Understanding Žižek, Understanding Modernism Jeffrey R. Di Leo, Zahi Zalloua, 2022-11-03 Slavoj Žižek is one of today's leading theorists whose polemical works span topics from German idealism to Lacanian psychoanalysis from Shakespeare to Beckett and from Hitchcock to Lynch Critical through and through of both post

modern ideological complacencies e.g. the death of the subject and the return to ethics and pre-modern ones e.g. the re-enchantment of the world. The embrace of postcritique i.e. doubles down on the virtues of the modern on what it means to be modern and to ask modern questions about the subject, nature and political economy in the age of the Anthropocene. This volume takes up the challenges laid out by i.e. s. iconoclastic thinking and its reverberations in an array of fields: philosophy, psychoanalysis, political theory, literary studies and film studies among others. i.e. s. multi-disciplinary appeal attests to the provocation if not scandal of his politically incorrect thought. Understanding i.e. Understanding Modernism makes the force and inventiveness of i.e. s. writings accessible to a wide range of students and scholars invested in the open question of modernism and its legacies.

Hate and Reconciliation Guido Cuyvers, 2022-11-29 Every day the media confront us with the many forms and excesses of hatred: cyber hatred, hate speech, bullying, hate groups, religiously inspired violence against dissidents and genocides. Hatred is human and current. It is an intrinsic part of what can happen between people. Personal experiences can lead people to hate someone. In society and even on a global level, hatred is again and again the motor of misunderstanding and often also of violence between people. Sometimes hate smoulders almost unconsciously; at other times, he is furious and serves as a flag for serious violence. Hatred has many faces and seems omnipresent; that much is clear. The term Erida complex, after the Greek goddess of hate, symbolizes the common and deeply rooted nature of hatred. Hatred is mighty as a destructive force. He knows how to motivate individuals and large groups of people to bring out the worst in themselves. He turns life among people into a desert. However, he cannot compete with Irene, the goddess and the symbol of peace. After all, he is unable to correct what went wrong. Nor is it a ground for building a peaceful society. At the same time, hatred is impotent against the positive freedom of people to transcend the negative. Those who are open to this will see many connecting and therefore Irenian initiatives. Hatred does not and should not have the last word. Opposite the well of Erida is the Irenese, the way to peace. After examining the nature of hate, this book focuses a wide-angle lens on its many faces in individuals and groups as well as peoples. Facing the negativity of hatred, this book presents constructive approaches to fostering relationships between people and peace.

The Dynamics of Right-Wing Extremism within German Society Oliver Decker, Johannes Kiess, Elmar Brähler, 2022-03-21 The Dynamics of Right Wing Extremism within German Society explores the prevalence of right-wing extremist attitudes in Germany. The book provides a thorough psychosocial and sociological theory of general authoritarian dynamics to explain broader societal attitudes, particularly focusing on right-wing extremism. It provides a uniquely long-term perspective on the different dimensions of right-wing extremism: the affinity for dictatorial forms of government, chauvinist attitudes, the trivialisation or justification of National Socialism, anti-Semitism, xenophobia and social Darwinism. The first chapter delineates the theoretical framework of authoritarian dynamics, while subsequent chapters provide an in-depth analysis of empirical findings and distinguish authoritarian and democratic typologies. The authors focus on recognition of authoritarian statehood and anti-Semitism, the relationship between religion
