Corriher, 2013-09-25 Without any fear of repercussion or rejection Thomas and Sarah will lead you through a compelling never before seen exposure of widespread fraud in mainstream and alternative medicine in *Defy Your Doctor and Be Healed*. This book is meant to be more than just an investigation of fraudulent medicine it is intended to save your life. It is sure to be provocative as you will learn much of what you are told or sold by medical authorities and the media can be reduced to cleverly devised narratives or pathways for profiteering. As you learn the ins and outs you will be given the tools and knowledge to take charge of your health with confidence. As the veteran health detectives of Health Wyze Media Thomas and Sarah have earned enduring reputations for asking tough questions and getting unpopular answers. They are the producers of *The Health Wyze Report* a hard in depth look at the truth behind today's orthodox and alternative medicine and *The Cancer Report* a documentary about the cancer industry and its alternatives. *Defy Your Doctor and Be Healed* is the culmination of seven years of uncompromising medical research and reporting. Its premise is simple it approaches standard and alternative medicine from a scientific standpoint examining their goods and ills. It also asserts that the human body has natural healing abilities and that the answers to most of our health dilemmas are so close to us that we are unable to see them.

Tobacco and Health K. Slama, 2012-12-06 Over 1 100 delegates from a hundred countries attended the 9th World Conference on Tobacco and Health. After five days of debate several important resolutions were adopted unanimously and will be landmarks in the fight against tobacco. This great success is due to three facts which emerged from the discussions. 1 It appears clearly now that the risks associated with tobacco are much greater than previously assumed. Out of two regular smokers one will die from a tobacco related disease. 2 Reducing tobacco consumption can be achieved but the data collected in several countries show that it requires a global strategy. This strategy was much debated during the conference. The resolutions adopted emphasize the agreement of the delegates on the main points. Action to fight the growing epidemic of tobacco

attributable disease and death involves convincing the general public the medical community and decision makers of the need to act for tobacco control. The most efficient tools for helping individuals never to start or successfully to stop using tobacco should be developed. Effective tobacco control endeavors are required to counteract the actions of the powerful and influential tobacco manufacturers. With the help and under the aegis of WHO, DICC, IUATLD, ISFC, IOCD and IUHPE, an international alliance for health and against tobacco should unite all those who are engaged in this fight.
