Finnish Architecture Now Keiko Yoshizaki, 1983      *Finnish Architecture Now*, 1972      **Finland** Roger Connah, 2006-03-15 Buildings speak volumes not just about their occupants or owners but about the countries in which they exist From colonnades to paving stones the architecture of any building does more than simply date the structure it celebrates the spirit of a people and a nation Roger Connah's latest book Finland explores the culture and democratic spirit of a country whose buildings carry the indelible markings of Finland's political and physical climate Nearly all of the country's buildings were constructed after 1917 when Finland gained its independence from Russia The resulting architecture often springing from hugely popular public competitions is emphatically democratic in structure and usage Finland's extreme northern latitudes for their part have given rise to buildings with an acute sensitivity to the physical environment and to the delicate interplay of light and shadow From museums to schools to subsidized housing developments Connah's Finland is an important survey of the country's architecture Fully illustrated and with detailed examinations of many of the Finnish master architects including Alvar Aalto it is also a valuable contribution to the studies of modern architecture and Nordic history

*Finnish Architecture Now* Richard Wagner, 1983-05-01      **Finland**, 1927      *Alvar Aalto in the Finnish Context* Aino Niskanen, Juhani Pallasmaa, Gareth Griffiths, 2025-05-30 This book first published in Finnish in 1985 under the title Aalto is a critical introduction to Finnish architect Alvar Aalto 1898 1976 written by one of Aalto's Finnish architectural contemporaries Kirmo Mikkola 1934 1986 The book is divided into six sections dealing with different aspects of Aalto's architecture from his classical beginnings to urban planning as well as his various professional and intellectual associates Mikkola debunks the common opinion of a reticent Aalto to determine the roots of his thinking seeing him as a mediator of influences from a wide variety of sources The book was originally targeted at a Finnish audience and so its translation requires interpreters two architect scholars who knew Mikkola well Juhani Pallasmaa and Aino Niskanen The book also sheds light on a young generation of Finnish architects that distanced itself from Aalto as a role model pinpointed here by the inclusion of the essay Snowballs 1948 by Aulis Blomstedt Often quoted by Finnish architectural scholars the publication finally of an English translation of Mikkola's book will appeal to those international scholars and students who have been aware of the lack of critical perspectives from Aalto's Finnish architect contemporaries      **A Critical History of**

**Contemporary Architecture** Elie G. Haddad, David Rifkind, 2016-12-05 1960 following as it did the last CIAM meeting signalled a turning point for the Modern Movement From then on architecture was influenced by seminal texts by Aldo Rossi and Robert Venturi and gave rise to the first revisionary movement following Modernism Bringing together leading experts in the field this book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 It consists of two parts the first section providing a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different

perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects
