 fifth of the world s energy consumption Population growth and the associated growth in housing commercial floor space  
 transportation goods and services is expected to cause a 0.7 percent annual increase in energy demand for the foreseeable  
 future The energy used by the commercial and residential sectors represents approximately 40 percent of the nation s total  
 energy consumption and the share of these two sectors is expected to increase in the future The Commercial Buildings  
 Energy Consumption Survey CBECS and Residential Energy Consumption Survey RECS are two major surveys conducted by  
 the Energy Information Administration The surveys are the most relevant sources of data available to researchers and policy  
 makers on energy consumption in the commercial and residential sectors Many of the design decisions and operational  
 procedures for the CBECS and RECS were developed in the 1970s and 1980s and resource limitations during much of the  
 time since then have prevented EIA from making significant changes to the data collections Effective Tracking of Building
