endurance riding really has been a journey to the heart To my own heart to a much deeper understanding myself And into the heart of my horse developing a deeper relationship with my horses I never thought possible And into the heart of an unknown wilderness which I hope to capture in story and pictures I ve taken on the trail I mean lets face it ride camp is usually in the middle of nowhere Then from there we head out even further Often times we are riding in pristine areas of wilderness sometimes where no human has even stepped in perhaps a hundred years The outback of Nevada in mountains called the Dogs Skins with the snow blowing horizontal over my horse s ears Or in the Sierra Nevada Mountains of California in a desolate place on the river called Murderer s Bar Not many people go there Who would want to I mean there s really nothing there But to ride a horse through traveling through country on trails that were established by Indians pioneers and outlaws now that gives me goose bumps And horses can often

travel country and terrain humans find too difficult or just too plain remote to go Twenty five miles out in the high desert from no where turning between two black rock mountains heading deeper into nowhere and my horse decides to turn left not right where the ribbons are when he knows for sure that is the way home will remain forever memories for you These stories are of my adventures on endurance rides I don t want to talk about statistics or gear or the human politics too much I want to take you on a journey to the heart the heart of a rider and heart of a horse into the heart of new territory on the AERC
