Fine Tuning One Mans Life:

The "Big Questions" of Life Eric Tegelberg, 2022-07-27 This book is an investigation into one man's look into the greatest questions of life. It begins with the idea of how we can know if there is a God. If there is a God, then several of the next big questions will be answered by what that God is like and how He has disclosed himself to humanity. **Fine Tuning** Dean Finney, 2001-08-01 One Man's Opinion Neighl Groh, 2008-08 The three most pervading questions asked by a majority of rational people are: How did I get here? Why am I here? What is my destiny? The author, in his quest for answers to these questions, has been induced to offer his discoveries in the writing of this book. It is my most sincere wish that perhaps many seeking souls might gain some insight into their search for answers to these all-encompassing questions found in their lives, especially during these times of much uncertainty that our world seems to have gone mad. The author is persuaded that he has found answers for profound questions and solace in his daily search of the Holy Scriptures, in addition to the opinions found in the writing of scholars, theologians, philosophers, and scientists. Neighl L Groh: During the first forty years of my life, I lived as a nominal Christian despite the fact that I was impressively taught the importance of Christian living by my parents starting at a very early age. My mother commenced teaching my five sisters, my brother, and me very early in our lives that we must follow love and receive the Lord Jesus and accept Him as our personal Savior. In the early 1960s, I met a group of Christ-loving men that changed my attitude, and I developed an unquenchable thirst for a much broader knowledge of God's plan and purpose for my life. Starting at the age of forty and continuing until my present age of eighty-five years, I have made it a practice to read the Old Testament once and the New Testament twice each year. Food for the Soul Susan Shapiro, Elizabeth Maxwell, 2000-01-01 A collection of essays, poems, and stories from a soup kitchen writers workshop. The selections are funny, gritty, and brutally honest writing that attests to a raw spirituality formed

and informed by life on the street When these writers are given prompts like It Was the Best Day So I Lied September Eleven My Best Mistake or In My Other Life they hold nothing back In his piece on Recovering Mackey reflects on how the writers workshop has changed his life he is now a licensed minister completing a book and a one act play Sometimes sweet and sometimes bitter this collection is a nutritious slice of life from a writers workshop that s truly in the soul food business

Logical Concepts of One Man's Realities John Totaro,2012-01-17 Believing in your self is a priority when exposing your life and beliefs to the public The words in this book may be of an extreme nature but tactful I am making an approach to the mass of people that want to make a difference in the world Sitting idle during your walk on this earth has a way of making people soft and unaware of their surroundings It was my pleasure to sit and write the words in this book that may really wake up the sleepers in the world and make them realize everyone and anyone can make a difference regardless of what they are trying to do Opening the pages and reading the words in this book will not only shock you but make you laugh and be edified that life is suppose to be filled with fun and happiness Open your mind and heart to the realities that were lost and the new ones that were found Time is of the essence and time can never be given back to those who waste what they were given to prosper on this earth What you can do is rise up and quit being passive aggressive with all due respect Peace health and wealth to all

Me the People Kevin Bleyer,2013-07-02 The United States Constitution promised a More Perfect Union It s a shame no one bothered to write a more perfect Constitution one that didn t trigger more than two centuries of arguments about what the darn thing actually says Until now Perfection is at hand A new improved Constitution is here And you are holding it But first some historical context In the eighteenth century a lawyer named James Madison gathered his friends in Philadelphia and over four long months wrote four short pages the Constitution of the United States of America Not bad In the nineteenth century a president named Abraham Lincoln freed an entire people from the flaws in that Constitution by signing the Emancipation Proclamation Pretty impressive And in the twentieth century a doctor at the Bethesda Naval Hospital delivered a baby but not just any baby Because in the twenty first century that baby would become a man that man would become a patriot and that patriot would rescue a country by single handedly rewriting that Constitution Why We think of our Constitution as the painstakingly designed blueprint drawn up by in Thomas Jefferson s words an assembly of demigods who laid the foundation for the sturdiest republic ever created The truth is it was no blueprint at all but an Etch A Sketch a haphazard series of blunders shaken clean and redrawn countless times during a summer of petty debates drunken ramblings and desperate compromise as much the product of an assembly of demigods as a confederacy of dunces No wonder George Washington wished it had been made more perfect No wonder Benjamin Franklin

