Enforcement Of Judgments In Europe:

Enforcement of Judgments in Europe Wendy A. Kennett,2000 The idea of a European Judicial Area has gathered force since the negotiation of the Amsterdam Treaty amending the TEU and conferring competence on the European Community in relation to measures of judicial cooperation One of the areas targeted for rapid attention is improvement in the recognition and enforcement of civil judgments in Europe with plans for the mutual recognition of judgments

EU Principles on Jurisdiction and Recognition

and Enforcement of Judgments in Civil and Commercial Matters Jannet A. Pontier,Edwige Burg,2004 For international

lawyers the European rules on jurisdiction and recognition and enforcement of judgments in civil and commercial matters are of great practical importance Since March 2002 these rules have been laid down in an EU Regulation 44/2001 which essentially replaced the 1968 Brussels Convention The preliminary considerations to the Regulation imply that the decisions in which the Court of Justice of the EC has interpreted the Brussels Convention remain relevant for the interpretation of the Regulation Hence in order to have a thorough understanding of the Regulation an in depth knowledge of the EC Court's case law regarding the Brussels Convention is imperative The present study is based on an analysis of more than one hundred decisions that the Court has delivered under the Brussels Convention It appears that the significance of the Court's case law lies not only in the final outcome of these decisions but also in the principles that the Court consistently refers to in arriving at its decisions The authors piece together the system of principles that has become apparent in the Court's reasoning An understanding of this system not only sheds light on how and why the Court has reached its past decisions but it also enables lawyers to understand the confines within which the Court's argumentation is likely to take place in future cases under the Regulation A publication which focuses on the principles used by the Court to justify its decisions in this particular area of law has been lacking This book aims to fill that gap Its value extends beyond the academic realm and into the field of legal practice

Free Movement of Civil Judgments in the European Union and the Right to a Fair Trial

Monique Hazelhorst,2017-02-27 This book examines the attainment of complete free movement of civil judgments across EU member states from the perspective of its conformity with the fundamental right to a fair trial In the integrated legal order of the European Union it is essential that litigants can rely on a judgment no matter where in the EU it was delivered Effective mechanisms for cross border recognition and the enforcement of judgments provide both debtors and creditors with the security that their rights including their right to a fair trial will be protected In recent years the attainment of complete free movement of civil judgments through simplification or abolition of these mechanisms has become a priority for the European legislator The text uniquely combines a thorough discussion of EU legislation with an in depth and critical examination of its interplay with fundamental rights It contains an overview and comparison of both ECtHR and CJEU case law on the right to a fair trial and provides a great number of specific recommendations for current and future legislation With its critical

discussion of EU Regulations from both a practical and a theoretical standpoint this book is particularly relevant to legislators and policymakers working in this field Because of the extensive overview of the functioning of the EU's mechanisms and of relevant case law it provides the book is also highly relevant to academics and practitioners Monique Hazelhorst is Judicial Assistant at the Supreme Court of the Netherlands She studied Law and Legal Research at Utrecht University and holds a Ph D in Law from the Erasmus School of Law at Erasmus University Rotterdam *EU Principles on Jurisdiction and Recognition and Enforcement of Judgments in Civil and Commercial Matters* Jannet A. Pontier, Edwige Burg, 2004-08-12 The present book offers the reader insight into how the Court of Justice of the European Communities justifies its interpretations of the European legal rules on international jurisdiction and the recognition and enforcement of judgments in civil and commercial matters Our examination of the more than one hundred decisions which the Court has delivered under the 1968 Brussels Convention shows that the Court uses the principles which in its opinion underlie the explicit rules as reasons to justify its decisions These principles are described in the book and it is shown how they relate to each other The system of principles that has been identified in this study forms an important part of the Brussels Convention's legacy for the new Regulation No 44 2001 which replaced the Convention on March 1 2002 It constitutes a catalogue of arguments that will be employed by the Court to justify its interpretation of the provisions of the new regulation As such this book will be of great value to practitioners in international law as well as to academics and students alike Jannet A. Anselmo Reyes, 2019-09-19 This collection offers a study of the regimes for the recognition and enforcement of foreign commercial judgments in 15 Asian jurisdictions mainland China Hong Kong Taiwan Japan Korea Malaysia Singapore Thailand Vietnam Cambodia Myanmar the Philippines Indonesia Sri Lanka and India For practising lawyers the book is intended as a practical guide to current law and procedures for enforcing judgments in the selected jurisdictions However it does not stop at describing current law and practice Of interest to academics and students it also analyses the common principles of the enforcement regimes across the jurisdictions and identifies what should be regarded as the norm for enforcement in Asian countries for the purpose of attracting foreign direct investment and catalysing rapid economic development In light of the common principles identified the book explores how laws in Asia may generally be improved to enable judgments to be more readily enforced while ensuring that legitimate concerns over indirect jurisdiction due process and domestic public policy are respected and addressed With this in mind the book discusses the potential impact that the adoption of the 2005 Hague Convention on Choice of Court Agreements might have on Asian jurisdictions it also considers the potential impact of the

