In addition to the two editors' chapters are contributed by a range of internationally known practitioners and academics offering a wide perspective. Case studies at the end of each section complement themes and practices from previous chapters while rooting the discussion in a specific context. The book is organized into four parts: Children's library services; policy, people and partnerships; Connecting and engaging; reaching your audience and catching the latest wave; acknowledging the role of technology; Buildings, design and spaces; libraries for children and young people; Issues for professional practice; Readership. This book is essential reading for all senior library practitioners, children's librarians and school librarians, subject co-ordinators and managers in schools. Useful for newcomers to the children's library staff as well as longtime children's librarians, the second edition of this popular handbook provides easy-to-follow instructions to make innovations in children's library materials work for you. Addressing everything from the basics of reference to the complex and highly specialized duties of program development, this handbook is perfect for both librarians and support staff who are assigned to the children's department of a library. It also describes expanded programming options such as makerspaces, gaming, dog reading programs and play at storytime. You'll learn about subjects such as pop-up and passive programming, offering online homework help and outreach and services to special needs children and then quickly implement new practices into use at your library.