stomached it only with all its faults The Constitution they wrote is a hot mess For starters it doesn't mention slavery or democracy or even Facebook it plays favorites among the states it has typos smudges and misspellings and its Preamble its most famous passage was written by a man with a peg leg Which if you think about it gives our Constitution hardly a leg to stand on Pause for laughter Now stop laughing Because you hold in your hands no mere book but the most important document of our time Its creator Daily Show writer Kevin Bleyer paid every price bore every burden and saved every receipt in his quest to assure the salvation of our nation's founding charter He flew to Greece the birthplace of democracy He bused to Philly the home of independence He went toe to toe face to face with Scalia He added nightly confabs with James Madison to his daily consultations with Jon Stewart He tracked down not one but two John Hancocks to make his version twice as official He even read the Constitution of the United States So prepare yourselves fellow patriots for the most significant literary event of the twenty first twentieth nineteenth and latter part of the eighteenth centuries Me the People won't just form a More Perfect Union It will save America Praise for Me the People I would rather read a constitution written by Kevin Bleyer than by the sharpest minds in the country Jon Stewart Bleyer takes a red pencil to democracy's most hallowed laundry list Uproarious and fascinating Reader's Digest I knew James Madison James Madison was a friend of mine Mr Bleyer you are no James Madison But you sure are a heck of a lot more fun Pulitzer Prize winning historian Doris Kearns Goodwin author of the 1 New York Times bestseller Team of Rivals Life Association News ,1928 **WHAT IS MAN?** Edgar Andrews,2018-07-03 In 1906 American humorist Mark Twain published a sixty page essay entitled What is man Consisting of an interminable dialogue between a senior citizen who believes that man is just a machine and a young man who believes nothing in particular but is open to persuasion it wasn't one of his finest books But at least he tried Authors since then seem to have avoided the subject like the plague often tackling the respective roles of men and women in society but seldom asking deeper questions about what it means to be human When the psalmist asked What is man Psalm 8 v 4 he was I think seeking an altogether more profound answer Avoidance of the subject is all the more strange because there has never been a time like our own when curiosity about human origins and destiny has been greater or the answers on offer more hotly disputed It's a safe bet that any attempt to give the big picture on the origin nature and specialness of mankind will be contentious which might explain why writers have generally fought shy of it Yet at heart it is the question most of us really do want answered because the answer defines that precious thing we call our identity both personally and as a race The Psalmist did of course offer his own answer three millennia ago Man he claimed was created by God for a clearly defined purpose to exercise dominion over planet earth and by implication to ultimately share something of the glory of the divine nature The rest as they say is history but it's not a happy tale As Mark Twain says in another essay I can't help being disappointed with Adam and Eve Not surprisingly then a large proportion of humanity today are looking for alternative solutions accepting the challenge of the Psalmist's question without embracing the optimism of his answer In this book we are going to consider the

alternative solutions on offer by considering what it means to be human against the backgrounds of cosmology man's place in the universe biology man's place in the animal kingdom and psychology man's consciousness and mind Finally we return to the biblical context arguing that the Psalmist got it right after all Don't let the science sounding stuff put you off Like its popular prequel Who made God Searching for a theory of everything this book is written with a light touch in a reader friendly and often humorous style It is intended specifically for the non expert with homely verbal illustrations designed to explain and unpack the technicalities for the lay person As Dr Paul Copan Pledger Family Chair of Philosophy and Ethics Palm Beach Atlantic University says Edgar Andrews has a way of making the profound accessible His scholarship informs the reader about key questions of our time offering wise guidance and illumination