convention for the enforcement of judgments in civil and commercial matters presently being drafted by the Hague Conference on Private International Law This timely book argues that it is imperative to adopt a uniform system for the recognition and enforcement of judgments throughout Asia if there is to be traction for the enhanced cross border commerce that is expected to result from endeavours such as the ASEAN Economic Community AEC the Belt and Road Initiative BRI CPTPP also known as TPP 11 and RCEP Diversity of Enforcement Titles in the EU Vesna Rijavec, Wendy Kennett, Tomaž Keresteš, Tjaša Ivanc, 2023-12-30 This book examines the diversity of enforcement titles in cross border debt collection focusing on the types structure contents and effects of enforcement titles It offers a comprehensive overview of judgments court settlements and authentic instruments from a variety of EU Member States It primarily employs the comparative legal method to draw conclusions on commonalities and differences as well as prospects for future approximation of laws The premise of the research is rooted in the finding that national authorities of EU Member States continue to treat enforcement titles from other Member States with reservations and mistrust despite being committed to the principle of mutual trust The book identifies the issues of mistrust stemming from the diversity of enforcement titles The research is based on a rich database of national reports compiled during the course of several large scale EU Justice Projects Divided into five parts the book offers first some general considerations and presents attempts at a systemisation of enforcement titles The following parts are then devoted to more specialised approaches toward the different types of enforcement titles However the connecting line between all parts of the book are the considerations of cross border enforcement in the EU and in a limited manner with third States Herein research also addresses critical factors regarding the free movement of judgments in the EU including those of lis pendens and related actions This book provides a valuable contribution to the Theory of European Civil Procedure Since it is based on a comparative approach and employs both empirical and doctrinal viewpoints it should also greatly benefit practitioners involved in cross border dispute resolution Overall the findings should be of interest to a broad audience including policymakers judges practitioners and scholars **Cross-border Enforcement of Debts in the European Union, Default Judgments, Summary Judgments and Orders for Payment** Carla Crifò, 2009-01-01 Jacket

EU Principles on Jurisdiction and Recognition and Enforcement of Judgments in Civil and Commercial Matters Jannet A. Pontier, Edwige Burg, 2011-01-18 The present book offers the reader insight into how the Court of Justice of the European Communities justifies its interpretations of the European legal rules on international jurisdiction and the recognition and enforcement of judgments in civil and commercial matters Our examination of the more than one hundred decisions which the Court has delivered under the 1968 Brussels Convention shows that the Court uses the principles which in its opinion underlie the explicit rules as reasons to justify its decisions These principles are described in the book and it is shown how they relate to each other The system of principles that has been identified in this study forms an important part of the Brussels Convention's legacy for the new Regulation No 44 2001 which replaced the Convention on March 1 2002 It

constitutes a catalogue of arguments that will be employed by the Court to justify its interpretation of the provisions of the new regulation As such this book will be of great value to practitioners in international law as well as to academics and students alike Jannet A Pontier Ph D Edwige Burg Ph D Professor of Law Lecturer and researcher Department of Private International Law Department of Private International Law Senior Research Associate at the Research Associate at the Amsterdam Institute for Private Law Amsterdam Institute for Private Law University of Amsterdam University of Amsterdam Amsterdam The Netherlands January 2004 VII TABLE OF CONTENTS [The Implementation and Enforcement of European Union Law in Small Member States](#) Ivan Sammut,Jelena Agranovska,2021-03-11 The objective of this book is to examine how the legal order of Malta the EU's smallest Member State manages to cope with the obligations of the EU's *acquis communautaire* As far as the legal obligations are concerned size does not matter Smaller Member States have the same obligations as the largest yet they have to meet these same obligations with very fewer resources This book examines how the Maltese legal system manages to fulfil its obligations both in terms of the supremacy of EU law as well as how the substantive EU law is transposed and implemented It also explores how Maltese courts look at EU law and how they manage or not manage to enforce it within the context of national law It can serve as a model to demonstrate how EU law is being implemented in the smallest Member State and can serve as a basis to study the effectiveness of EU law into the domestic law of its Member States in general

Human Rights in the Council of Europe and the European Union Steven Greer,Janneke Gerards,Rose Slowe,2018-03-29 Confusion about the differences between the Council of Europe the parent body of the European Court of Human Rights and the European Union is commonplace amongst the general public It even affects some lawyers jurists social scientists and students This book will enable the reader to distinguish clearly between those human rights norms which originate in the Council of Europe and those which derive from the EU vital for anyone interested in human rights in Europe and in the UK as it prepares to leave the EU The main achievements of relevant institutions include securing minimum standards across the continent as they deal with increasing expansion complexity multidimensionality and interpenetration of their human rights activities The authors also identify the central challenges particularly for the UK in the post Brexit era where the components of each system need to be carefully distinguished and disentangled

Secondly it analyses how enforcement operates in particular areas including non discrimination health and safety information and consultation rights and the rights of migrating workers Thirdly it critically assesses the role of specific actors in particular collective actors like trade unions as well as whistle blowers and the European Labour Authority and settings public procurement economic and monetary policy regulated by EU law Drawing on the insights produced by these analyses the book concludes by proposing a comprehensive Draft for a Model Directive on Effective Enforcement of EU Labour Law as an inspiration for policy development and scholarly debate in this area
