Invisible Indigenes Bruce Granville Miller,2003-01-01 In the last few decades as indigenous peoples have increasingly sought out and sometimes demanded sovereignty on a variety of fronts their relationships with encompassing nation states have become ever more complicated and troubled The varying ways that today's nation states attempt to manage and often render invisible contemporary indigenous peoples is the subject of this global comparative study Beginning with his own work along the northwest coast of North America and drawing on contemporary examples from South America Asia Africa and Europe Bruce Granville Miller examines how national governments classify govern and control the indigenous populations within their boundaries through administrative judicial and economic means One telling consequence of such regulation strategies is that certain indigenous peoples become unrecognized their ethnic identities and heritages fail to find

legal register and thus empowerment within the very state organizations that manage other aspects of their lives In the United States alone reside two hundred thousand unrecognized indigenous individuals some members of indigenous communities that were dropped from the roster of tribes and others whose ancestors were overlooked Miller also considers some important differences between the fluid nature of ethnic identity for some indigenous peoples and the more rigid notion of identity encoded in many state regulations Invisible Indigenes reveals a recurring issue integral to the formation and maintenance of nation states today and highlights a common challenge facing indigenous peoples around the globe in the twenty first century

**The Arctic Promise** Natalia Loukacheva,2007-01-01 In Canada s Eastern Arctic and Greenland the Inuit have been the majority for centuries In recent years they have been given a promise from Canadian and Danish governments that offers them more responsibility for their lands and thus control over their lives without fear of being outnumbered by outsiders The Arctic Promise looks at how much the Inuit vision of self governance relates to the existing public governance systems of Greenland and Nunavut and how much autonomy there can be for territories that remain subordinate units of larger states By means of a bottom up approach involving cultural immersion contextual jurisprudential and historical legal comparisons of Greenland and Nunavut The Arctic Promise examines the forms evolution and scope of the right to autonomy in these Arctic jurisdictions Loukacheva argues that the right to autonomy should encompass or protect Inuit jurisdiction in legal systems and the administration of justice and should allow the Inuit direct participation in international affairs where issues that affect their homelands are concerned The Arctic Promise deals with areas of comparative constitutional law international law Aboriginal law legal anthropology political science and international relations using each to contribute to the understanding of the right to indigenous autonomy

Nomadic and Indigenous Spaces Judith Miggelbrink,Joachim Otto Habeck,Nuccio Mazzullo,Peter Koch,2016-05-06 This volume is devoted to aspects of space that have thus far been largely unexplored How space is perceived and cognised has been discussed from different stances but there are few analyses of nomadic approaches to spatiality Nor is there a sufficient number of studies on indigenous interpretations of space despite the importance of territory and place in definitions of indigeneity At the intersection of geography and anthropology the authors of this volume combine general reflections on spatiality with case studies from the Circumpolar North and other nomadic settings Spatial perceptions and practices have been profoundly transformed by new technologies as well as by new modes of social and political interaction How do these changes play out in the everyday lives identifications and political projects of nomadic and indigenous people This question has been broached from two seemingly divergent stances spatial cognition on the one hand and production of space on the other Bringing these two approaches together this volume re aligns the different strings of

scholarship on spatiality making them applicable and relevant for indigenous and nomadic conceptualizations of space place and territory      Global Currents in Gender and Feminisms Glenda Tibe Bonifacio,2017-12-13 This collection examines the ongoing shared struggles of diverse groups of women in Canada and beyond focusing on a diverse range of themes to explore the centrality of gender and feminist praxis in western and non western contexts      **An Introduction to Native North America -- Pearson eText** ,2015-08-26 An Introduction to Native North America provides a basic introduction to the native peoples of North America including both the United States and Canada It covers the history of research basic prehistory the European invasion and the impact of Europeans on Native cultures Additionally much of the book is written from the perspective of the ethnographic present and the various cultures are described as they were at the specific times noted in the text      **Soul Hunters** Rane Willerslev,2007-08-24 This is an insightful highly original ethnographic interpretation of the hunting life of the Yukaghirs a little known group of indigenous people in the Upper Kolyma region of northeastern Siberia Basing his study on firsthand experience with Yukaghir hunters Rane Willerslev focuses on the practical implications of living in a hall of mirrors world one inhabited by humans animals and spirits all of whom are understood to be endless mimetic doubles of one another In this world human beings inhabit a betwixt and between state in which their souls are both substance and nonsubstance both body and soul both their own individual selves and reincarnated others Hunters are thus both human and the animals they imitate which forces them to steer a complicated course between the ability to transcend difference and the necessity of maintaining identity      *Aunt Phil's Trunk* Laurel, Bill,2016-07-09 Author Laurel Downing Bill continues to bring Alaska history alive in Aunt Phil's Trunk Volume Four Following in the fast paced and entertaining footsteps of the previous three volumes Volume Four captures the essence of life in Alaska between 1935 and 1960 Its easy to read nonfiction short stories and more than 350 historical photographs highlight major events of World War II the Cold War era and Alaska's struggle for statehood
